Definitions for PFAS Report

Notification Level (NL) - Health-based advisory levels established by the DDW for chemicals in drinking water that lack MCLs. When chemicals are found at concentrations greater than their notification levels, certain requirements and recommendations apply.

Response Level (RL) - The level at which DDW recommends removal of a drinking water source from service.

Public Health Goal (PHG) - Concentrations of drinking water contaminants that pose no significant health risk if consumed for a lifetime, based on current risk assessment principles, practices, and methods.

Maximum Contaminant Level Goal (MCLG) – The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are non-enforceable health goals.

Maximum Contaminant Level (MCL) – Legally enforceable health protective drinking water standards to be met by public water systems. MCLs take into account not only chemicals' health risks but also factors such as their detectability and treatability, as well as costs of treatment. Health & Safety Code §116365(a) requires a contaminant's MCL to be established at a level as close to its PHG as is technologically and economically feasible, placing primary emphasis on the protection of public health.

Abbreviations & Acronyms

\$/kgal Dollar per 1,000 gallons

ACWA Association of California Water Agencies
AWWA American Water Works Association

CA California

DBCP Dibromochloropropane

DDW Division of Drinking Water a division of the SWRCB

EPA Environmental Protection Agency - Federal regulatory agency

GAC Granular activated carbon

Gen X Trade name for a processing aid technology used to make high-

performance fluoropolymers

GPM Gallons per minute

HFPO-DA Hexafluoropropylene oxide dimer acid

HI Hazard index IX Ion exchange JWN John W. North

MCL Maximum contaminant level

NL Notification level

NPDWR National primary drinking water regulation

NPV Net present value (estimated in 2022)

O&M Operation & Maintenance

PFAS Per and polyfluoroalkyl substances

PFBS Perfluorobutane sulfonic acid PFHxS Perfluorohexane sulfonic acid

PFNA Perfluorononanoic acid

PFOA Perfluorooctanoic acid

PFOS Perfluorooctane sulfonic acid

PPB Parts per billion PPT Parts per trillion

PV Present value (estimated in 2022)

RFP Request for proposals

RL Response level

RPU Riverside Public Utilities

SWRCB Sate Water Resources Control Board - State regulatory agency
