

## UPDATE ON VARIOUS STORM DRAIN CAPITAL IMPROVEMENT PROJECTS

### Public Works Department

Mobility and Infrastructure Committee Meeting  
June 12, 2025

RiversideCA.gov

## BACKGROUND

- Residents have reported flooding concerns throughout the City, especially in its southwest sector
- The Public Works Department actively pursues funding from the Riverside County Flood Control District and Water Conservation District (RCFC) to design and construct storm drain infrastructure improvements throughout the city to improve quality of life.
- In 2020, Public Works completed the construction of Master Drainage Plan Line E, Stages 2 and 3, Line E-2 and E-5 along Gratton Street.
- Currently, Public Works has four projects in various phases:
  - Box Spring MDP Line D, Stage 1
  - Southwest Riverside MDP Line E-1, Stage 1
  - Monroe MDP, Monroe Storm Drain, Stage 5
  - Master Drainage Plan for the Northside Specific Plan Area

## DISCUSSION

### Box Springs Master Drainage Plan Line D, Stage 1

- Box Springs MDP Line D will be an extension of the 3<sup>rd</sup> Street grade separation project which will divert potential flow that will be created by the new grade separation project.
- The Project will install approximately 4,300 linear feet of underground storm drain pipes within the public right-of-way in Kansas Avenue, Fourth Street, and Commerce Street.
- The Project design is nearing completion with construction anticipated to start in early 2026.

6

# DISCUSSION

## Southwest Riverside Master Drainage Plan Line E-1, Stage 1

- This Project will provide a permanent conveyance system within the public right of way aimed at alleviating flooding conditions that have impacted numerous residents in the Arlington Heights neighborhood.
- The Project will install approximately 4,200 linear feet of underground storm drain pipes and ancillary structures to improve drainage and flood protection along Dufferin Avenue, John Street, and Victoria Avenue.
- The project is currently in the design phase with construction anticipated to begin in summer of 2026.

## DISCUSSION

### Master Drainage Plan, Northside Specific Plan Area

- The Draft Northside Master Drainage Plan contains detailed hydrology and hydraulics analyses and assesses existing drainage issues to develop feasible capital improvement projects to provide adequate flood protection within the Northside Specific Plan Area.
- This drainage study is in support of the Northside Specific Plan.
- The Drainage plan will provide analysis for three major regional facilities – Highgrove Channel, Springbrook Wash and University Wash
- The drainage study is currently in progress and is anticipated to be completed by Summer 2025.

## STRATEGIC PLAN ALIGNMENT

### Strategic Priority No. 6 Infrastructure, Mobility and Connectivity

**Goal No. 6.2** – Maintain, protect, and improve assets and infrastructure within the City's built environment to ensure and enhance reliability, resiliency, sustainability, and facilitate connectivity.

**Goal No. 6.3** – Identify and pursue new and unique funding opportunities to develop, operate, maintain, and renew infrastructure and programs that meet the community's needs.

### Cross-Cutting Threads

Community Trust

Fiscal Responsibility

Sustainability & Resiliency

Equity

Innovation
