CASH RESERVES

Reserves can be restricted by applicable laws and regulations or designated for specific purposes. Reserves that have not been restricted or designated are available to pay bills and provide cushion in the event of an emergency. The target levels for the undesignated reserve are established by City Council through reserve requirements for fiscal stability and are determined annually at 6/30 in conjunction with year-end financial results. The undesignated reserve of \$135.4M is \$4.8M higher than prior year primarily due to a decrease in accounts receivable and positive operating results, offset by higher than expected energy costs. The undesignated reserve balance, combined with the available line of credit (LOC), is within the minimum and maximum levels at 4/30/24. In February 2024, the undesignated reserve was replenished with the 2024A Electric Revenue Bonds for qualifying capital projects going back to August 2022.
