PURPOSE OF THE RESERVE POLICIES

Properly designed reserve policies send a positive signal to ratepayers, investors, and regulatory and credit rating agencies that the Board and City Council are committed to maintaining the long-term fiscal strength of RPU.

Strong and transparent financial policies, including maintaining prudent reserves for emergencies, rate stability, working capital, capital improvements and debt service, are consistent with best practices in the utility industry.

RESERVE CATEGORIES

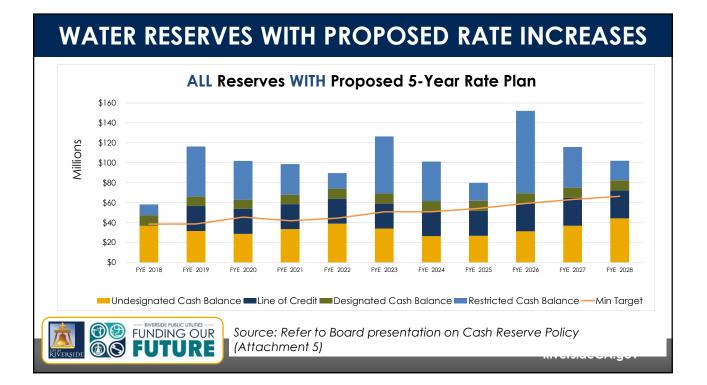

- 1. Restricted Reserves are established and utilized for narrowly defined purposes as specified by legal restrictions, bond covenants, and other regulations or ordinances.
- 2. Designated Reserves are that portion of unrestricted reserves that meet specific purposes set aside by the Board and City Council. Designated reserve funds ensure stable service delivery, meet future needs, and protect against financial instability. Designated reserves may be held for specific capital and operating purposes.
- 3. Undesignated Reserves are the remaining unrestricted reserves that may be used for any lawful purpose and have not been designated for specific capital and operating purposes; however, maintaining a proper level of undesignated reserves is critical to ensure the utility can meet its fluctuating cashflow demands and mitigate financial volatility.

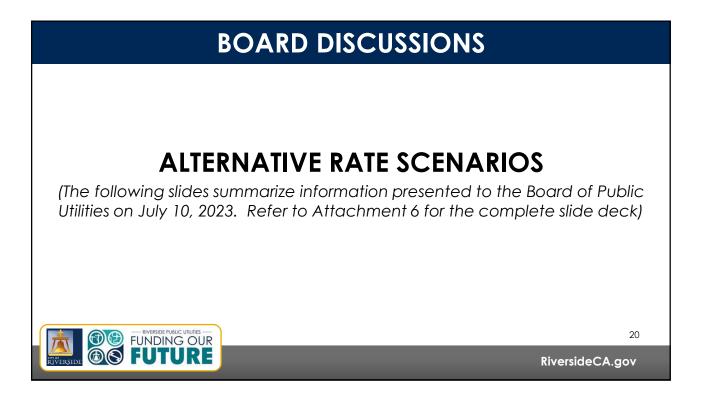

FUNDING OUR

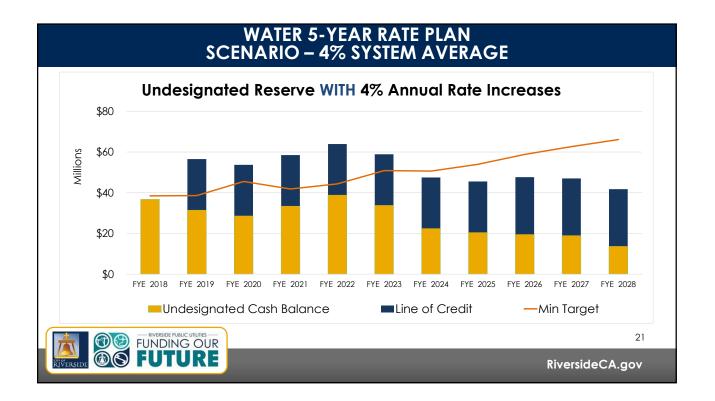

RiversideCA.gov

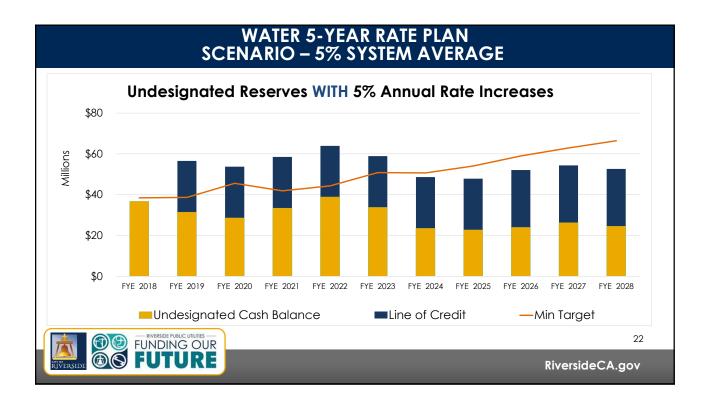

RESERVE	S - EXAMPLES AND DEFINITIONS
Restricted Reserve	Definition
Bond Redemption Reserve (Debt Service)	This reserve is set aside for future bond payments that are governed by bond covenants.
Water Conservation Fund	May 2004 City Council approved 10-year monthly surcharge of 1.5% of the total water charge to provide financing to create and encourage water conservation and efficiency programs, renewed March 2014.
Designated Reserve	Definition
Customer Deposits	Monies held on behalf of RPU's customers as required to be utilized if a customer fails to pay their utility bill.
Recycled Water	Established June 2014 to set aside funds for a recycled water program. Funding was from a legal settlement from the City.
Undesignated Reserve	Definition
Operating (Working Capital)	Ensures sufficient resources to pay budgeted operating and maintenance expenses, including power supply costs, recognizing the timing differences between payment of expenditures and receipt of revenues.
System Improvements Capital	Provide funds to ensure continuity of construction over fiscal years to be reimbursed by bond proceeds or other resources.

RECOMMENDATIONS

That the Board of Public Utilities Recommend City Council:

- 3. Conduct a public hearing to receive input related to the water utility five-year rate plan proposal and to consider and tabulate all written protests to the proposed water rate increases;
- 4. Adopt a resolution recording receipt of written protests to the water utility five-year rate plan proposal and, if no majority protest is received to those water rates, approving the water utility five-year rate plan proposal, as further described in that resolution; and
- 5. Recommend the City Council approve changes to the low-income water assistance program.
