## **BACKGROUND:**

On July 31, 2019, the Homeless Housing, Assistance and Prevention (HHAP) was authorized by Assembly Bill (AB) 101, which was signed into law by Governor Gavin Newsom. HHAP is a one-time block grant program designed to support regional coordination and expand or develop local capacity to address immediate homelessness challenges throughout the state. As one of the Big 13 Cities in the State of California, the City was awarded \$6,902,244.82 to provide homeless and

housing services over a five-year period. The City allocated HHAP funding towards the following programs:

HHAP	
ACTIVITY	FUNDING AMOUNT
Bridge Housing Program Rehabilitation of 2881 Hulen Place; 24 bridge housing beds	\$1,318,978.45
Recuperative Care Program Rehabilitation of 3024 Franklin, 50 beds	\$2,600,000.00
Emergency Shelter Pallets Development and Operations (First Year)	\$1,248,258.00
Rapid Re-Housing Program (Massachusetts Action Plan)	\$500,000.00
Outreach to Santa Ana River	\$202,379.00
Youth Programs (8% of grant allocation)	\$552,179.59
Administration (7% of grant allocation)	\$480,449.78
<b>TOTAL HHAP GRANT</b>	<b>\$6,902,244.82</b>

On June 29, 2020 Governor Newsom signed into law the second round of Homeless Housing, Assistance and Prevention (HHAP-2) funding authorized by AB 83. Building on the regional coordination created through HHAP-1, the Homeless Coordinating and Financing Council (HCFC) intended to support local jurisdictions in their unified regional response to reduce and end homelessness.

HCFC announced a \$300 million block grant program in HHAP-2 funding to include California's 13 largest cities, 58 counties, and 44 Continuums of Care (Attachment 1). Identified as a Big 13 City, Riverside would receive an allocation of \$3,262,879. Additionally, the County of Riverside allocation amount is \$1,402,400.00 and the County of Riverside Continuum of Care allocation is \$1,566,822.00.

The HHAP-2 grant funding program guidelines were released on November 24, 2020, with an application deadline January 23, 2021. Applicants are encouraged to prioritize the use of HHAP funds to assist individuals experiencing homelessness with moving into safe, stable housing, with a focus on rehousing individuals currently living in Project Room Key. The State has encouraged applicants to fund housing focused interventions in permanent supportive housing or linking to permanent supportive housing through shelter or street outreach.

Specifically, the award of funds is intended to build on regional coordination developed through previous rounds of HCFC funding, including: Homeless Emergency Aid Program (HEAP), HHAP-1, and COVID-19 Emergency Homeless funding. A unified regional response to reduce homelessness is encouraged by leveraging local, state and federal funds, demonstrating a commitment to address racial disparities, establish a mechanism for people with lived experience of homelessness to have an opportunity to inform planning and implementation, and prioritizing programs that are Housing First compliant, low barrier, trauma informed, and culturally responsive.

While eligible uses for funding are broad and should be determined based on the need of the jurisdiction, suggested uses include but are not limited to:

1. Rapid Rehousing, including rental subsidies and incentives to landlords, such as security

deposits and holding fees.

2. Operating subsidies in new and existing affordable or supportive housing units, emergency shelters, non-congregate shelters, interim or bridge housing, and navigation centers.
3. Street Outreach to assist persons experiencing homelessness to access shelter and permanent housing and services.
4. Services Coordination, including access to workforce, educations, and training programs, and other supportive services.
5. Systems support for activities necessary to create regional partnerships and maintain a homeless services and housing delivery system.
6. Delivery of permanent housing and innovative solutions, such as hotel and motel conversions.
7. Prevention and shelter diversion including crisis resolutions, and light touch financial assistance.
8. New Navigation Centers and Emergency Shelters, with clients obtaining housing as the primary goal.

In addition, Health and Safety Code Section 50218.5(f) requires that applicants must use at least 8 percent of its allocation for services for homeless youth populations, which are defined as unaccompanied youth who are between 12 and 24 years old and experiencing homelessness. No more than 5 percent of an applicant's program allocation may be expended on a homeless strategic plan and no more than 7 percent of applicant program allocation may be expended on administrative costs.
