

## Attachment Timeline of Council Actions on RTRP

Following the CPUC's grant of the CPCN on March 18, 2020, the City Council has had numerous discussions and taken action regarding the RTRP project. The following table outlines the meeting dates and actions that were taken by the Council. (Note: All agendas, reports, recordings, and minutes of the meetings are available through the City's website.)

Council Meeting Date	Council Action
<p>April 5, 2022 Agenda Item 15</p>	<p>Update provided by SCE representatives on the status of the RTRP. Council action: Following discussion, the City Council received and ordered filed the update by representatives of Southern California Edison on the progress and project actions on the Riverside Transmission Reliability Project ( RTRP).</p> <p>Following discussion, it was moved by Councilmember Hemenway and seconded by Councilmember Cervantes to Bring back the item to City Council for further discussion; and, Direct staff to explore alternative options for the project actions.</p> <p>The motion carried unanimously.</p> <p>The questions that staff was directed to respond to included the following:</p> <p>What was the extent of community outreach and communication about the project? Why were Chino Hills and Jurupa Valley granted undergrounding for portions of projects through their communities and not Riverside? What other project alternatives were considered? What is the CPUC process to consider a request to modify the approved project including to underground the remainder of the project through the City of Riverside? Is there consideration by SCE to underground, change or remove existing low voltage lines through Bradford Street? Are there health impacts of the approved electric transmission power lines? How were impacts on environment and disadvantage communities considered? What are the wildfire risks from the project and safety measures planned?</p>

Council Meeting Date	Council Action
