“WHY CITY FLAGS MAY BE THE WORST DESIGNED THING YOU’VE NEVER NOTICED”

- In a TED Talk, Roman Mars speaks about these symbols of civic pride that are often terribly designed, and reveals the 5 basic principles of flag design for cities
- Mars asserts that if a city flag is not designed well according to these principles, it must be changed for the betterment of the community.

WHY IS A FLAG IMPORTANT

- A flag is a unifying symbol which instills pride into its residents while representing a city's past, present, and future.
- Our flag should signify the growth, values, and changes in Riverside throughout the years.
- A redesigned flag should reflect our city of arts, innovation, and inclusivity, and serve as a banner for our residents to unite under as we face the challenges ahead.

RUSD CONTEST

- RUSD's artistic contest centered around redesigning Riverside's flag and was open to all students in the City of Riverside from TK-12th grade.
- yielded many great redesigns for Riverside's flag, but more importantly it offers insight from our students into the elements our city flag should incorporate as a representation of Riverside.
