BID SPECIFICATIONS

EXHIBIT B SPECIFICATIONS

1. Handgun Requirements

- a. All proposed handguns shall have:
 - i. 9mm platform
 - ii. Barrel less than 5 inches
 - iii. Barrel more than 4 inches
 - iv. Black diamond like carbon barrel (DLC) is a carbon composite with many of the positive characteristics of diamond. DLC is used to coat the internal parts of the gun, along with the barrel and frame. The use of DLC is proven to reduce friction between the internal mechanisms to prevent wear and tear. It's also shown to be entirely corrosion-resistant, chemically inert, and self-lubricating in dry environments.
 - v. Weight less than 35 ounces (w/out magazine)
 - vi. Trigger pull at or less than 4.5 pounds
 - vii. Low profile aluminum magwell
 - viii. Double stack magazines (2- 20 round magazines and 4- 17 round magazines)
 - ix. Adaptable for ambidextrous shooters
 - x. Ambidextrous safety levers
 - xi. Steel frame
 - xii. Accessory rail
 - xiii. Fiber optic front sight
 - xiv. Tactical Dawson Universal Optic System
 - xv. Optic specific mounting plates
 - xvi. Fixed sights is designed to co-witness with full sized red dot optics
 - xvii. Upon request- Vendor able to provide minimum of three law enforcement agencies/military units that currently use their product
 - xviii. Minimum 40 gun purchase
 - xix. Warranty the build will be free of originally manufactured defects in material, workmanship and mechanical function
 - xx. Lifetime warranty of firearm to correct any defect in the firearm by repair, adjustment or replacement with the same or comparable quality components
 - xxi. Level 1 operator's course
 - xxii. Level 1 armorer's course
 - xxiii. Department or team logo lasered on the slide
 - xxiv. Tactical advantage magwell which provides increased surface area for speed reloads without adding significant weight or size to the grip profile. When combined with the tactical performance base pads, this magwell also prevents over insertion of the magazines during aggressive reload techniques in training or operations.
 - xxv. Cover plates, optic-specified mounting plates and co-witness height sights for full sized red dot optics
