

GREATER RIVERSIDE CHAMBERS OF COMMERCE

The Chamber...building a stronger local economy

October 14, 2021

Mr. Al Zelinka
City of Riverside
900 Main St
Riverside, CA 92501

Dear Mr. Zelinka,

As a member of the Grand Opening Committee for the California Air Resources Board (CARB) Southern California Headquarters, the Greater Riverside Chambers of Commerce is inviting you to join us in expressing our excitement in welcoming CARB to Riverside. For several years, the Chamber has worked in close partnership with the City, County, and University of California, Riverside to help bring the CARB facility to our community.

Their new Southern California Headquarters – the Mary D. Nichols Campus – opens in Riverside this fall and we are planning a suite of celebration events, including a Public Open House, an Employee Open House, the Mary D. Nichols Campus' Dedication Ceremony, and the Haagen-Smit Clean Air Leadership Talks and Reception. These celebration events will highlight CARB's state-of-the-art facilities and the innovative solutions that continue to significantly improve Southern California's air quality.

We are thankful for your impactful sponsorship of past events and would be grateful for your continued support of \$5,000 towards grand-opening events. To provide equal recognition to each elite sponsor, we are requesting a single level of funding support. Please see the benefits of the elite sponsors on the attached page.

We look forward to your participation at these gatherings as we welcome the CARB team to Riverside and celebrate our shared journey towards creating a cleaner, more sustainable, and healthier world!

Respectfully,

Cindy Roth
Member, CARB Grand Opening Committee
