Cash Reserves

Reserves can be restricted by applicable laws and regulations or designated for specific purposes. Reserves that have not been restricted or designated are available to pay bills and provide cushion in the event of an emergency. The target levels for the projected minimum and maximum reserve range below are based on current forecasts for FY 25-26 and will be determined annually at 6/30 in conjunction with year-end financial results. The undesignated reserve of \$144.6M is \$9.2M lower than prior year primarily due to higher operating expenses compared to the prior year. When combined with the line of credit, the undesignated reserve is below the projected target minimum level. As the fiscal year continues, the undesignated reserve is expected to increase as forecasted. The undesignated reserve will be monitored on an ongoing basis to ensure it remains at an appropriate level.
