

Parks, Recreation & Community Services Department			
Community Meeting Location & Attendance #'s	Date	Resident Name	Comments
Bordwell Park - Advisory Mtg-45 in attendance	4/24/2024	June Johnson	ASP % increase is too high for our kids
		Unknown Resident	Senior Nutrition should be free
		Dale Roberts	Concerned with the many increases across the board, especially youth and senior programs
La Sierra Senior Center-32 in attendance	5/1/2024	Unknown Resident	don't believe senior luncheons should increase
		Ms. Betty	Concerned with youth programs increasing. Parents cant afford to have their kids in programs and so they will be on the streets
		Colleen Fox	Fees for luncheons to high. Seniors on fixed incomes can't afford too much. Maybe only increase to \$5
		Elaine Wheeler	Maybe \$6 is a good increase
		Kathy Bulchlez	Fee are too high agree with a \$5 luncheon fee
		Bobbie Bender	Agree with an small increase of \$2 dollars
		Janet	Lunch should be free to seniors
Arlanza Community Center-20 in attendance	5/2/2024	Alma	Make it more clear that the dance and cheer class program is a 3 month fee vs. a monthly fee
		Janet	Why such a drastic increase in fees across the board?
		Kimberly	Families with Multiple kids will not be able to afford these programs. Add a sibling rate for camps too
		Patricia	City needs to ensure that council knows where these programs are offered, the direct community it impacts, high risk, low income areas that need these direct services.
		Daisy	Camp fees to high. Will impact all community centers and eventually they will be cancelled out.
		William	youth rate increases are too high. We should look at increasing the non-resident rental rates instead. Commercial business should pay more for use of facilities.
		Sal	RAP fees are too expensive already. Especially now with not too many scholarship dollars available for them such as ARPA and CDBG. Program will be cancelled due to low registration.
		Fatima	City Council should know where these programs were already cancelled due to the increase in previous fees.
		Caleb Barerraz	Who is paying these fees. Most of the families in Riverside have multiple families in their households because it is too expensive and now we have an increase in fees.
		Alma	Need to see how many scholarships are given and what demographic to see real impact to community
		William	Golf Course Fee round up to the dollar. Fairmount Golf Course is the most affordable around for residents
		Unknown Resident	Cost of Pool rentals is to expensive and with the additional insurance requirements is too much money to rent.
		Unknown Resident	CPR Safety classes should be affordable to youth
Villegas Community Center-13 in attendance	5/7/2024	Paul Rivera	Why would programs offered in low income community like Villegas have an increase in fees
		Erin Snyder	Lower income communities such as this depend on their community center for services. Having an increase in fees impacts their ability to use the center and keep kids and families off the streets.
		Erin Snyder	Senior Special Events is too much of an increase. Should consider looking at sponsorship opportunities to keep cost low or even zero.
		Erin Snyder	Bourns Family Youth Innovation Center program fees are too expensive. My understanding was these programs should be accessible to the community so anyone can take them. I am sure Mr. Bourns would want it that way.
		Erin Snyder	Youth Sports rates seem reasonable, but we should consider a sibling fee and update volume.
		Erin Snyder	Afterschool Program Fees too high of a fee. Should consider reducing as many families have more then one child in their home the need these services.
		Andrew	Senior Nutrition should be free. Seniors are on fixed incomes and need these services on a daily. Doesn't that have to do with food and security?
		Andrew	Time for Tots fees are too high. These programs are necessary to keep our kids in education affordable programs. I think the cost will keep people from enrolling and eventually the program will seize to exist.
		Erin Snyder	Pay and Play fee should be more with the use of that space by them.
		Erin Snyder	Rental Rates may increase for non-resident groups But believe the increase will impact youth and non-profits who typically use the centers/.
		Andrew	Fairmount Golf Course Fees can we increase the fees more there?
		Donna	Two sons in boxing program and really need the fees to remain affordable. Single parent and trying to keep them off the streets involved in something positive. There is already cost of equipment for these programs and adding in more could really affect us.
		Erin Snyder	Pools need to be open 7 days a week Weekends especially when our kids don't have nothing to do in the summer
		Paul Rivera	RPD should consider supporting more of our youth boxing programs
		Andrew	BFYIC Fees not really representing an opportunity to create opportunity to kids that normally would have these programs available.
