				1	Return Shipping (FedEx Ground)	155.00	155.00
						Total	\$52,028.75

Additional Information

Flat Rate Overhaul: Upon receipt of the client's nozzles they shall be subjected to a full clean, pressure / flow test & inspection processes.

Any identified repairs shall be carried out IAW with OEM processes / procedures, utilising only OEM replacement parts.

Nozzle position chart shall be included in the final shipment, providing the client with the best opportunity to maximise the efficiency of their GT package/s.

The above items can be made available in around 4-6 Weeks from receipt of client PO.

Please Note: Any nozzle/s that may be identified as being affected by partial / complete internal circuitry blockages, may require to be subjected to intensified cleaning & / or machining processes, following removal of any gas shrouds / liquid metering tips. Should it become evident that the blockage can't be eliminated, it may be necessary to render the nozzle / s beyond economical repair (BER).

Notification of any instances of this nature shall be communicated to yourselves as early as possible. Score Energy shall not be held liable for providing any replacement nozzles.
