3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Autocar was founded in 1897 as a “tech startup” in Pittsburgh and is the oldest motor vehicle brand in the Western Hemisphere, older even than Buick, Cadillac, or Ford. Autocar quickly became an innovative pioneer in the new automotive industry and built America’s first motor truck, in 1899. Many innovations common in all cars and trucks were first introduced by Autocar, such as the drive shaft and oil circulating through an engine. Autocar #1 is in the Smithsonian National Museum of American History.</p> <p>Autocar’s dedication to meeting severe-duty customers’ needs led to leadership in building trucks of all kinds, including refuse trucks for waste haulers all across the United States. Autocar was among the first to build trucks to handle dumpsters, even in the 1930s. Autocar built a whole fleet of early elevator body trucks for New York City, the precursors to today’s compactor bodies. Autocar was also an innovator in engines and introduced some of the earliest trucks powered by reliable, high-torque Cummins Diesel engines. For the past 19 years, Autocar has been 100% American-owned by GVW Group and every Autocar is built by American hands at our facilities in Birmingham, Alabama or Hagerstown, Indiana.</p> <p>Today, Autocar is the only American truck manufacturer focused on trucks for severe-duty vocational applications. But above all, Autocar is focused on our customers: We don’t just build trucks, we provide a complete tool - a whole system - that helps our customers to be more successful and to achieve their challenging objectives. Autocar is totally different. Our success competing against companies 100 times our size is driven by our different approach to every aspect of our – and our customers’ – business. The most important is our guiding principal, posted everywhere around our facilities: “The Customer is Our Boss”. We have shaped every business activity in Autocar to make this principal a reality:</p> <ul style="list-style-type: none"> ■ We define our customers differently ■ We build relationships with our customer differently ■ We work with and sell to our customers differently ■ We specify our trucks differently ■ We custom-engineer our trucks differently ■ We build our trucks differently ■ We provide service, training, and warranty support differently ■ We innovate our product improvements differently <p>As a result, Autocar has earned the right to serve hundreds of customers including most major cities in the United States and Canada, such as Chicago, Los Angeles, Houston, Miami, Baltimore, and Charlotte, most national waste-hauling fleets, and many of the largest retailers, food manufacturers, and freight logistics companies in North America.</p> <p>Our slogan, Always Up®, isn’t just some fancy promise – it’s a state of mind. Always Up means we work intimately with our customers so that every single one of our trucks is purpose-built to fit the specific needs of their business and stay in service. Always Up also means our Autocar Solutions® 24/7 service command center solves our customers’ technical issues and coordinates our network of hundreds of authorized Autocar service locations across the United States and Canada.</p>
8	What are your company's expectations in the event of an award?	<p>Autocar Truck with a Sourcewell award will continue to market, sell and service class 7 & 8 truck chassis. We intend to grow the business year after year from the current contract we hold by aggressively marketing and promoting the new contract. The Sourcewell contract will provide an avenue for Autocar to market to all members and provide them the resource to purchase long term value over up front price and select the best vendor for their needs. The contract assures them of being able to leverage National discounted pricing while utilizing a transparent and trackable process. Having a conventional now to add to our line-up of cabover products will open many more markets in the government sector. Thru our own sales force, the salesforce of our National dealer network and the addition of a conventional cab product we see continued growth and success in the US and Canada should we be awarded this contract.</p> <p>We plan to promote Sourcewell to smaller and larger government agencies alike with press releases, social media, email marketing campaigns, trade shows, etc. Our sales force as well as the national dealer sales force will receive continued training and marketing materials thru not only our national and regional meetings but by attending Sourcewell regional training events.</p>

Autocar is active selling and servicing the Canadian market with a dedicated Regional Business Manager living in and responsible to the Canadian market. Table 7: Marketing Plan

Line Item	Question	Response *
32	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Autocar enthusiastically has made the current Sourcewell contract a central feature of our marketing program to all government-related customers and we plan to expand our efforts should we be awarded a new contract. Details of the Sourcewell award will be communicated to the Autocar sales teams at a National Sales Meeting, shared on our internal digital collaboration tool, and discussed at weekly sales meetings through the life of the award. Autocar's dedicated Municipal sales teams (built around the specific applications municipal buyers focus on, such a road maintenance, solid waste collection, park district operations, and universities) will take the lead to ensure all Autocar sales personnel are meeting our objectives to reach Sourcewell members with the information they need to take advantage of the Autocar Sourcewell contract. The Autocar account service teams will be allocated geographic territories and make early contact with Sourcewell members to inform them of the award and learn about their specific needs. Autocar plans to promote its membership in Sourcewell via press release, social media, and email marketing campaigns. Autocar dealers and service centers across North America will be advised of our award by Sourcewell and the benefits to Sourcewell members of working with Autocar. Autocar also promotes our Sourcewell contract at all trade shows, whether major events, such as Waste Expo, or smaller events, such as regional SWANA events which take place throughout the year and across the country.
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Autocar uses sophisticated digital marketing techniques to reach and sell to hundreds of thousands of potential customers each month and has greatly expanded these programs since the previous contract award by Sourcewell. Autocar advertises in digital media, such as Google and also on trade association websites, and successfully sells millions of dollars of trucks each year via leads obtained through this advertising program. Social media, such as Facebook, Twitter, LinkedIn, and Instagram each have their own target audiences in the municipal and government markets. These rapidly expanding tools are used by Autocar to reach and interact with literally hundreds of thousands of customers and fans weekly – and are leveraged to reach Sourcewell members. Autocar features Sourcewell members in many of its social media posts, celebrating their successes. Some of these Sourcewell members are also featured in Autocar's annual printed calendar, distributed to thousands of truck owners and operators, which then provides additional digital content to be promoted each month. This underscores Autocar's commitment to the municipal market and generates new leads from incremental municipal customers. Autocar encourages these customers to leverage their Sourcewell membership in purchasing, including encouraging them to join Sourcewell if they are not yet members. Finally, email marketing campaigns featuring Autocar products, useful information to improve performance, and the benefits of the Sourcewell award will be crafted to remind municipal and governmental customers to take advantage of the advantages of buying under Sourcewell. These campaigns are sent to thousands of verified buyers and influencers working within Sourcewell member organizations.
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell's national contracts offer a timesaving efficient procurement process for government and education. Sourcewell offers their members the opportunity to purchase the products they need at discounted prices while saving both time and money by forgoing the traditional bid writing, publishing and award process. The member can be assured they are taking advantage of the discounts/buying power offered from the awarded contract holders to the members. Holding a Sourcewell awarded contract allows the Autocar sales team together with our National dealer network salesforce to communicate a unified sales process and utilize the national awarded Sourcewell contract. Using the Sourcewell contract allows Autocar to benefit from not having to respond to hundreds of individual bids and pass on savings to Sourcewell members from those efficiencies. Autocar will integrate the Sourcewell marketing support with our marketing plan for the contract as well as take advantage of regional sales programs, local, regional and national trade shows to promote the Sourcewell contract.
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Autocar chassis are custom engineered for our customers. The trucks must be correct for the job required so we do not have a e-procurement ordering process as we must understand the spec from the customer and ensure we build the correct truck for his application. This would not be possible with an e-procurement process.

36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Autocar provides its customers unlimited online free training for all its products for the life of the vehicle. Live classes are offered in a regular schedule published on line on our website at www.autocartruck.com . The websites offers prerecorded downloadable sessions as well for Autocar customers.	*
37	Describe any technological advances that your proposed products or services offer.	<p>Autocar – ever since its founding as in 1897 – has been a leader in bring new technologies to our customers so they can improve their operations. The past year has been no exception and our program for the next few years is filled with further valuable innovations we are bringing to market.</p> <p>First, Autocar has launched the breakthrough DC-64 conventional truck, packed with a bevy of technological advances including the first ever ultra-high-strength 160 KSI steel frame that is 24% stronger and lighter than competitive trucks.</p> <p>Another innovation in the DC-64 model is the all-new cab, engineered for safety and durability - always our first objectives. The new DC cab is built from a combination of engineered steel, judiciously chosen aluminum components, and robust steel corner castings. We also maximized driver visibility, with a steeply raked wraparound windshield for upward and forward visibility and large rear corner windows standard, very rare in class 8 conventional cabs. The best way to stay safe is to see all around and avoid getting into trouble in the first place. The DC’s focus on safety is expected to help Autocar maintain its admirable safety record. Data from the Federal Motor Carrier Safety Administration shows that in 2018 Autocar’s Class 8 refuse cabover trucks had 20% fewer accidents per truck than all other competitors, and 40% fewer accidents with injuries per truck.</p> <p>The DC-64 and also our ACX cabover model feature our totally upgraded electric system with advanced diagnostic capabilities and numerous features to resist wear and damage. Both models also feature the Autocar Always Up® in-cab digital display for both drivers and technicians, with game-changing “one-touch diagnostics”. It actually tells the operator or technician what fault has occurred and shows them how to repair. It gets trucks back into service faster than any other system available in heavy trucks.</p> <p>Finally, in 2020 Autocar is introducing a radically better telematics system which communicates over 4,000 potential faults and other truck operating conditions to truck management and maintenance staff – all in real time. This information is accessible on any digital device, including smartphones and tablets, and allows operators to maximize their uptime, prevent problems before they interfere with customer service, and pre-plan maintenance to reduce costs. The system also provides valuable information on driver behavior to help management coach behaviors that increase safety and reduce operating costs.</p>	*
38	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>. Autocar is certified with the EPA Clean Air act (certificate attached).</p> <p>Autocar has always lead in CNG production and continues to be the market leader in class 7 & 8 vocational CNG powered trucks. 39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Autocar is the market leader is and has been the market leader in Green Technologies with aprox 60% of chassis produced in Alabama powered by Compressed Natural Gas (CNG) Cummins engines as well as Fully electric drive class 7 & 8 vehicles currently in testing/development. We are certified by the EPA Clean Air act (certificate attached) as well as CARB.	*
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. 41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
42	Do your warranties cover all products, parts, and labor?	Autocar's warranty covers parts and labor for all components and parts installed by Autocar Truck. For details please refer to the Autocar Warranty certificate attached
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Autocar does not impose any unusual restrictions on warranty coverage outside maintenance items and abuse covered in our Warranty certificate. Autocar's customer service dept. supports the provision of both warranty support and post-warranty support.
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Autocar customer support will assist in warranty support whether it is with our field personnel repairing a problem directly, assisting the customer is repairing the vehicle thru free smart phone video or manage and assist the dealer in repair. As a policy we do not automatically cover travel time to perform repairs but assist in repairs to limit any travel time required
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	If Autocar finds a remote location where we are not able provide a viable option for certified technician to repair the vehicle Autocar has live 24/7 tech assistance, remote diagnostic, video app and training. We often set up remote locations with in-house warranty, ship parts free of charge and reimburse at an in house labor rate. With live support and remote diagnostic many of our remote customers find this a better solution to repair their Autocar vehicles.
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Autocar covers any component installed as part of the original equipment and spelled out in our warranty certificate. Drivetrain components like Cummins engine and Allison transmission are part of our agreement and spelled out in our certificate. They are administered through our authorized Autocar service centers.
47	What are your proposed exchange and return programs and policies?	While under warranty if the member decides they would like to do in house warranty thru our "solution" system, and are qualified to do so we will ship the replacement part direct to the member and inform them if the return is required. This is something unique Autocar offers directly to our customers as we give them the option of doing what serves their needs the best.
48	Describe any service contract options for the items included in your proposal.	Autocar does not directly offer service contract as a manufacture however most of our Nationwide authorized dealers do offer service contract and can quote directly to the member

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
49	What are your payment terms (e.g., net 10, net 30)?	Our terms are net 15 days to our dealer and as the nature of our product terms for payments can range from 15 days to 210 days for Sourcewell member. The dealer will list out any terms and interest charges to the Sourcewell member that go beyond 15 days depending on what term the member requests.	*
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	Our extensive dealer network locations have a multitude of finance options for Sourcewell member ranging from Municipal lease to straight forward finance options and can offer to the member if needed and help to find the best suited option for the member.	*
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Autocar truck is a manufacture and our extensive dealer network will process the completed contract/purchase order. An option in our spec tool (Adnet) will need to be selected in order obtain a price which will come direct from Autocar. When the Sourcewell member purchases off the said quotation thru the dealer, the system which will identify it as a Sourcewell sales for tracking, recording and reporting and will be part of the permanent record. In the instance that a member may want to purchase a stock unit the quotation will still come direct from Autocar so the unit(s) can be added to the quarterly Sourcewell report and tracked. The Sourcewell member can chose which dealer he would like to use as all Sourcewell member pricing will be set by Autocar.	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	NO	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Price SKU attached with all base model bid and discount shown. All pricing is per published MSRP in our truck configurator (ADNET) and all Sourcewell members will receive a 20% discount based on ADNET published MSRP.
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Sourcewell member pricing will be a discounted from list price by 20% off MSRP based on our published MSRP in our spec tool (Adnet). This will be on both the base chassis and all published options.
55	Describe any quantity or volume discounts or rebate programs that you offer.	There are times when Autocar can realize savings based on volume orders in which case the saving would be in addition to the standard discount offered to members. Autocar would pass on any manufacture rebate programs that would come up during the course of the contract to the member. Any cost reductions from such programs will be passed on to the member.
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Autocar will provide any Sourced products not available direct from Autocar at cost with no markup.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Autocar includes factory PDI to be done at a local dealer and is included in the price. Autocar on line training is also included at no charge to the member for the life of the vehicle. The member is free to add local fuel, set up, etc and it would be considered a locally sourced option and the cost would be added without mark up.
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Autocar utilizes equalized Freight in North America for all products which is listed at \$1,950 on the price sheet for the first ship, except the ACTT yard spotter. Since these are unique specialized vehicles, some are DOT legal and customers prefer to pick up themselves. For those that do not want to pick up themselves, we can quote delivery freight to the member as a sourced option on a individual basis.
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Autocar will provide a quote at cost should any chassis need to be shipped direct to the end customer and not a body builder. Since most if not all Autocar chassis are shipped to a body builder for upfit the equalized freight program will cover the first ship to the body builder.
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	As part of the equalized freight program Autocar will ship to the first point at the equalized rate (except ACTT as outlined). This is usually the body upfitter and delivery from the body upfitter to the end customer or the Autocar dealer would be handled by the body dealer. Autocar does include and will pay for the PDI at the local distributor but freight to the dealer in most cases will be the responsibility of the body company.

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
61	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Autocar is offering a discount off the base price and ALL published options which is better than typical GPO's that normally offer discounts off of just the base models

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	In our Adnet spec and order tool the sales person must select the Soucewell option in order to obtain a quote for a Sourcewell customer. This ensures all Sourcewell orders are recorded, tracked and reported thru our internal tracking system and follow the contract guidelines.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Autocar proposes a flat fee of \$1,000 per truck for the use of the contract

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Autocar has 4 product lines with several variations we are proposing. The ACX class 8 Low Cab forward chassis 4x2 & 6x4 in CNG and Diesel, The ACMD class 7 & 8 Cab forward chassis 4x2 & 6x4 in CNG and Diesel, The DC Conventional chassis in class 8 4x2 & 6x4 in CNG and diesel and the ACTT yard spotter class 8 chassis 4x2 & 6x4 in diesel.

Table 15: Industry Specific Questions

Line Item	Question	Response *
71	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Autocar holds monthly meetings internally to track sales volume with breakout by account type, which included Sourcewell. We are charged with growing the segments of our business including Sourcewell driving toward continue growth year after year. We review the necessary tools needed by the sales group to drive the various market segment. These are reviewed with the outside sales force on weekly conference calls and bi-annual sales meetings. Sourcewell sales has become and will remain a measurable goal and target for growth in both refuse and the dump/plow truck market that our new conventional truck will fill.
72	Describe your company's offering in relation to alternative fuel sources, including electric or others.	Autocar is the market leader along all truck manufactures in Compressed Natural gas with 60% on average year after year of ACX production being CNG. We have in development and testing our own Electric vehicle for both the ACTT & ACX and anticipate bringing those to market in 2021. Autocar has always lead the industry in alternative fuels together with our customers and continued to evolve and develop common sense alternative vehicles that can work day after day, year after year.
73	Describe any manufacturing processes or materials utilized that contribute to chassis strength, cab strength, overall durability, driver safety that differentiate your offerings.	<p>Autocar all steel cabs are strongest in the industry providing the highest crush rating. Autocar provides best driver visibility with sharpest turning radius resulting in less backing events. The unique Autocar variable drop frame is strongest frame in the industry putting strength where it is needed most. We review weight distributions on all truck and body combinations to ensure safe and legal refuse tools.</p> <p>Dept. of Transportation Safety Data for the last 2 years (www.safer.fmcsa.dot.gov/) shows Autocar is 58% less likely to be involved in an accident. Also when an Autocar is involved in an accident there are 40% fewer driver injuries vs competitive units.</p> <p>Autocar chassis manufacturing process includes four quality gates along the production line. All cabs undergo an electrical and pneumatic operational check of all circuits and operations prior to installation on the chassis. This step greatly minimizes electrical or pneumatic failures. Different than our competitors we test every truck, not just random audits! ALL chassis must pass ALL quality checks prior to leaving the factory. -All chassis have wheels aligned -All chassis are brake tested per axle -All chassis are dyno tested -All chassis are road tested -All chassis receive a pre-body PDI (pre delivery inspection) prior to leaving our factory. -All chassis receive a post-body PDI after the body installation is complete. The steps above ensure that Autocar provides safest and highest up-time tools to Sourcewell Members!</p>
74	Describe any differentiating serviceability attributes (remote diagnostics, etc.) your proposal offers.	<p>We support our customers different than anyone in the industry. Customer or any one of our dealers have access thru our website (www.autocartruck.com) to the "solution" portal. We respond on average in 15 minutes during normal hours (7-7 eastern) and within 30 minutes after hours. The response is direct from our service team and designed to support the technician in anything they need, whether its diagnostic help, wire diagrams, parts help, etc. for the life of the truck not just under warranty The DC-64 and also our ACX cabover model feature our totally upgraded electric system with advanced diagnostic capabilities and numerous features to resist wear and damage. Both models also feature the Autocar Always Up® in-cab digital display for both drivers and technicians, with game-changing "one-touch diagnostics". It actually tells the operator or technician what fault has occurred and shows them how to repair. It gets trucks back into service faster than any other system available in heavy trucks. Finally, in 2020 Autocar is introducing a radically better telematics system which communicates over 4,000 potential faults and other truck operating conditions to truck management and maintenance staff – all in real time. This information is accessible on any digital device, including smartphones and tablets, and allows operators to maximize their uptime, prevent problems before they interfere with customer service, and pre-plan maintenance to reduce costs. The system also provides valuable information on driver behavior to help management coach behaviors that increase safety and reduce operating costs.</p>

8	What are your company's expectations in the event of an award?	<p>Mack Trucks expects to gain market share within the segments that Sourcewell has customers. Mack Trucks has traditionally tracked a defined "municipal" market share and has placed much focus on these municipal products and customers. For example, the company services Class 8 truck chassis in a segment called CST>10L for which Mack Trucks reports a current 14.7% market share. While 14.7% is respectable, Mack Trucks strives to be Number 1 in market share and customer satisfaction within this important segment. In addition to the Class 8 chassis, Mack Trucks now offers expanded products for these same educational, government agency, and non-profit customers with its newest offerings in Class 6 and Class 7 chassis. The company expectations in all segments of its business is always to meet customer demands and grow market share, but in this CST>10L segment specifically Mack Trucks expects to increase its lines of business for the different types of Sourcewell customers.</p>

However, Mack Trucks hereby provides the current rating Volvo AB has with several different rating agencies, for example the A ratings with both Moody's and Standard and Poor's. Mack Trucks also provides the 2019 Annual Report for Volvo AB, which includes various reports specifically addressing the Mack Trucks subsidiary and Mack product lines.	*

11	What is your Canadian market share for the solutions that you are proposing?	Mack Trucks' "municipal" market share for class 8 trucks in Canada is 7.2%. Due to Canadian privacy laws, it remains difficult to verify the Canadian market share, although Mack Trucks believes actual market share figures to be greater than reported.	*
12	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	As of the date of this submission, Mack Trucks has never petitioned for bankruptcy protection.	*
13	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Engines and transmissions for the North American market are built at its powertrain facility in Hagerstown, MD. These employees are located at home offices all over the US and Canada, calling on dealers and end customers (including Sourcewell members) to promote the sale of trucks and parts, and to assist customers with any service uptime issues. The corporate employees also interface with the Mack dealer network on a daily basis. Mack Trucks has hundreds of support personnel on its corporate campus in Greensboro, NC assisting its field teams, dealers, and end customers. Mack Trucks has a dedicated UpTime Center staffed with over 600 people operating a live person call center functioning 24/7 for 365 days a year. The UpTime Center further supports its customer base by speaking in 8 different languages. Mack Trucks sells and services its products through a network of independent authorized dealers. 14	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP. 15	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Mack Trucks certifies that to the best of its knowledge and belief it has not been listed by any federal or state authority as debarred or suspended during the past ten years.	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
23	Sales force.	Mack Trucks currently has 31 corporate sales reps in the field, working from home offices and covering territories calling on Mack dealers and customers. Together with the 893 dealer sales reps, the corporate field team will visit customers to work on selling Mack trucks.
24	Dealer network or other distribution methods.	Mack Trucks has 432 Full Line dealers for the US / Canada. Of those dealers 132 are Certified Uptime Dealers which means they have dedicated bays to get trucks in and out of the shop quickly. Customers can expect a diagnosis within two hours of arriving at a Certified Uptime Center and if the repair fits the criteria the truck is pulled into an Uptime bay where the repair is done in four hours or less.
25	Service force.	Mack Trucks currently has 77 corporate service reps in the field, working from home offices and covering territories calling on Mack dealers and customers in the US and Canada. These service reps work directly with Mack dealers and customers to address repairing and/or servicing Mack trucks. They also become involved with customers to support warranty, Up-time solutions, Over-the-air programming, etc.
26	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Mack Trucks has a 24 hour / 365 day Mack One Call Uptime Center. All operations are in Greensboro, NC and fully staffed 24/7 with trained professionals to assist with any type of issues. All operations are in one facility, housing Parts and Reliability engineers who can speak face to face to ensure a quick response to an issue. Mack Trucks also has complete lists of outside towing /repair facilities to support customer needs.
27	Identify your ability and willingness to provide your products and services to Sourcwell participating entities in the United States.	In the United States Mack Trucks has a total of 342 rooftop locations. This includes 279 Full-line dealers (truck sales, parts, and service) and the rest are parts and service locations. Mack dealers desire a program to sell trucks under the Sourcwell banner and make the purchasing process easier for their customers who are also Sourcwell members. Mack Trucks views a successful Sourcwell bid as a holistic WIN for all parties involved - Mack Corporate, Mack Dealers, and Sourcwell Members.
28	Identify your ability and willingness to provide your products and services to Sourcwell participating entities in Canada.	In Canada Mack Trucks has a total of 90 rooftop locations. This includes 34 Full-line dealers (truck sales, parts, and service) and the rest are parts and service locations. Mack dealers desire a program to sell trucks under the Sourcwell banner and make the purchasing process easier for their customers who are also Sourcwell members. Mack Trucks views a successful Sourcwell bid as a holistic WIN for all parties involved - Mack Corporate, Mack Dealers, and Sourcwell Members.
29	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	There are no geographic restrictions unless the local Mack dealer decides independently not to participate in the program.
30	Identify any Sourcwell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	There are no limitations to Mack dealers selling and servicing Mack products to any of the Sourcwell entity participating sectors. Mack Trucks has no exclusive agreements with any other cooperative purchasing contracts that will limit its ability to promote Sourcwell.
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Mack Trucks has dealers in Hawaii, Alaska, and US Territories who will be able to sell to and service Sourcwell customers. There are no restrictions unless the local Mack dealer independently decides not to participate in the program.

Table 7: Marketing Plan

Line Item	Question	Response *
32	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>The strategy will be to educate and engage the Mack dealer network to properly be aware of these bid opportunities. Mack Trucks will place ads where appropriate to communicate that the Mack brand is now a part of the Sourcewell network.</p> <p>Mack Trucks' plan is to identify Mack Sourcewell dealers and include the notation in the Mack dealer locator. This will allow customers to search for and discover Mack Sourcewell dealers closest to them via the Mack dealer locator.</p>
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Mack Trucks remains highly focused on delivering the digital experience across all of its marketing channels. The primary objective in Mack Trucks Marketing is to drive awareness, interest, and consideration of Mack products and services. Mack Trucks uses social media, video, trade shows, programmatic digital materials, and other technological methods for marketing its messages. Marketing supports potential and existing customers that are actively shopping for Classes 6-8 products, to provide news, product and service improvements, and new offerings of Mack Trucks, and promotes connections between potential and existing customers with Mack Trucks dealers based on an interested party's location for customer convenience.</p> <p>Web forms, landing pages, multi-channel marketing campaigns, offline print, and trade show experiences encourage potential customers to self-identify and promote personalized and segmented customer profiles. These efforts allow Mack Trucks to better understand a customer's needs and applications. Complete profiles enable Mack Trucks to provide segmented content to customers, which can be further enhanced based on specific product inquiries and online website behavior tailored to a customer's interests. Customer information may be provided to independent authorized Mack dealers to foster relationships with potential customers about Mack products and services.</p> <p>Existing and potential customers can manage their technology and digital relationships with Mack Trucks in accordance with the Mack Privacy Policy, where Mack Trucks explains its use of cookies and other aspects of managing digital technologies. Mack Trucks allows customers to manage their preferences regarding access to and communications with Mack Trucks concerning its products and services.</p>
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>If Mack Trucks is awarded a Sourcewell contract, then Mack Trucks anticipates Sourcewell's role to be directing its Members to the Mack brand as an option for class 6-8 truck chassis. Further, Mack Trucks would appreciate being informed of the customer inquiry so that the company could inform its local Mack dealer. This lead will offer the Mack dealer an opportunity to initiate a conversation with said customer and hopefully provide them a solution to fit their needs.</p>
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Due to highly customizable nature of a Mack chassis, and the need for a Mack dealer to explain options to best suit a particular customers needs and equipment application, Mack Trucks does not currently offer an e-procurement ordering platform directly to the end customer. Mack Trucks does provide several on-line tools, for example its "truck builder" tool, where end customers can go to the MackTrucks.com website and "build a truck" to their general specifications. This tool will then send those general specifications to the closest Mack dealer who can in turn validate the specifications and quote that customer on those specs using the Mack Sales System (MSS) tool, and thereafter confirm and submit an order for product. However, for the protection of the customer, to ensure the customer is getting the proper product for its specific application and duty cycle, Mack Trucks does not offer the customer a mechanism to complete the transaction itself through an on-line e-procurement ordering process.</p>

Table 8: Value-Added Attributes

Line Item	Question	Response *
-----------	----------	------------

36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	<p>Mack Trucks offers a variety of training for its customers. Mack Trucks provides on-line training and will often send trainers to customer's locations and provide service technician training, driver training, and municipal training. All of these are tailored to fit customer needs.</p> <p>For example, in terms of driver training it is more on the functionality of the truck. The trainer gets a copy of the truck spec from the District Manager and then does some "classroom" work of going over the dash, seat, shifter, transmission features, engine, etc. The trainer addresses safety features, steering wheel, etc. Time permitting and depending on class size, after the classroom time, drivers will get a chance to get hands on with the truck as long as there is a truck available. With existing Mack brand customers, the trainer will be able to use Mack Analytics to view past fuel efficiency and talk about creating better habits to improve on that in the future.</p> <p>Often the training will occur as "train the trainer", and depending on the size of the fleet may also directly involve the drivers themselves. The pricing for the driver training is: Cost \$1650 per day (includes the instructor on-site, instructor's food and transportation). Training Agenda Day 1 Travel up Day 2 Driver Training Day 3 Travel back And this is for a 10 driver/driver trainer Max.</p> <p>Municipal training focuses on Service Technician training that is customized for their application or their truck spec. All of the examples the trainer uses in class would be for their specific application or truck spec (so minimal difference between the two). As for cost, it varies greatly. On average, \$325.00 per Service Technician per day.</p>
37	Describe any technological advances that your proposed products or services offer.	<p>Mack Trucks is preparing to offer fully electric vehicles, specifically in the refuse application, where many counties and municipalities have their own refuse fleets. Mack Trucks also offers natural gas options on some of its truck models which create cleaner near zero emissions, etc. Mack Trucks is also on the leading edge of telematics and provides over the air programming for many of the electronic and/or software driven items on trucks today. This will save customers, Sourcewell members, a tremendous amount of time by not having to bring the trucks to a local dealer for software upgrades or programming changes. Mack Trucks has the ability now to do these "over the air" updates in about 20 minutes, wherever the truck is parked provided they are in an area with a good cellular signal.</p>
38	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Environmental responsibility and green initiatives are important to Mack Trucks. Our Lehigh Valley Operations assembly facility, where all Mack trucks for the North American and export markets are assembled, and our powertrain production facility in Hagerstown, MD are both platinum-certified through the U.S. Department of Energy's Superior Energy Performance program. Both facilities are also participants in the U.S. Department of Energy's Better Buildings, Better Plants challenge to reduce energy intensity.</p> <p>Mack Trucks has also taken steps toward improving the environmental performance of its products by introducing technologies to improve fuel efficiency and reduce carbon dioxide emissions. The Mack MP8HE engine utilizes Mack Energy Recovery Technology, which captures waste energy from the engine's exhaust and converts it to mechanical energy that is delivered back to the engine crankshaft as additional torque. Mack Anthem models spec'd with the Mack HE+ efficiency package, which includes the Mack MP8HE, Mack mDRIVE AMT and additional aero features, plus available extended chassis fairings, can see up to 10 percent improved fuel efficiency, while also achieving the U.S. Environmental Protection Agency's SmartWay designation.</p> <p>Mack Trucks is also a leader in researching and developing alternatives to traditional diesel-powered transportation solutions. The Mack LR Electric is a fully electric version of the Mack LR refuse model featuring an integrated Mack electric powertrain. The LR Electric was unveiled in 2019 and will be demonstrated in real-world applications in 2020 with the New York City Department of Sanitation and Republic Services.</p>
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>Mack Trucks' Lehigh Valley Operations and Hagerstown powertrain facilities are part of the U.S. Department of Energy's Better Buildings, Better Plants challenge, with an initial goal to reduce energy intensity by 25 percent in 10 years. Having met this goal five years ahead of schedule, both plants re-pledged to another Better Buildings, Better Plants challenge to reduce energy intensity by another 25 percent over 10 years.</p> <p>Both facilities have also been certified platinum by the U.S. Department of Energy's Superior Energy Performance program, which recognizes achievement in certification to the ISO 50001 and SEP 50001 standards, as well as demonstrated the use of best practices through the SEP 50001 Scorecard. In fact, Mack Trucks' Lehigh Valley Operations was the first U.S. manufacturing facility to become platinum-certified in the Mature Energy Pathway category.</p> <p>Mack Trucks manufacturing locations are also certified to the internationally recognized ISO 9001 standard for quality, ISO 14001 standard for environmental management systems and OHSAS 18001 (LVO only) standard for health and safety management systems.</p>

40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Although Volvo Group North America, LLC does not qualify for accreditations as a small or diverse business, we support MBWE and small business initiatives with both a "Supplier Diversity" program and a "Small Business Office." Internally, Volvo Group sets goals and objectives for both programs and tracks spend results, which are issued quarterly. Volvo Group also sets commercial subcontracting goals with the federal government for our Small Business Office and issues annual reports for approval. We hold memberships in three councils, NMSDC, WBENC and NVBDC, and are a corporate sponsor of CVMSSDC. This helps us to actively pursue business relationships with their certified members. Volvo Group attends numerous trade shows and outreach events throughout the year that highlight diverse and/or small businesses to pursue such business relationships.</p> <p>Volvo Group's current percentage of total expenditures spent with diverse businesses is approx. 12% (including 10.6% classified as small businesses).</p> <p>For further details on Volvo Group's initiatives in this area please contact: Barbara N. Tischler Volvo Group Purchasing, Business Improvement Leader T: +1.336.662.4622 Email: barbara.tischler@volvo.com</p>
41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>Mack trucks come standard with 24/7/365 no fee support with Mack OneCall. OneCall roadside assistance service features 24-hour roadside support. OneCall operators can help customers immediately identify the problem and locate the parts from one of Mack Trucks' six electronically-linked parts distribution centers in North America. With next-flight-out services, Mack Trucks can automatically ship the parts customers need for overnight delivery even outside of normal working hours, including Sundays and holidays.</p> <p>Mack OneCall agents are directly connected with Mack authorized dealers and parts and service locations as well as over 5,000 qualified service facilities in North America, so customers will be connected with immediate assistance wherever they may be. OneCall technicians are prepared to provide warranty expertise no matter the location of the customer.</p> <p>GuardDog Connect is an extension to Mack's World Class support. All Mack powered trucks come standard with connectivity and remote monitoring of the Mack engine, transmission and aftertreatment systems. If an issue is detected on the truck, that information is sent in real-time back to Mack UpTime Center where the issue is diagnosed and categorized by severity. For issues that are detected that require attention, they are categorized according to severity, diagnosed down to the root cause and create a case with detailed repair instructions for Mack OneCall agents. These agents will contact customers with an explanation of the issue and support throughout the repair process.</p>

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
42	Do your warranties cover all products, parts, and labor?	Warranty coverage is 100% for parts and labor subject to the qualifications, limitations, and exclusions as noted in our warranty certificates.	*
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	All warranties are standard warranty but Mack Trucks has the ability to Warranty trucks if necessary at locations other than a Mack dealer. Mack Trucks can authorize outside locations to complete a warranty and it is filed internally by our Uptime Center so no disruption to a customer.	*
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Depending on the particular situation Mack Trucks may consider covering travel times and mileage.	*
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcwell participating entities in these regions be provided service for warranty repair?	Authorized Mack dealers reside in almost every area of the country, but in certain situations Mack Trucks may use outside repair or customers' locations to complete repairs. To complete major issues Mack Trucks will tow the vehicle to the closest Mack dealer or the one with time available for the repair.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Mack Trucks can only warranty products that are produced by Mack Trucks or that are installed by vendors that Mack Trucks uses in production. The warranty policy for any items made by other manufacturers would be up to each individual manufacturer. The local Mack dealer may have agreements with certain manufacturers where they become an "authorized warranty center" for those manufacturers but that would be up to each Mack dealer and manufacturer.	*
47	What are your proposed exchange and return programs and policies?	Because this is a chassis contract, there is no exchange and/or return program. If referring to parts exchange and/or core return programs, each supplier that our dealers work with will have their own programs and policies that will differ by vendor.	*
48	Describe any service contract options for the items included in your proposal.	Mack Trucks offers published protection plans for the chassis for up to 5 years, 500,000 miles, and for Mack engines and emissions systems for up to 5 years, 750,000 miles. Mack Trucks also offers custom plans based on the customer and application. For example, a Sourcwell member who keeps their truck for a number of years but doesn't run a lot of miles, Mack Trucks can custom quote a solution. In addition to protection plans, Mack Trucks also offers Premium Maintenance plans, so if a Sourcwell member doesn't want to change their own oil, filters, etc. Mack Trucks can custom create a plan where the local Mack dealer can service the Sourcwell member for a fee.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
49	What are your payment terms (e.g., net 10, net 30)?	<p>Sourcwell Member payment terms will typically be the earlier of either net 30 days from date of Sourcwell Member customer invoice or receipt of Mack goods by Sourcwell Member.</p> <p>Final Payment terms may be negotiated between the Sourcwell Member and Mack Trucks dealer.</p>
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	<p>Mack Financial Services provides a wide range of financing and lease options, including for government and municipalities. Our dealers also have other financing options at their disposal, including but not limited to NCL Government Capital, an approved Sourcwell lender.</p>
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcwell participating entities' purchase orders.	<p>Mack Trucks offers custom built Class 6-8 chassis using the Mack Sales System (MSS) tool to quote and order. Mack Dealers use the MSS tool to create a buildable specification that meets customer specific requirements. Sourcwell members will work with their local Mack Dealer to build and quote chassis that fit their specific needs. Each Dealer working with a Sourcwell member will process the Sourcwell members' purchase orders.</p> <p>Mack Trucks will publish an internal dealer sales agreement (Program) to its authorized dealers outlining the terms and conditions for selling to Sourcwell members under the contract. Mack Dealers will be required to opt-in to the Program in order to receive the Sourcwell discount. At time of quote, all Mack Dealers will be required to submit for the Sourcwell discount through Mack Trucks' internal quote and ordering system, Mack Sales System (MSS). All Sourcwell quotes will include a mandatory Sourcwell salescode that the dealer must add to qualify for applicable Sourcwell discount levels.</p> <p>Mack Pricing and Sales Administration will produce a list of qualifying chassis on a monthly basis to determine Sourcwell's applicable administrative fees to be remitted.</p> <p>To ensure compliance with the terms and conditions of the Program, Mack Dealers must consent to audits by Mack Trucks and/or Sourcwell of all Dealer records related to any and all Sourcwell sales and chassis ordered through the Program. Dealer agrees that any irregularities discovered during the course of an audit may result in the termination of Dealer's participation in the Program.</p>
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	<p>The P-card payment process is not typically used for commercial truck procurement. However, this would be mutually determined between the Sourcwell member and the Mack dealer.</p>

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	<p>Mack Trucks offers custom built Class 6-8 chassis using the Mack Sales System (MSS) tool to quote and order. Mack Dealers use the MSS tool to create a buildable specification that meets customer specific requirements.</p> <p>Sourcewell Member pricing will be based on a discount from Total List Price, also shown as the Total Vehicle Price, in the Mack Sales System (MSS) Dealer Sales Calc. Total List Price includes Model List, Options, and Customer Adaptations. Sourcewell Member discounts from Total List Price will be broken out by model based on the attached schedule (See: Sourcewell Member Mack Pricing Matrix). Extended Warranties, and Maintenance Contracts are non-discountable items.</p> <p>Canadian Chassis are priced in USD and are subject to exchange rate at time of order or conversion to Sold status. Mack Trucks publishes a Foreign Exchange Letter semi-monthly. The letter provides dealers with the CAD-USD exchange rate that is applicable for Sold orders booked during the stated period.</p> <p>Mack Trucks reserves the right to make further concessions on a case by case basis.</p> <p>Attachments: "Sourcewell Member Mack Pricing Matrix.pdf" "Sourcewell Mack Proposal Example.pdf" "Sourcewell Mack Model List.pdf"</p>	*
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	<p>Sourcewell Member pricing will be based on a discount from Total List Price, also shown as the Total Vehicle Price, in the Mack Sales System (MSS) Dealer Sales Calc. Total List Price includes Model List, Options, and Customer Adaptations. Sourcewell Member discounts from Total List Price will be broken out by model based on the attached schedule (See: Sourcewell Member Mack Pricing Matrix). Extended Warranties, and Maintenance Contracts are non-discountable items.</p> <p>Mack Trucks reserves the right to make further concessions on a case by case basis.</p>	*
55	Describe any quantity or volume discounts or rebate programs that you offer.	The pricing provided in the proposal reflects total potential volume under the Sourcewell contract. Mack Trucks reserves the right to make further concessions on a case by case basis.	*
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	<p>Sourced Goods or Services are supplied at Dealer Cost plus 5% to Sourcewell Members. Mack dealers can solicit offers from sub-contractors for Sourced Goods and Services needed to meet the specific Sourcewell member's need.</p> <p>Sourced Goods and Services include, but are not limited to: specialized bodies (e.g., dumps, mixers, cranes, refuse, pump, utility, etc.), locally added equipment (e.g., pintle hook, auxiliary axles, fairings, logistics devices, etc.), extended warranty packages, and training.</p>	*
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>Federal, State, and local taxes, fees, title, tag, permits, or other miscellaneous requirements are not included.</p> <p>The body company or dealer who takes delivery of the chassis may impose an un-decking fee. If required, these handling charges should be disclosed in the quote.</p> <p>Surcharges may apply depending on market conditions. Mack Trucks will give 90 day written notice issued to Sourcewell prior to the effective date and no orders made prior to the effective date will receive the surcharge.</p>	*

58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>An equalized freight charge of \$2,100 is included in every invoice and this covers the cost of freight from Lehigh Valley Operations to the first destination on the contiguous US or Canada. This \$2100 freight charge is included in the Sourcewell Member Discount from Total List. If additional moves are needed on a vessel to the final destination, equalized freight will cover to the port and it is the responsibility of the dealer to cover the booking of the vessel, cost, and required paperwork along with transportation at the receiving port. In addition to equalized freight, each chassis is permitted one move to an approved modification center prior to the final destination; currently approved modification centers are Customer Adaptation Center at LVO or TransEdge Truck Center in Allentown, PA and this roundtrip move is an additional \$150 to equalized freight. An exception is CNG tractors are permitted a move to TransEdge in Schuylkill Haven, PA for a round trip shuttle fee of \$1,450 to have CNG tanks installed.</p> <p>Any additional freight fees incurred above the \$2100 equalized freight charge can be charged to the Sourcewell Member at Dealer Cost plus 5%.</p>	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>All Customs documentation is provided for chassis delivering to Canada. Equalized freight will cover deliveries to the contiguous US and Canada and does not include Alaska, Hawaii, and Puerto Rico. Equalized freight covers delivering these chassis to the port of choice with the dealer being responsible to cover the booking of the vessel, cost, and required paperwork along with transportation at the receiving port.</p> <p>Any additional Freight Fees incurred above the \$2100 equalized freight charge can be charged to the Sourcewell Member at Dealer Cost plus 5%.</p>	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>Each delivery destination has a contractual delivery timeframe from factory finish to the final destination depending on mileage from Macungie, PA. Drivers are only allowed to drive a maximum of 500 miles or 8 hours/day. The timeframes range from 2 – 14 business days and does not include holidays or weekends.</p> <p>A hoist needs to be available to the transport driver within 2 hours of arrival or a wrecker will be called at the dealer's expense for undecking.</p>	*

61	d. other than what the Proposer typically offers (please describe).	This pricing is exclusive to Sourcewell members.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	<p>Mack Trucks will publish an internal dealer sales agreement (Program) to its authorized dealers outlining the terms and conditions for selling to Sourcewell members under the contract. At time of quote, all Mack Dealers will be required to submit for the Sourcewell discount through Mack Trucks' internal quote and ordering system, Mack Sales System (MSS). All Sourcewell quotes will include a mandatory Sourcewell salescode that the dealer must add to qualify for applicable Sourcewell discount levels.</p> <p>Mack Pricing and Sales Administration will produce a list of qualifying chassis on a monthly basis to determine Sourcewell's applicable administrative fees to be remitted.</p> <p>To ensure compliance with the terms and conditions of the Program, Mack Dealers must consent to audits by Mack Trucks and/or Sourcewell of all Dealer records related to any and all Sourcewell sales and chassis ordered through the Program. Dealer agrees that any irregularities discovered during the course of an audit may result in the termination of Dealer's participation in the Program.</p>
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Mack Trucks proposes to pay Sourcewell a per unit fee of \$750.00 USD for every Mack chassis delivered through and adhering to the Sourcewell contract framework.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>Mack Trucks will be offering 6 different truck models to Sourcewell members. The Mack Anthem (F. Axle Back) is our latest on highway truck model which comes in day cab, 48" or 70" sleeper configurations. The Mack Pinnacle (F. Axle Fwd) can be used for on or off highway applications and comes in day cab, 48", or 70" sleeper configurations. The Mack Granite HD (F. Axle Fwd & Back) is our off highway vocational truck which comes as a day cab or with a 36" sleeper option. The Granite HD is what we feel that most of the Sourcewell members will need for applications like dump trucks, snow plows, etc. We offer two cab over models: our LR is our low floor entry refuse truck mainly used in city neighborhoods where the streets are a little tighter and the operator is in and out of the truck many times a day. The TerraPro is our suburban refuse truck that can also be used for other things like concrete pumpers and conveyor applications. Finally, we will offer our new class 6 and class 7 MD series of truck. This is only available in a day cab version but we do have a 3 person bench seat offering for those customers who need small dump trucks, etc. and need more than 2 people going to the job site.</p>
65	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>All of the Mack Truck models come in different rear axle combinations with the exception of the MD series. The MD series is currently only offered in 4x2 rear axle configurations. As a subcategory goes and as you will see in our pricing, we will have subcategories based on axle configuration.</p> <p>A full list of available models can be found under Pricing Documents (See: "Sourcewell Mack Model List.pdf")</p>

Table 15: Industry Specific Questions

Line Item	Question	Response *	
71	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	The first metric Mack Trucks will consider is market share. Mack Trucks will compare its market share for this market segment pre-award versus post-award. Secondly, as Mack Trucks anticipates new customers, Mack Trucks will track increases in the number of customers, in addition to the number of trucks sold.	*
72	Describe your company's offering in relation to alternative fuel sources, including electric or others.	Mack Trucks is preparing to offer fully electric vehicles, specifically in the refuse application, where many counties and municipalities have their own refuse fleets. Mack Trucks also offers natural gas options on some of its truck models which create cleaner near zero emissions, etc. The Volvo Group has recently announced its plans to engage in a 50/50 cooperative joint venture with Daimler Truck AG to develop and produce fuel cells for demanding applications.	*
73	Describe any manufacturing processes or materials utilized that contribute to chassis strength, cab strength, overall durability, driver safety that differentiate your offerings.	Mack Trucks uses a galvanized steel cab which is welded together for strength and e-coated for corrosion resistance. The Mack cab exceeds the requirements of SAE J2422 for collision and roll over safety. It also passes additional internal integrity standards for "A" pillar and "rear wall" strength providing the occupants with a very safe environment. The Granite cab is reinforced in certain places to handle the extreme rugged terrains and shock loading associated with many vocational applications. Reinforcements added to the Granite Cab include: Firewall plate, Engine tunnel reinforcement, A pillar reinforcement, RH and LH side under windshield, some local firewall nut plates, and additional welding on cowl. All of these not only help with safety but also durability. Our frame rail is splayed at the front to widen around the engine giving more room for serviceability but also is a safety feature in that in the event of a head on collision, the engine mounts will break away and the engine drops down to the ground rather than coming into the cab and injuring the occupants. Additional safety features are: Stair-like entry for safety getting in and out of the cab (bottom step mounted further outboard than top step); Full length external cab mounted grab handle and door mounted grab diagonal grab handle to assure 3 points of contact for entry and exit; Right side door peep widow for added visibility; High cab and sloped hood for superior job-site visibility. Mack Trucks has also recently introduced the option for Bendix Fusion collision avoidance systems with lane departure warnings and several other features on certain of its product offerings.	*
74	Describe any differentiating serviceability attributes (remote diagnostics, etc.) your proposal offers.	More and more issues can be solved through software updates. Mack Over the Air is the industry leading service that works hand in hand with GuardDog Connect. When a GuardDog Connect issue is detected that can be fixed through a software update, the Mack OneCall agent will give customers the option to do the software update without having to take the truck to a shop. The updates are fast and convenient and keep trucks on the job with less time in the shop.	*

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>NAFG, was originally established in 1987 when we went by Wondries Fleet Group located in Southern California. Starting with a single automobile dealership, my father Clarke Cooper has grown our network to over 35 dealerships both in and outside of California. We have always hired and promoted from within our organization to help promote our culture. Most of our Fleet Division Managers who started with us back in 1987 are still with us today.</p> <p>We have evolved over the decades to adapt to the improving industry technology to the advancement of once gas-powered vehicles to now fuel cell powered. Even in today's fast changing marketplace, our core values have never changed. Our core values are: Always do what's right for the customer, you take care of them and they will take care of you.</p> <p>Our Business philosophy has always been the 4 RIGHT'S to every client: Deliver the RIGHT vehicle, at the RIGHT time, to the RIGHT place and the RIGHT price.</p> <p>Our longevity can best be displayed with a few statements. We are and have always been family owned and operated. We have deep family roots in the automobile business with future generations in the infant stages today. We plan on leading our industry for decades to come.</p>

Our Partner program allows members to suggest and even recommend there local upfitters to NAFG to partner on any turn key quote. We see a tremendous value in giving the ability to the member to supply the upfitter of there choice to NAFG in order to provide a 100% turn key solution.	*

Line Item	Question	Response *

23	Sales force.	We have a Direct and Indirect sales force. Our direct sales force are our employees and partner dealers. Combined our estimated employee count exceeds 100 persons dedicated to supporting our dealerships and NAFG Fleet Division. Our indirect sales force which would be our partner suppliers and upfitters would be well above 100. With both direct and indirect sales force staff NAFG has been proven to maintain and service the current demand of the members. As the number of members grow that we can help, the more staff we would eagerly employee to help meet demand.	*
24	Dealer network or other distribution methods.	Our franchise network which covers our proposed 11 manufacturers are second to none. With industry forefront of the combined experience of manufactures like The Ford Motor Company, General Motors, Freightliner, MACK, Peterbilt and Kenworth to name a few have established a national presence were all members can receive service and warranty repairs on there respective products. The distribution of an Automobile or Cab Chassis has always been an ongoing challenge for all manufactures new and old. However we in America have the best Automobile Supply Chain Network in the world and as a franchised dealer of brands, we too get take full advantage of the network to ship and supply our member clients nationwide.	*
25	Service force.	With over thousands of service locations representing our 11 manufacturers a member client can find with ease a service station or warranty repair facility near by. Of course Alaska and Hawaii do have a larger distance between franchises a member would utilize for warranty repair or service.	*

26	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>To best illustrate our Customer Service programs, I ask that you use as a reference our ZIP file under Additional Documents and within in a ZIP file named "Member Walk Through". Start with and view in order which I will explain in order here:</p> <p>How A Member Can Get Quotes Online Demo: A member can obtain most quotes by visiting our website www.NationalAutoFleetGroup.com where a simple one step form is needed for registration. This is to protect the price information from nonmembers. Once a member registers they will receive an automated welcome email with a demo video on how to use our site. Members will gain access to there very own dashboard which will house all there quotes in one safe secure login. Member's can select which brand they are looking for and model year. Our site shows all the categories the brand offers such as: Cars, Vans, SUV's Trucks and Chassis Cabs. Members will then be able to drill down for the right selection by picking from the filter menu of what cab there looking for (Regular, Extended or Crew) to 2 wheel or 4 wheel drive down to the bed length there looking for. All factory options are then presented for the member to select from, this will show all current factory order-able options, taking the guess work out for the member. Once a member selects a desired build, they will see there Sourcewell Price report showing the MSRP, there contract price, the saving in real dollars and as a percentage. In the PDF example you can see a saving of \$ 9,175.96 of 22.345% to the member showing a significant savings. Members then can chose to add extra's to there order like extra keys' service manuals, sales tax and even request an upfit to be added to there quote. Lastly they will be given a complete turn key quote package to print which will include there customized Quote ID, Description and Specifications of what they built.</p> <p>How Members and Upfitters can Partner with NAFG: Our dedicated website www.NAFGPartner.com was built to accommodate the member who would like a certain upfitter to upfit there vehicles. It was also built for upfitters to have a place to go where they can find information on how to partner with NAFG to better serve there local members.</p> <p>Example of A Member with Upfit Quote: This is an example of how we use our Cab Chassis and combine them with an upfit to provide a turnkey solution for the member in a simple to follow format.</p> <p>ETA System for Members Walk Through: This is where members can easily come to our website, the same website they built there chassis on and track there order like they would a UPS package. We have a very simple display on our homepage "Track your order" where members can enter one of the following: Purchase Order Number, Quote ID, Upfit Quote ID or vin to easily see there in the process there particular order is in.</p> <p>Courtesy Confirmation Explained: After NAFG receives an order from a Member, we always like to send the member a Courtesy Confirmation. This is were the member will double check some particulars on there order like, Color, Quantity, Upfit and to ensure all Specification's are all correct before order placement. We also like to ask for title information at this point so we can help process the paperwork at delivery promptly.</p> <p>Factory Order Cut Off Notices: Here is were we like to highlight were members can access any upcoming factory order cut off dates. We walk the member through the process step by step to ensure the member knows the upcoming factory order cut off date, we even print this information (if known at the time) right on the cover page of there quotes.</p> <p>Validation Walk Through Example: To demonstrate a price validation, we show what a member would see when they build a truck on our site. At check out the member would see the Total Configured MSRP of \$ 35,730.00, A Sourcewell Price of \$ 27,331.68, Total Saving of \$ 8,398.32 or 23.505% for a 2020 F-250 followed by the pricing page which shows the Minimum Discount of at least 18.50%. As you see we provided an additional 5% discount on top of the 18.50% contract discount. This would be the case in this example.</p>
27	Identify your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	We have provided a list of our top 1,000 member/clients demonstrating our ability to service all members nationwide. Located in the Marketing Place ZIP file as "NAFG Top 1,000 Member Clients" PDF.
28	Identify your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Our ability and know how to carry our business model into Canada has never been as strong as it is today, we believe a simple US Dollar to Canadian exchange rate coupled with our pricing structure will allow NAFG to finally be in a position to serve members in Canada by partnering with Canadian based dealer groups.
29	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	NAFG will service 100 % of the United States of America and attempt to build the same model to service all of Canada. We do not know yet what regions we will encounter difficulty and how long the solution will take, but we will strive to service all of Canada.

30	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We will service all Sourcewell Members through our 24 hours a day 365-year website except Non Profits. Non-Profits would be subject to a different pricing program and would need to be handled on a case by case basis. Non-Profits mostly do not qualify for the discount governments qualify for.	*
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	The only requirement for members in Alaska, Hawaii and US Territories would be logistical shipping constraints the region would hold. For example, we currently provide members in Alaska chassis cabs with upfits and the member allows us to add the extra shipping cost, port cost and driver cost to load and unload there vehicles from port to port. This would be required if needed to be added to any quote in these regions.	*

32	<p>Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.</p>	<p>In addition to the Sample Marketing Flyers and Marketing Department Charts uploaded in the link "Marketing Plan/Samples"</p> <p>National Auto Fleet Group facilities a variety of marketing strategies to promote our products and services to reach out to government entities. Our company encompasses mainly outbound marketing strategies to promote the Sourewell Government Vehicle Contract.</p> <p>Email Marketing: Part of our outbound strategy includes paid online marketing techniques such as the use of email campaign blasts. This process includes creation of multiple campaign flyers used to convey key messages to our targeted audience. Flyer messages consist of the types of vehicle contracts, brands sold, special discounts offered to first time buyers, holiday themed flyers, vehicles offered, new website features and many more. This method encourages potential customers to our website to explore our products and services. Campaigner email marketing service acts not only to send out emails but as a CRM database system to monitor, send and track effectiveness of emails. Our marketing team works continuously to gather emails from government entities though out the United States to compile a database of clientele.</p> <p>Event Marketing: This strategy has proven to be a successful avenue to generate leads and create lasting relationships. National Auto Fleet Group attends several trades shows per year to engage customers in person along with upsell opportunities. Meeting prospects face-to-face forms a lasting impression not available through other methods of selling. Trade shows attended include GFX, IAPPO, NIGP, ACT, CAPPO, CASBO throughout the United States.</p> <p>Relationship Marketing: This is utilized once a client is directed though our website though online methods. Once a potential client registers and becomes a member on our website, our sales team will personally reach out via phone or email to provide further assistance. The role of the sales team is to continue to support and empower clients and educate them on products and services offered. The team will go the extra mile for subscribers, prospects, and customers even after a sales transaction is completed.</p> <p>Our sales team has worked tirelessly to focus on providing outstanding customer support to create powerful rapport with our clients. By going above and beyond, we have enhanced existing relationships and executed customer loyalty with repeat businesses. They strive to deviate from the "Car Salesperson" mentality which is 100% sales driven to a more product and customer service approach by instilling a sense of confidence to our clients. Their constant goal is to regularly assist clients and address any needs during the entire sales process. Striving to focus on solution selling vs. product selling develops into a mutually beneficial agreement for customers and the business.</p> <p>Referral/Word of mouth: This strategy ties into our outstanding relationship marketing to clients. The positive quality of service experienced by customers has led to an increased number of sales through referrals. Our goal is to provide exemplary customer service throughout entire selling process to encourage repeat business and referrals.</p> <p>Coming late summer of 2020, National Auto Fleet Group will be launching a NAFG Partner Website to increase the growth of our business. The website www.nafgpartner.com is expected to launch late summer/early fall of 2020. The site encourages body upfitting companies throughout the United States to partner up with us to become a preferred member. The benefits of becoming a preferred member is to have their business advertised on our site as well as referring any clients with upfitting needs to a local body company within their general vicinity. Our buyers from government agencies are encouraged to go on the site as well and look for local body upfitting companies they are interested in working with. To join our network, they are required to advertise NAFG and the Sourcewell contract on their business website and refer their clients to purchase their cab/chassis needs through NAFG. This creates a relationship that will generate increased sales from both the sides. We are still currently building the website and searching for body companies across the states that would be interested in partnering up with NAFG.</p> <p>Direct Marketing: Prior to the Covid-19 outbreak, our company was promoting direct marketing strategies by contacting local businesses and setting up in person meetings with our dedicated public relations representative. The role of our dedicated representative included in person meetings to discuss our products and services, present website features and to drop off sales contact information for further questions.</p>

33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Social media is a critical part in the way people communicate and connect with each other. LinkedIn offers a variety of ways to expand our network by finding and connecting with relevant professionals in the industry. National Auto Fleet Group has utilized LinkedIn to reach out to current and potential members through personalized messages. Personalized messages include thanking them for registering on site as well as directing them to our link to the website, LinkedIn, and Facebook company pages. The goal is to find and connect with people already on our database as well as people that would benefit from our products and services. Current flyers or messages about our company are also posted on the LinkedIn site to generate more business. Time is also spent on reading posts from connections to observe any needs that National Auto Fleet Group may assist with. The marketing team also spends time researching government entities and prospects through their websites. In addition to looking for new clients, the marketing team will take time to sign up for e-newsletters from cities, counties, school districts and colleges. This will ensure that NAFG will understand needs of government entities and will utilize this information for future campaigns.</p> <p>Example: City of New York posted that they plan to replace current fleet with an all-electric fleet within the next 20 years. Email campaigns focusing on types of electrical vehicles provided by National Auto Fleet Group was sent.</p> <p>NAFG has recently introduced newly built live chat feature on our website. Visitors are prompt to chat with a live sales representative 24 hours a day, 7 days a week. This will ensure that clients that are interested have another avenue of reaching out in addition to emailing or telephone. Benefits of Live chat option include quicker response time to assist buyers for purchasing needs. Our live chat feature not only encourages sales but the value of the sale as well. Live chat benefits from understanding the immediate needs of the buyer and buyers can receive an immediate response not only from questions but recommendations for their needs.</p> <p>The use of marketing campaigns plays a major role in enhancing the growth of our client database. Email is a big part of our lives and every government agency employee has an email address. Campaigner.com is the platform used for our email marketing. The goal of email marketing is to reach our target audience and personalizing email flyers with a responsive design. Videos and images are used and can be viewed from on a computer or mobile device. Messages are short and to the point with links leading to the Sourcewell and NAFG homepage. The Campaigner email system allows us to track email activity based on open rate, unsubscribes and link clicks which is beneficial to understanding email effectiveness.</p>
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Sourcewell is a trusted brand that government entities can rely on to provide a wide variety of products and services. Clients recognize the Sourcewell brand and their vendors as a trusted source that will meet their needs. The main selling point of the brand is the elimination of the need to bid. Sourcewell has done for bidding for the government entities which simplifies the purchasing process. This process not only saves money but valuable time as well. Once a client receives a vehicle quote from our sales department, the role of the client is to submit a purchase order when ready.</p> <p>Sourcewell has provided NAFG overwhelming opportunities to work with government agencies across the United States. The Sourcewell well name represents a high standard of integrity and ethics and we are proud to be part of this dynamic. Sourcewell members have access to a contract that is more flexible than the standard bidding process.</p> <p>Sourcewell is an organization that aids government entities to stay competitive without the frustrations and issues involved with the traditional bidding process. The Sourcewell contract can be also be customized to meet the needs of the client. The sales team has incorporated not only this standard of integrity in their sales practice by ensuring clients we will always assist them with all their vehicle purchasing needs. The cost savings and stress-free nature of the cooperative contracts favors that of the traditional bidding process. It enables vendors to work with qualifying government entities in a more efficient manner. We vow to maintain these levels of standards across the board throughout all departments throughout the company.</p>
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Our website provides a hands-on empowering approach to ordering vehicles online. Clients can search through many vehicles makes and models with the ability to customize a vehicle tailored to their specific needs of their agency. A personalized quote with pricing can be available in as little as 5 minutes depending on the complexity of the vehicle. If upfitting is needed, a sales representative can be reached through phone, email or on the new live chat feature on the website.</p> <p>Once a customized quote is built, clients have the option to finalize the sales transaction by submitting a purchase order to our sales team via email. This gives complete autonomy to the client to purchase vehicles without the need to speak to a sales rep. If assistance is needed, they can contact sales through email, live chat, or phone.</p> <p>If support is required to build a quote, our sales rep is also available to walk a client through the e-procurement process step by step. This ensures having an available representative to answer any questions if needed and to empower the client to make any future purchases on their own. Clients may also call or email the needs of the company and receive a customized vehicle quote.</p>

This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All considerations have been taken into account in the price file in its entirety. Price Summary Page and Price Tabs contain all costs associated with all quotes. If a member would like a quote for a particular situation and the item requires special training or installation, these charges would be added as part of the upfit and included in the members quote.

We have created a member friendly easy to build online quoting system for members to use. Pricing is built directly into the website and is loaded daily by the manufacture MSRP information. Our system will provide an accurate quote 99.99% of the time. We have stream lined how our admin fee is processed to allow a quick 15-30 day turn around on quarterly reports.

Line Item	Question	Response *
-----------	----------	------------

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Navistar traces its roots to Cyrus McCormick and his invention of the mechanical reaper in 1831. The company expanded with the growth of the farm equipment industry throughout the 19th century and relocated to Chicago. After the turn of the century after merging and purchasing other farm equipment manufacturers, the company renamed itself as the International Harvester Company. During the 20th century, International branded trucks hit the market and continued to grow into larger trucks and school buses. In 1985 the company sold the farm equipment business and chose Navistar as the new corporate name and continued to invest in the truck, bus and engine businesses.</p> <p>Today the company builds International trucks and IC Bus products that are sold around the globe and also owns MWM in Brazil and 35% of Navistar Defense. International has the largest dealer network in North America (714 locations across US/Canada) and has a leading position in the government sector. We recently expanded our service network by partnering with Love's Truck Stops (350 additional locations) to even further expand our service capabilities in pursuit of better supporting our customers. International has also opened a new parts distribution center in Memphis to provide even faster shipment of parts. In addition, International offers a proprietary wireless service called On Command Connection (OCC) that takes all the engine and chassis signals off of a truck and puts them into an easy to use app that allows customers to see their fleet health reports and any upcoming service issues. There are over 640,000 vehicles on OCC and they are made up of all makes of trucks, not just International.</p> <p>Looking to the future, International introduced fully electric school bus and medium duty trucks at trade shows last year. Navistar has a corporate relationship with TRATON, the truck and bus division of Volkswagen AG, which gives International access to EV technology that has global scale and will make us a very competitive player in the commercial EV market.</p> <p>The International dealer network has sold more than 1,350 trucks to 377 Sourcewell Members off of the contract we currently hold and we look forward to serving even more members in the future.</p> <p>Our Investor Relations has a more detailed History at this link https://www.navistar.com/whoweare/heritage</p> <p>Additional website links: e-Mobility Medium Truck Video: https://youtu.be/oa654aDi8eE e-Mobility School Bus Video: https://youtu.be/TkO8GPvGM2k On Command Connect Video: https://youtu.be/1bxxUsJw International 360 Video: https://youtu.be/NFfM6z33WqI</p>

The Sales Reps that are at the dealership are employees of that dealership and will have proper licenses (if required) to sell the vehicles to Sourcewell Members.</p> <p>International has Vocational Sales Managers assigned to the Government Customers that work with the dealers to grow our government business and serve the Sourcewell Membership.</p> <p>International has a Sourcewell Website that we use with our current Sourcewell Contract. It also has the dealer locator included with it: https://internationaltrucks.com/sourcewell</p>	*
14	<p>If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.</p>	<p>States and Local Governments may require Sales Reps to have a License. Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
42	Do your warranties cover all products, parts, and labor?	<p>International provides the following (Base Warranties will be included in supporting materials as they vary by model and powertrain)</p> <ol style="list-style-type: none"> 1. Warranty coverage is determined by a time and mileage limitation based on the sale date. 2. Coverage may vary between Base Vehicle and Base Engine Warranty Coverage and documented in the vehicle warranty coverage document. 3. Base warranty coverages have some components and/or defect modes which hold different coverage terms but are called out on warranty coverage document. 4. Any International Truck Dealership can perform warranty coverage repairs and file directly with Navistar. 5. If a customer qualifies and is approved to be a fleet level customer, they are allowed to file their own warranty claims. This can be done via Navistar Warranty Submission System. 6. Some suppliers such as: Cummins Engine, Allison Transmission, and other large Component Suppliers are required to return to their local distributors for warranty repairs. 7. Some suppliers require prior approvals to perform repairs even when performed by a Navistar Dealer. 8. If the repair is covered under warranty, the parts and labor are covered. 9. Over the Counter purchase of a part that is not installed by a Navistar Approved repair facility only receives the part expense of the warranty. If labor is also purchased with the part at a Navistar Approved service facility, then the Labor would also be included. 10. Parts returns are determined by Supplier agreements and needs, these parts are required to be returned under warranty. Requested parts back which are not returned are subject to a claim chargeback. Always hold on to the failed part until notified otherwise.
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<ol style="list-style-type: none"> 1. The warranty coverage document also covers restrictions of coverage, competitive with the rest of the industry restrictions/limitations. 2. External influence, damage, modifications, etc... 3. Failure due to improper use, misapplication or abuse, could be denied 4. Failure due to improper maintenance, storage, deterioration, etc... 5. Supplier Direct warranty requirements i.e. Cummins/Allison, etc...
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	<ol style="list-style-type: none"> 1. On Road vehicles that are still under towing coverage, have a unit disabling failure, and covered by towing coverage can be repaired at failure site. When this is more cost effective and can be properly repaired without towing the unit back to the dealer, we will reimburse for the road call in lieu of the tow expense. 2. This is not covered under the standard warranty period.
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>Since our products are on highway vehicles, our warranty repairs are done at the dealership or a service provider authorized by Navistar. Navistar prefers that Sourcewell Members use International Dealers for non-warranty repairs as well. Dealers that serve remote areas have the ability to get techs out to service those products, however the travel and labor expenses getting to and from those products is not covered under warranty.</p>

46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>Navistar base warranty on International Trucks covers all vendors through the standard warranty offering. However, as indicated in previous response there are a few suppliers such as Cummins and Allison that require their concerns to return to their distributors for repair and warranty. Most International Dealers are certified to perform warranty work on Cummins product.</p> <p>Equipment installed at Navistar TSC Mod Centers will carry a 12 month warranty.</p> <p>For Turn Key Units, Equipment installed at the dealer, an outside mod center or a TEM/Up-fitter are not part of the Navistar Warranty, they would be covered by the party that manufactured the components/equipment and the party that installed it. The International Dealer will go through the warranty coverage in the proposal process including the installed equipment.</p> <p>We have included in the attachments the Navistar Base Warranty for vehicles offered in this proposal.</p>	*
47	What are your proposed exchange and return programs and policies?	<p>Our vehicles will be delivered as ordered and warranted free of defects and workmanship. If a vehicle is not performing to the level expected, we will engage the appropriate Field Service Personnel including our Technical Field Service Manager to expedite a repair plan. Our expectation is not only to resolve the Sourcewell Member's concern fully, but in a timely manor.</p>	*
48	Describe any service contract options for the items included in your proposal.	<p>International provides a wide variety of service contracts that are published as well as custom contracts to cover s a specific component or system to the Sourcewell Member. These Service Contracts/Warranties can be added to the spec of the truck when purchased or after the unit is built, but not delivered. Units that are in service may be eligible for extended warranty, but there are time limitations. On the A26 Engine, Navistar offers an optional 4 year / 100,000 mile / unlimited hour warranty for HV and HX models for \$999.</p>	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
49	What are your payment terms (e.g., net 10, net 30)?	For the Sourcewell Members, the International Dealer will carry the unit on their books for 30 days. Payment will take place prior to possession or upon arrival at the body company, unless Sourcewell Member makes other arrangements. If units are funded by NCL they can fund the vehicle when it arrives at the body company. For units going to a body company for that will not be funded by NCL or completed in 30 days, the selling dealer can add expense of those terms into the sale agreement.
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	International dealers work with NCL muni financing for Sourcewell Members. NCL is a Sourcewell Contract holder with 20 years or Sourcewell experience and the flexibility to accommodate member needs.
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	<p>The International Dealer will make sure the entity is a Sourcewell Member. If they aren't the Dealer will help the entity get signed up for Sourcewell. Once the Sourcewell Member has worked out the specs and equipment they need on the unit, the International Dealer will price the chassis and equipment using the Sourcewell Workbook Navistar Financial Team developed for the current contract. It makes sure the member gets the chassis and additional equipment priced properly as we laid out in the contract and provides an easy to read template that lays out the cost and demonstrates the discounts. Once that is completed the dealer submits the information to the Finance Team (CSA) who provides them an authorization number. When the purchase order arrives, the selling dealer send the workbook and the purchase order so the unit can be ordered. Shortly after the order is placed, the dealer will get an order/job number and a serial number for the vehicle. (A special feature code goes on all Sourcewell orders so they can easily be tracked in the system.) within 30 days of the order going into the system, the order will get fully coded and all the major components and any engineering will get scheduled prior to build. During this process the dealer will be communicating with the member and the TEM/Up-fitter to coordinate a timely installation and delivery.</p> <p>Order to build on the chassis is 120-150 days, with 15-20 days for shipment.</p> <p>Units with bodies installed can add additional 15-120 days depending on the equipment being installed and the lead times at the body installer.</p>
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Since the products sold will go through the International dealer channel, the ability to utilize a P-Card would need to be established between the Selling dealer and the Sourcewell Member. If the dealer can accommodate, they would need to add the cost of the fees incurred to the transaction. Those fees would be spelled out by the selling dealer in the proposal documentation.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

<p>53</p>	<p>Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.</p>	<p>For all models except the CV Model - International will utilize a pricing program for the International Dealers that defines a percentage of discount, off the list price of all vehicles. Total Chassis list and Options List, less percentage discount equals the selling price of the chassis. For the CV models they will get stated dollar discounts that are subtracted from the list price of the vehicle to establish the sale price. Spreadsheet in appendix along with a sample proposal for each model. Sourcewell Members can modify the specs to their needs and are not limited to the specs submitted. Navistar's Pricing for the 2020 Sourcewell RFP for Class 4-8 Trucks is based on the U.S. Dollar. For units purchased by Sourcewell Members in Canada, an exchange rate will be added to the pricing on the Sourcewell Member's proposal. Navistar uses this same process for pricing with Government Business in Canada. When the dealer submits the Sourcewell Member Information for pricing, Navistar will provide the selling dealer with the appropriate exchange rate and will lock the exchange rate in effect the day it is quoted and that exchange rate will be honored for 60 days. If the unit(s) are turnkey with bodies and equipment on them, the selling dealer will confirm and communicate any exchange related items associated with the bodies and any installed equipment on the vehicle(s) as well as the chassis. The exchange rate and order by date will be noted in the pricing summary the selling dealer provides the Sourcewell Member. In addition, Sourcewell is very important to the government sector we serve in Canada and Navistar has 2 dedicated Representatives based in Canada to serve the Canadian Sourcewell Members and International Dealer Network in Canada</p>

56	<p>Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.</p>	<p>International Dealers welcome "Sourced" products as a truck isn't complete without the body and equipment to do the job. The majority of our government sales are turn key and we have great relationships with the TEM's/Up-fitter. Goods Purchased outside of the chassis assembly process (including Mod Centers) can be added to the members proposal with a handling fee not to exceed 5% of the cost of those Goods and Modifications. These items and the markup is disclosed on summary sheet provided to the member with the proposal. In order to facilitate greater Sourcewell synergy, when International Dealer Sources Body and Equipment from a Sourcewell contact holding TEM equipment will be limited to a 4% Markup.</p>																																																																																																																																		

57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	This is not common. If there are additional cost, they would be disclosed in the pricing summary and agreed to by the Member. Some states require a state vehicle inspection, or a Federal DOT inspection. If State, or Provincial Law requires collecting license fees and/or taxes, that would not have been part of the Sourcwell Pricing Program. The Sourcwell member may decide the unit has to be delivered full of fuel or ask for expedited shipping	*
58	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Within the lower 48 and Canada, there is a flat fee for freight. A freight fee is included in every vehicle and covers freight to a mod center (outside International), TEM/Up-fitter, or Dealership. When the unit is ordered, the selling dealer puts in the shipping instructions. Once units are built, they are decked and shipped with carriers contracted to Navistar. When the unit arrives at the destination, they are to be inspected and any issues are identified before the drive away driver departs.	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight to Port Alaska is the same as Freight as the lower 48 states and Canada. (Shipped as Tractor or a cab and chassis) first movement. If Port Alaska is not the final destination in Alaska, the additional expense would be worked out with the selling International Dealer. Our dealer in Hawaii and the dealer in Puerto Rico handle shipping of products to their locations from either the body company or a port in the U.S.	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Delivery is traditionally done at the Dealership for Tractors, or the TEM/Up-fitter for units with a body installed. If the Member is requesting a unique delivery requirements, that would need to be discussed and properly described and included in the pricing proposal.	*

Navistar has offered additional incentives to Sourcwell Members for larger contracts or where there was an opportunity to take advantage of the Sourcwell offering and will continue to use as needed in future contracts.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	<p>Using Best Practices from our current contract, we require the dealer to put feature code 10JPA on Sourcewell Orders to make sure we track them and that they get "Silver Package" and any other Credits and Incentives they are due. To facilitate proper pricing for the Sourcewell Member, we have developed a "Sourcewell Pricing Workbook" that the dealer uses to price out the chassis and any additional equipment or warranties the member may require. It transfer's all the information to the members pricing sheet summary.</p> <p>The selling Dealer has to provide financial summary and purchase order so Navistar can ensure that the member has received the proper pricing. Dealers are aware that we will correct mistakes and they can get charged for items they did not do correctly.</p>
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	<p>Navistar is pleased to provide Sourcewell with the following rebates by model family:</p> <p>CV = \$1000 MV 607 = \$1500 HV 507/607 = \$1500 HV 513/613 = \$2000 HX 515/520/615/620 = \$2000 RH/LT/Lonestar = \$2000</p> <p>These rebates are NOT in the dealers proposal's and will be paid to Sourcewell Quarterly along with detailed summary sheet.</p> <p>For Parts purchased using Sourcewell Fleet Charge Program, Sourcewell will receive .5% (.005) of the total sales to Sourcewell Members using Fleet Charge. Navistar will pay this parts rebate quarterly.</p>

Navistar has a corporate relationship with TRATON, the truck and bus division of Volkswagen AG, which gives International access to EV technology that has global scale and will make us a very competitive player in the commercial EV market.</p>

73	Describe any manufacturing processes or materials utilized that contribute to chassis strength, cab strength, overall durability, driver safety that differentiate your offerings.	<p>International is building the best quality products that we have seen in many years. Our investment in plant updates, lean practices and a relentless quality organization focused on Uptime, has got us to this point.</p> <p>Our 1/2" single Frame rails are the strongest in the Industry. We also have integral front frame extensions on many models and FEPTO Access which is very popular on plow trucks. Our Frames are e-coated as well as painted (optional galvanized rails). 37	Describe any technological advances that your proposed products or services offer.	<p>In addition to the standard features of Peterbilt trucks that will be listed below, Peterbilt trucks offer the following technological advances:</p> <p>SmartNav:</p> <p>A high-tech infotainment system, SmartNav delivers GPS navigation (truck maps), communications (integrates with cell phones) and vehicle monitoring (virtual gauges and other truck info) direct to an in-dash seven-inch color touch-screen. The SmartNav display enables intuitive interaction with an array of technologies, functions and apps, including truck camera systems. SmartNav features voice recognition and control, keeping hands on the wheel and eyes on the road. SmartNav integrates seamlessly with your phone via Bluetooth® connection and includes WiFi capability, making it easy to stay in touch no matter where you are. The integrated audio system plays through the truck speakers and can also accommodate satellite radio. The display is available in English, Spanish and French Canadian.</p> <p>SmartAir:</p> <p>Peterbilt's proprietary SmartAir system provides a factory installed, no-idle climate control solution that delivers maximum comfort while also reducing emissions and lowering fuel costs. The SmartAir system is powered by four, heavy-duty AGM batteries that are charged during normal driving conditions. When the engine is off, SmartAir provides quiet, efficient, high-power cooling capacity for up to 10 hours on a single charge. Peterbilt's SmartAir design features one of the smallest footprints in the industry. It also features on-board diagnostics, full automatic temperature control in A/C and heating modes and a digital LCD display that makes it easier to control the unit and provides battery monitoring. The system is fully integrated with Peterbilt's existing sleeper HVAC systems, resulting in increased cooling performance, enhanced reliability, reduced maintenance and lower overall operating costs.</p> <p>SmartLinq:</p> <p>Peterbilt's SmartLINQ remote diagnostic system complements fleet management operations by providing real-time notifications should a vehicle's onboard diagnostics system generate a service event. This easy-to-use, web-based</p>

system helps you prioritize which trucks should be serviced at the next convenient opportunity or which may need immediate attention. SmartLINQ provides four levels of notification – Stop Now, Service Now, Service Soon and Informational – as well as the fault codes generated from any vehicle requiring service. SmartLINQ allows the fleet to proactively schedule a service appointment with a Peterbilt dealer to ensure the needed resources are available when the vehicle arrives for service, getting your truck back on the road as quickly as possible. With SmartLINQ, Peterbilt helps you eliminate unscheduled downtime.

Collision Mitigation:

Peterbilt offers both the Bendix Wingman Collision Mitigation System as well as the Meritor OnGuard System. These systems utilize forward radar detection to provide driver alerts and active braking when objects are detected in the road or if closing on the vehicle ahead. Systems also offer lane-keeping technology as well as side object detection. Camera-integrated option provides enhanced object detection and can even read speed limit signs and alert drivers if over the limit. Systems can provide electronic stability control to prevent rollovers as well as adaptive cruise control with reduces throttle and/or applies the service brakes to maintain safe distance with vehicles ahead.

HID + LED headlights:

Peterbilt offers both High-Intensity-Discharge headlights and LED headlights. HID's provide the best available forward visibility, while LEDs provide superior wide-range/close-range lighting

Predictive Cruise:

Predictive Cruise if offered and provides (via forward radar sensor) for automated reduced throttle and/or service brake application to maintain safe distance with vehicles ahead.

Driver Performance Assistant:

When manual transmission is specified, Driver Performance Assistant provides a visual aid to drivers to encourage them to operate in the vehicles RPM "sweet spot" as well as "shift now" notifications to optimize shift patterns for operational efficiency and improved fuel economy.

Driver Information Display:

The standard Peterbilt Driver Information Display, located in the center of the dash cluster, provides the operator with the following selections via a toggle switch: Standard view shows cruise status, park-brake status, and gear selected. Optional views show virtual gauges (i.e. voltmeter, transmission temperature gauge), engine RPM display, shut-down timer, trip information (fuel economy, miles operated, hours operated, idle time, etc.), truck information (VIN, engine make/model, transmission make/model, etc.), and diagnostics/warnings (fault codes with descriptions).

Stability Control with Automatic Traction Control:

Electronic Stability Control prevents roll-over situation by applying the anti-lock service brakes to individual wheels to maintain truck balance when taking turns. Combined with automatic traction control, the technology greatly enhances safety for drivers/fleets.

Zinc coated frame rails:

Peterbilt offers a zinc coating for its frame rails and crossmembers that significantly reduces corrosion over the life of the truck.

Peterbilt offers a bump-fin style cooling system for extreme dirt environments to reduce wear on the engine.

Allison FuelSense:

Allison FuelSense technology optimizes shift patterns depending on the fleet's desired operating characteristics (power/max-fuel-economy/blend).

Peterbilt offers RollTek Air-Bag-equipped seats for enhanced safety in rollover accidents.

Peterbilt offers the full line of NFPA requirements including Seat & Occupancy sensor & warning, NFPA seats, NFPA grab handles, etc.

Peterbilt offers pre-wiring Provisions for fleet communication systems, camera systems, custom maintenance systems, etc.

Standard technology on Peterbilt trucks that provide value to fleets:

38	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Peterbilt offers more models with CNG & LNG engines than any other OEM and has sold more CNG/LNG trucks and offered them longer (since 1996) than any other OEM.</p> <p>Peterbilt's full line of engines are approved for the use of Biodiesel up to B20.</p> <p>Peterbilt just launched 3 Battery-Electric-Vehicles that are for sale; (Model 220EV - available NOW) and starting in CY2021 (Model 520EV & Model 579EV).</p> <p>Investing in Sustainable Operations:</p> <p>All Company manufacturing locations that have been in operation for more than two years have achieved ISO14001 certification.</p> <p>The Company has invested \$160 million over the past ten years in facility projects that have improved energy efficiency, reduced emissions, reduced water consumption and waste including \$35 million in reusable containers.</p> <p>First in the truck industry to implement chassis robotic paint systems. This process has enhanced paint quality, reduced cost and decreased paint usage, waste and air emissions.</p> <p>Reducing Greenhouse Gas Emissions</p> <p>From 2009 to 2016 Peterbilt reduced greenhouse gas emissions 32% on a per revenue basis.</p> <p>Hazardous air emissions have been reduced by over 200 metric tonnes per year in paint and other processes.</p> <p>Peterbilt joined the CDP Reporter Services for reporting greenhouse gas emissions and to benchmark performance to continue reducing our greenhouse gas footprint.</p> <p>Reducing Waste</p> <p>Many of the Company's manufacturing locations achieve "zero waste to landfill" by recycling, employing reusable containers and composting food and paper waste.</p> <p>Conserving Resources</p> <p>Peterbilt reduces the use of water through internal recycling, reduces paint waste through robotic paint systems and conserves energy by using new technologies such regenerative dynamometers that capture electricity from vehicle testing.</p> <p>Products</p> <p>All Peterbilt vehicles have near-zero emissions of NOx, a smog causing compound, and are compliant with all applicable standards including those by the California Air Resources Board (CARB), the US Environmental Protection Agency (EPA) and the European Commission.</p> <p>Peterbilt uses Ecodesign, a software tool, to reduce environmental impacts through product design. Through this process, engineers increase recyclability of our trucks, reduce air emissions, use lighter materials to reduce fuel consumption and use fewer hazardous materials.</p> <p>Fuel-Efficient, Low-Emission PACCAR Engines</p> <p>Peterbilt has strengthened its leadership in environmental stewardship by expanding its global portfolio of high performing low emission engines.</p> <p>Over the past five years, these engines have reduced GHG emissions by up to 14%. NOx and particulate matter have also been reduced by over 83%.</p>
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>Peterbilt's full engine offerings all meet or exceed all Environmental Protection Agency (EPA) and California Air Resources Board (CARB) emissions requirements.</p> <p>All plants that manufacture Peterbilt products are ISO 14001:2004 and/or ISO 14001:2015 Certified.</p> <p>Peterbilt offers EPA-Certified Green-House-Gas Emissions tires on all of its products.</p> <p>See Line Item 38 for additional details.</p>
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>Peterbilt's Dealer Network has several dealers/groups that operate as WMBE, SBE, and/or veteran owned businesses.</p> <p>Example certification (Montana Peterbilt) attached.</p> <p>Other certifications/inquiries available upon request to Peterbilt Motors.</p>

<p>41</p>	<p>What unique attributes does your company, your products, or your services offer to Sourcwell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcwell participating entities?</p>	<p>Peterbilt is a US based (Headquartered in Denton, Texas) company that offers the widest array of trucks in the industry. Peterbilt offers Class 5 Conventional trucks, Class 6 & 7 Cab-Over trucks, Class 6 & 7 Conventional trucks & tractors, Class 8 Conventional trucks & tractors AND Class 8 Cab-Over trucks & tractors.</p> <p>No other OEM has the variety of trucks offered by Peterbilt Motors.</p> <p>This allows for a Sourcwell member fleet to procure all of their trucks from one OEM/Dealer. This "one-stop-shopping" benefits the member through a single source for all trucks, parts, and service needs, streamlining their operations. For example, if a fleet needs a large cab-over refuse truck, a small cab-over for paint striping, and a conventional tandem truck for a dump/plow application, Peterbilt is the ONLY OEM that can provide all 3 trucks.</p> <p>Peterbilt offers Class leading re-sale values on all of its trucks. If/when a Sourcwell Member trades/sells/auctions its used Peterbilts they will get significantly more than any competitor. This is reflected in NADA book values and can also be extracted from "Truck Paper" pricing.</p> <p>94% of Peterbilt trucks in-serviced in Calendar Year 1999 were still in-serviced in Calendar Year 2019 94% of 20-year-old trucks were still being put into service. This is a testament to Peterbilt's design philosophy of durable, reliable, custom engineered work trucks.</p>

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
42	Do your warranties cover all products, parts, and labor?	Yes. See attached for full warranty schedule. For extended warranty information, members can reach out to their local Peterbilt dealer or Peterbilt's Sourcewell manager listed on the contract. Hundreds of different combinations of extended warranties are available, including custom warranties to match the members needs (ex - more years, less miles/yr, etc.)
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No.
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes.
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	No.
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Typically warranty for components added to a truck AFTER FACTORY DELIVERY (i.e. a Refuse Body or Dump Body, etc.) is covered by the OEM/Dealer/Distributor for that Body. However, a number of Peterbilt Dealers are authorized distributors and/or service locations for other manufacturers/Body-Companies and can therefore provide warranty support. Peterbilt Dealer locations that are also authorized dealers/distributors for other manufacturers/Body-Companies can be researched via the Peterbilt dealer or manufacturer/Body-Company website or by contacting the Peterbilt Motors National Account Manager that manages the Sourcewell Contract listed on the Peterbilt landing page on the Sourcewell website.
47	What are your proposed exchange and return programs and policies?	Exchange & return policies for trucks are at the discretion of the individual Peterbilt dealer providing the vehicle.
48	Describe any service contract options for the items included in your proposal.	Service contracts direct through Peterbilt Motors would only be available through Peterbilt's company-owned Lease operations (PacLease). The majority of service contract options would be handled through Peterbilt Motors dealer network. Most Peterbilt Dealers offer service contracts that provide a variety of options i.e. Preventive Maintenance, towing services, DOT inspections, tire exchange programs, oil analysis, winter prep, etc. Most Peterbilt dealers can also offer on-site technicians, mobile-service, and full-maintenance-contracts.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
49	What are your payment terms (e.g., net 10, net 30)?	<p>Payment terms are at the discretion of Peterbilt Dealers and vary depending on the type of truck purchased, body installed (if applicable), lead-times for components, etc.</p> <p>Payment terms are negotiable - typically Peterbilt dealers can provide payment terms that match what the Sourcewell member requests.</p>
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	<p>Yes; Peterbilt Motors offers a full range of financing options including municipal leases through Paccar Financial Corporation (PFC), a Division of Paccar (Peterbilt is also a Division of Paccar).</p> <p>In addition to PFC, Peterbilt dealers can provide financing options through various banks and other financial partners. Also, many Dealer Groups operate their own finance companies and can provide options for Sourcewell members.</p>
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	<p>Peterbilt Motors has created a special sales code that is added electronically in our "Truck Specification Software" that designates the truck(s) being ordered as a Sourcewell transaction. Peterbilt dealers submit Sourcewell orders electronically to Peterbilt Motors. A quarterly report is generated that shows all trucks that were ordered with the code. Peterbilt's Sourcewell Manager then cross references the code with warranty start dates to determine what trucks were put into service during that particular quarter. Although not required by Sourcewell, Peterbilt Sourcewell Manager then obtains copies of all invoices to the Sourcewell members for those trucks and verifies pricing. The trucks are then loaded onto the Sourcewell quarterly report and submitted to Sourcewell and at the same time submitted to Peterbilt accounting for check processing to pay Sourcewell.</p> <p>All purchase orders from Sourcewell members go directly to and are processed by Peterbilt dealers.</p> <p>For trucks on the ground that were not ordered for particular Sourcewell deals (stock trucks), dealers submit pricing to Peterbilt's Sourcewell Manager to verify that the sell price meets our Sourcewell contract pricing. Those "stock trucks" are then added to the quarterly tracking database.</p>
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	No.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

<p>53</p>	<p>Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.</p>	<p>See attached Peterbilt-Sourcewell Pricing.</p> <p>Peterbilt will continue with pricing that provides a %-off-of-list format. Peterbilt's published Sourcewell pricing lists sample MSRP/List prices for each model offered.</p> <p>Peterbilt will provide pricing for EVERY model we offer. Sourcewell members need to simply have their local Peterbilt dealer build their truck specification, obtain the specification from the dealer with the final list price. Member then takes the appropriate % (varies by Model) off of that list price to give them their final ceiling price for the truck. Price includes Peterbilt's factory freight and the Peterbilt dealer's profit & pre-delivery-inspection.</p> <p>Pricing does not include any components or services provided by the dealer - ex) Body, additional components like lights, cameras, etc., additional fuel, truck clean-up, local delivery, etc.</p> <p>Also not included are any extended coverages requested and any engineering vehicle layout drawings if needed.</p> <p>*** Medium-Duty/Heavy-Duty Commercial trucks do not have true MSRPs - list prices can vary greatly depending on options. For example, the difference between a manual transmission and automatic transmission can be \$10,000+ in list price. Aggressive deep-lug all terrain tires can add \$5,000+.</p> <p>Battery-Electric-Vehicles (BEV) will be priced using the same method as described above for the cab & chassis (truck) except that the BEV Systems cost will be added to the cab & chassis price separately.</p>
<p>54</p>	<p>Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.</p>	<p>Peterbilt's discount for the Sourcewell contract is a %-off-of-List-Price format. The %-off yields truck pricing that is equalized to our best Marketing Program at the time of the RFP which will provide for substantial savings for Sourcewell members.</p> <p>As per the comments in Line Item 53, Price is established by taking the appropriate % (varies by Model) off of the final list price of the truck (after dealer specs the truck per the Sourcewell member's specifications). Price yielded includes Peterbilt's factory freight and the Peterbilt dealer's profit & pre-delivery-inspection.</p> <p>Pricing does not include any components or services provided by the dealer - ex) Body, additional components like lights, cameras, etc., additional fuel, truck clean-up, local delivery, etc.</p> <p>Also not included are any extended coverages requested and engineering vehicle layout drawings if needed.</p> <p>See attached Pricing Proposal.</p> <p>To sum up the pricing proposal, Sourcewell Members will get the following discounts:</p> <p>Model 220: 23% Model 325: 27% Model 330: 31% Model 337: 32% Model 348: 35% Model 365: 43% Model 367: 43% Model 567: 43% Model 579: 44% Model 389: 44% Model 520: 42%</p> <p>Example: Sourcewell member works with local dealer to build a spec for a Model 348 and final list price with all options is \$130,000. Sourcewell member simply takes 35% off of that and the number yielded is what they would pay for the truck. \$130,000 - \$45,500 (\$130,000 X 35%) = \$84,500.</p>

55	Describe any quantity or volume discounts or rebate programs that you offer.	<p>Peterbilt Motors Company AND its Dealers will provide quantity/volume discounts on a case by case basis - simply contact local dealer or Peterbilt Sourcewell contract manager. Typically this would be for transactions of 10 or more trucks.</p> <p>Rebates are also available for purchases of 10 or more trucks. For rebate structure/questions, etc., Sourcewell member will simply need to contact Peterbilt's Sourcewell Contract Manger.</p>	*
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	<p>Peterbilt dealers can provide turnkey solutions for Sourcewell Members. Peterbilt dealers can provide one invoice that includes the truck cab & chassis and all other components required on the vehicle.</p> <p>Examples of such components (or "sourced goods"):</p> <p>Bodies (refuse, dump, vacuum, etc.) Accessories (plows, additional lights, cameras, etc.)</p> <p>Peterbilt dealers will provide both Bodies & Accessories at cost plus a maximum of 10%. Cost plus 10% amount may not exceed \$7,000 for Bodies & Accessories.</p>	*
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>Items not included in Peterbilt's "%-off-of-List-Price" pricing are mentioned in Line Items 53 & 54.</p> <p>Truck (cab & chassis) price calculated from %-off-of-list-price equation includes Peterbilt factory freight charge and dealer profit and pre-delivery-inspection (PDI).</p> <p>Price does not include any component or service provided post factory delivery.</p> <p>Examples of components/services NOT included from Peterbilt Motors:</p> <p>Extended truck warranty Extended engine warranty Peterbilt Engineering Vehicle layout drawings</p> <p>Examples of components/services NOT included from Peterbilt Motors and provided by the Peterbilt Dealer:</p> <p>Body Federal Excise Tax (FET) - if applicable Other taxes Doc fees local delivery clean-up/truck wash additional manuals training additional lights camera systems additional fuel additional diesel exhaust fluid</p>	*
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>Freight from the Peterbilt factory where the truck is being manufactured to the 1st delivery point (either Body-Company or Peterbilt Dealer) IS included in Peterbilt's Sourcewell pricing.</p> <p>Delivery of truck from the Body-Company or Peterbilt Dealer to the Sourcewell member is NOT included in Peterbilt's Sourcewell pricing and will be called out as a separate line item on the Body Company invoice and/or the Peterbilt dealer final invoice.</p>	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>Terms for freight, shipping, and delivery to Alaska, Hawaii, Canada, and Puerto Rico no different that US from a pricing perspective.</p> <p>Time to ship estimated at 2-3 additional weeks for Alaska/Hawaii/Puerto Rico</p>	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>Peterbilt Motors dealers can offer delivery spread out across a calendar year and sometimes 2-3 years at the same price (depending on purchase volume) or max 1% increase per year. Trucks can be delivered at intervals that suit the Sourcewell members need/budget.</p> <p>Peterbilt dealer can also offer to "stock" trucks that match Sourcewell Members' specifications and have them ready to deliver asap.</p>	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
61	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Peterbilt pricing proposal reflects our best Marketing Program offered YTD in CY2020 and due to limits placed on dealer profit/pdi and other costs, the final pricing is better than what is typically offered.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell.	<p>As noted in Line Item 51, Peterbilt Motors has created a special sales code that is added electronically in our "Truck Specification Software" that designates the truck(s) being ordered as a Sourcwell transaction.</p> <p>Peterbilt dealers submit Sourcwell orders electronically to Peterbilt Motors. A quarterly report is generated that shows all trucks that were ordered with the code.</p> <p>Peterbilt's Sourcwell Manager then cross references the code with warranty start dates to determine what trucks were put into service during that particular quarter.</p> <p>Although not required by Sourcwell, Peterbilt Sourcwell Manager then obtains copies of all Peterbilt dealer invoices to the Sourcwell members for those trucks and verifies pricing meets the Sourcwell Contract.</p> <p>The trucks are then loaded onto the Sourcwell quarterly report and submitted to Sourcwell and at the same time submitted to Peterbilt accounting for check processing to pay Sourcwell.</p> <p>For trucks on the ground that were not ordered for particular Sourcwell deals (stock trucks), and therefore do not have the Sourcwell electronic code on them, dealers have been formally instructed through Peterbilt's Sourcwell dealer training material to notify Peterbilt Motors of any stock trucks that sell to a Sourcwell member. Dealers must also submit pricing for those stock trucks to Peterbilt's Sourcwell Manager to verify that the sell price meets our Sourcwell contract pricing.</p>
63	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Peterbilt Motors proposes to continue to offer the flat \$500/truck administrative fee that was provided for our current Sourcwell contract.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
-----------	----------	------------

64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>Peterbilt Motors offers the widest product line in the industry for Sourcewell members.</p> <p>Peterbilt offers the following products:</p> <p>Model 220: Cab-over cab. Table 15: Industry Specific Questions

Line Item	Question	Response *
71	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>1) Peterbilt Motors tracks market share for several segments, 1 of which is Government/Municipal/etc. Peterbilt Sales force and Dealer Network are graded heavily on market share performance, both by Peterbilt Senior & Executive Management but also by Peterbilt's parent company, PACCAR, Inc. Performance regarding market share is weighted heavily for Peterbilt department evaluations (i.e. Vocational/Government Sales Team, Medium-Duty Sales Team, etc.) as well as individual evaluations and effects individual compensation.</p> <p>2) Peterbilt Motors created a specific tracking sales-code for Sourcewell transactions. This code is entered by Peterbilt dealers when truck specifications are created for Sourcewell members and is tied to the specification when it is submitted for final order. This allows Peterbilt to track all Sourcewell ordered trucks. In addition, dealers are required to submit VIN numbers for all stock trucks that sell to Sourcewell members. Stock trucks are trucks ordered for dealers to put on the ground in inventory to sell to the general public and therefore are not ordered with the Sourcewell tracking code. Dealers must submit their stock-truck Sourcewell sales quarterly to Peterbilt Motors.</p> <p>Using this data, Peterbilt recognizes the highest volume Dealer-Group with the "Sourcewell Most Valuable Partner" award annually and in addition recognizes the #1 Sales Person nationally. Monthly standings are sent out to the Dealer Groups & Individuals to encourage participation & competition.</p>

72	Describe your company's offering in relation to alternative fuel sources, including electric or others.	<p>Peterbilt Motors Company is the industry's #1 provider of Compressed Natural Gas (CNG) and Liquefied Natural Gas (LNG) trucks & tractors. Peterbilt has been selling CNG/LNG trucks for over 20 years.</p> <p>Peterbilt offers the Cummins L9N & ISX12N in several models: Model 337 (truck or tractor), Model 348 (truck or tractor), Model 567 (truck or tractor), and Model 520 Cab-Over (truck only).</p> <p>All of Peterbilt's engines (PX7, PX9, MX-11, and MX-13) as well as the Cummins engines offered by Peterbilt (X15) are compatible with Bio-diesel up to 20% (B20).</p> <p>Peterbilt Motors also offers the broadest range of Battery-Electric-Vehicles (BEVs) on the market.</p> <p>Peterbilt offers 3 distinct Models of BEVs:</p> <p>Peterbilt Model 220EV. Cab-Over; truck configuration. Commons applications include box/van for delivery, stake bed, and flat-bed.</p> <p>Peterbilt Model 579EV. Conventional Cab; tractor configuration. Local delivery or Port application.</p> <p>Peterbilt Model 520EV. Cab-Over; truck configuration. Refuse applications.</p>
73	Describe any manufacturing processes or materials utilized that contribute to chassis strength, cab strength, overall durability, driver safety that differentiate your offerings.	<p>Each Peterbilt truck is hand-made at one of our 3 manufacturing facilities. All components that make up each individual Vehicle Identification Number (VIN) are tracked by their serial number, at what station they were installed, by what employee, using what tools, at what specific time of the day and even the exact torque value of components fastened to the truck. This allows for optimum monitoring of supplier quality, any manufacturing errors, and insight into issues in the field (i.e. - failure in the field can more easily be traced to a particular batch of parts or a particular supplier, manufacturing process may need adjusted, etc.).</p> <p>Peterbilt Motors uses the highest quality materials that exceed most NHTSA, TMC, or SAE standards. All conventional cabs are aluminum in construction and use aircraft grade huck or henrob fasteners for assembly.</p> <p>Chassis strength:</p> <p>All OEMs use similar frame RAILS in regards to PSI/RBM - Peterbilt is the only OEM that uses FIVE 5/8" huck fasteners on each side of the crossmembers in the frame. This gives Peterbilt the absolute strongest frame in the industry - up to 600% stronger.</p> <p>Most of Peterbilt's conventional cabs (325/330/337/348/365/367/389) are constructed of aluminum and are fastened together with adjoining aluminum sheets overlapped (lap-seam construction) and fastened with aircraft quality huck fasteners. Peterbilt's other conventional cabs (567/579) use the same lap-seam process but use robotically punched henrob fasteners along with 2 adhesives (structural & acoustic) to fasten the cab together.</p> <p>This superior frame and cab construction contributes to Peterbilt having 94% of it's trucks in-serviced in 1999 STILL being in-serviced in 2019! - Class leading durability.</p> <p>Safety features include:</p> <ul style="list-style-type: none"> Bendix ESP Stability Control System Bendix Wingman collision mitigation Meritor OnGuard Smart Traction Control Battery disconnect switches Auto Neutral activates with parking brake Brake lock PTO control Seat belt and occupancy sensor Remote keyless entry Optional Severe Service Cab Orange/Red seat belts RollTek Air-bag equipped seats <p>Other Peterbilt features & benefits/advantages:</p> <p>FRAME</p> <ul style="list-style-type: none"> • Steel rails with gussets to maximize RBM. • Huck bobtail fasteners provide a consistent and durable clamping force up to 600% greater than bolted frames. Tamper resistant round head and collar offers improved paint adhesion and corrosion resistance. Swage indicating features on collar allows for visual inspection of clamped joint. • 3-piece C-Channel crossmember with cast gussets for the strongest crossmembers in the industry.

74	Describe any differentiating serviceability attributes (remote diagnostics, etc.) your proposal offers.	<p>Peterbilt hoods tilt a full 90-degrees providing class-leading engine compartment access for optimum serviceability of all components. All other OEMs hood tilt at approximately 75% or worse.</p> <p>In addition, Peterbilt's cabs do NOT have dog-houses which push the back end of the engine into the cab. Peterbilt's engine bay with no dog-house provides the best engine access for service in the industry.</p> <p>Peterbilt's 2-piece windshield offering provides for the lowest cost AND shortest downtime when replacing broken windshields. Approximately \$75 & 30 minutes vs approximately \$400 & 3-4 hours vs 1-piece windshields.</p> <p>Peterbilt offers individually replaceable gauges that allow for fast & inexpensive gauge replacement. Approximately 10 minutes & \$50 to replace a gauge in the gauge "cluster" vs ALL other OEMs needing the entire cluster replaced if 1 gauge goes out - approximately \$1,200 & 1-2 hours.</p> <p>Peterbilt's cabin air filter is located out of the elements and easy to access near the passenger footwell. Other OEMs have external cabin air filters that require the windshield cowl to be removed and are exposed to the elements.</p> <p>Peterbilt uses weatherpack connectors with o-ring seals on wiring connection points to keep the elements out and provide secure connections. All wires clearly numbered (every 4 inches) and include aluminum tags to help identify them for easier service.</p> <p>Air lines are color-coded for simple tracing.</p> <p>Published Labor Times for Common Maintenance and Repair Items Show that a Peterbilt can Save up to 20% on Labor Costs</p> <p>Peterbilt conventional Medium-Duty trucks and 365/367/389 use a 3/8" piano hinge for door mounting. Other OEMs use light-duty-automotive style hinges (2). Piano hinge maintains door alignment over the life of the truck vs door alignment required for other OEMs. Improper door alignment wears the rubber-seal/weatherstripping and can even wear metal, causing element & wind noise intrusion as well as corrosion.</p> <p>Peterbilt trucks come standard with on-board-diagnostics, visible to the driver via the "Driver Information Display". The on-board diagnostics will alert the driver of a fault code and provide the fault code number and a brief description. If the fault requires service soon or immediately the display will provide the driver with the level of the fault and the time (in hours) to de-rate and if severe, the time in hours to (shut-down). If, for example, a fault has a time in hours to de-rate of 5-hours and the operator has only 2 hours left in their route, they can finish their route and return to their shop or take to the dealer at the end of their route. Without on-board-diagnostics and just a simple dash light, operators would often times cut their route off as soon as the light illuminated.</p> <p>Peterbilt also offers Remote-diagnostics via our SmartLinq system. SmartLinq (free for the first 2 years on all Class 8 Peterbilt Models) provides the same information noted above (on-board-diagnostics) but additionally through a desktop and/or mobile app format. The SmartLinq web portal can be set up for management by one or several fleet personnel and provides a dashboard that will display a map of all SmartLinq-enabled trucks the fleet operates. The vehicles move on the map in real time and will display color-coded symbols to denote their current operating status (i.e. green-normal, yellow-service soon, red-service now, etc.). Each truck can be clicked on for more detailed information. Email notifications can be set up to alert the fleet SmartLinq administrator(s) when a truck experiences a fault code and can be tailored to only alert when faults are mission disabling, etc. More information can be found at https://www.peterbilt.com/innovation/technology/smartLINQ</p> <p>Peterbilt dealers offer "RapidCheck" service. Peterbilt launched the Rapid Check service program to provide diagnostics and an estimate of repairs in two hours or less.</p> <p>The program is available throughout the more than 405 locations in the Peterbilt dealer network.</p> <p>Within two hours, Rapid Check provides basic vehicle diagnostics, with more complex diagnostics if necessary. The information is evaluated and repairs are provided along with an estimated time needed to complete the work - again; all within 2 hours.</p> <p>The service is being offered to maximize customer uptime. The service is available for ANY truck make or model, not just Peterbilt.</p>

**Solicitation Number: RFP #110421****CONTRACT**

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Elliott Equipment Company, 3514 South 25th Street, Omaha, NE 68105 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Public Utility Equipment with Related Accessories and Supplies from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires December 27, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.
- C. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. -----------	----------	------------

<p>9</p>	<p>Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.</p>	<p>Elliott Equipment Company was founded in 1948 by Richard Elliott. The company has been a leading supplier to users in the utility, governmental, sign and lighting, electrical contractor, mining, and related industries for over 70 years. Elliott products were instrumental in building our nation's electrical grid and interstate highway system and continue that tradition to this day.</p> <p>Elliott's mission is 'Creating the Best Solutions for Lifting and Positioning People and Materials'. This simple phrase says a great deal about Elliott, as follows:</p> <p>Creating – Creativity and innovation have been at the core of Elliott since its inception. Elliott was a pioneer in truck-mounted construction equipment. Over the years, Elliott has engineered products that have helped change the work practices of crews in multiple industries, improving safety and efficiency along the way.</p> <p>The Best Solutions – Elliott takes the time to listen closely to its customers, enabling them to design the best machine for their work. Equally importantly, it takes the time to build it to last. Elliott products have exceptionally long useful lives. This helps retain their value and ensure years of trouble-free ownership. In fact, Elliott is still selling repair parts for units built in the 1970's.</p> <p>For Lifting and Positioning People and Materials– All of Elliott's products are multi-functional, and can perform as an aerial work platform, crane and/or digger derrick. They can be further customized, allowing them to do additional tasks as well. This flexibility increases their utilization and maximizes a crew's productivity. The combination of innovation, solid construction and multi-functionality results in Elliott's ability to deliver a solution to optimize the users work as well as their budget.</p> <p>Elliott's values build upon this mission and reflect who they are and how they approach their business. They are as follows: Safety - It is essential in the workplace and the solutions they provide. Customer Satisfaction - Elliott is dedicated to exceeding their customer's expectations. Culture - They operate with integrity, in a dynamic environment based on trust, teamwork, mutual respect and fun. Sustainability - They are responsible to their team members, customers, and stakeholders, to position their business for long term growth and financial stability.</p> <p>As a family-owned company, Elliott's culture is unique and long-term oriented. Elliott is customer focused and prudently managed. They truly care about the people they serve. These values have led to an outstanding reputation and long-term growth over the years.</p> <p>Current ownership purchased Elliott Equipment Company in 1991. At the time of purchase, Elliott offered only two models, a 50 foot and an 80-foot HiReach aerial. Despite the narrow offering, Elliott had loyal customers in the governmental and utility markets.</p> <p>Ownership has dramatically expanded the product line that started with the base two models of HiReach product. The Company now offers a line of over 33 models of HiReach material handling aerial work platforms that range from 45 to 240 feet in working height with options for a variety of platform sizes, platform accessories, insulation, and material handling.</p> <p>Elliott entered the truck mounted crane industry in 2002, to provide users a supplier that was customer solution focused and willing to customize products for their unique applications. Elliott now offers 32 models ranging from 10 to 50 tons in capacity. Elliott cranes are found in diverse applications from power line construction, to road and rail maintenance to mining support.</p> <p>Elliott recently developed its first digger derricks, for use in transmission construction and storm repair. These machines feature long booms, large lifting capacity, and high torque. Like all Elliott machines, the digger derricks are multi-functional, and are capable of digging, lifting loads and positioning people.</p> <p>Product development and innovation are only one part of the company's growth. Ownership has invested significant amounts in plant, equipment, systems, and support to allow Elliott to produce its products consistently, efficiently and with the highest quality. In 2020, Elliott relocated its entire operation to a modern, 210,000 sq/ft production facility in Omaha, NE. The facility is designed to optimize product flow, allowing Elliott the ability to significantly increase its manufacturing capacity and efficiency.</p> <p>When owners purchased the company, Elliott had a total of two factory salesmen, who represented the company directly to the end-users. Elliott now has a sales, service and rental network throughout the U.S. and Canada. Elliott has recently begun establishing a specialized network of distributors to focus specifically on governmental users. These dealers typically sell products like street sweepers, vacuum trucks, and the like. Elliott's products are highly complementary to these lines. By establishing this network Elliott will gain significant exposure to these markets and should allow accelerated growth in the years to come.</p> <p>Elliott will soon celebrate its 75th anniversary. Not only is Elliott one of the very few firms to survive to this milestone, because of its customer and employee focused mission and values, the Company is growing and thriving with its best years still to come.</p>
<p>10</p>	<p>What are your company's expectations in the event of an award?</p>	<p>Elliott is excited about the possibility of another awarded Sourcewell Contract. They have an expectation that a contract awarded will allow your Members to have continued access to innovative, exceptionally built, customizable, multi-function product solutions to their public works, material handling and utility needs.</p> <p>An award will also allow Elliott to participate in reinforcing their goals of superior sales and service support by offering a tool for their distributors to utilize in expanding their market reach. Elliott feels very strongly about their participation in this contract and has actively pursued and signed distributors that are "government houses" that specialize in sales to municipal customers in the last 18 months. These specialized dealers have been actively promoting Elliott's equipment and current Sourcewell Contract extensively throughout the US and Canada.</p> <p>Elliott has experienced a growth in municipal sales due to the Sourcewell Contract and firmly expects that trend to continue.</p>

Are these individuals your employees, or the employees of a third party?	b) Elliott Equipment is a manufacturer, located in Omaha Nebraska, which works directly through a North American distribution network. The distributors in North America are individually owned companies. These distributors are assigned a geographic territory for exclusive product representation. Each distributor has sales, service and parts responsibilities within their geographic territory . Elliott also employs "in house" sales, service and parts personnel that support their distributors.	*
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	See attached Nebraska Motor Vehicle Dealer License. Elliott HiReach aerial work-platforms are designed and built in accordance with ANSI A92.2 standards. Elliott BoomTruck cranes are designed and built in accordance with ASME B30.5 Standards. Elliott Boom Trucks with personnel handling are designed and built in accordance with ASME B30.23 Standards. Elliott Digger Derricks are designed and built in accordance with ANSI A10.31 Standards. Elliott cranes meet OSHA Standard 1926-1400.	*

35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>Elliott believes it is imperative to the success of their anticipated Sourcwell Contract award that the Executive Staff embraces the culture of contract sales. With the support/directive from Elliott Management and a "Go-To-Market" strategy developed, Elliott will continue to educate their sales, service, and distributor network about the award and what it will mean in maximizing municipal sales avenues. Both DuCo LLC (our Contract Administrator) and Sourcwell Supplier Development personnel will help with this process, make sure goals are met, and contract requirements are maintained. Elliott will hold national sales meetings to promote any new award to their internal staff, and distributors. The education of the distributor's sales teams will be accomplished by both one on one meetings and by group sales meetings. Elliott's response to this solicitation has been designed with success in mind; they believe that both the distributor and Sourcwell Member must be accepting of their Pricing for realization of their goals.</p> <p>Elliott will utilize Sourcwell's promotional flags at industry trade shows, Sourcwell Logo's on municipal market specific literature, ads, and web site. See attached examples</p>
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Elliott maintains a presence on social media outlets, including LinkedIn, Facebook, Twitter and Instagram. Their goal in doing so is to maintain and grow their user interaction with the Elliott brand by sharing Company and product news, success stories and other industry items of interest. Elliott continues to grow in followers each week.</p> <p>In addition to those items, Elliott has a monthly e-newsletter that it sends to customers and prospects. They also utilize Google Adwords to drive additional traffic to their website.</p>
37	In your view, what is Sourcwell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcwell-awarded contract into your sales process?	<p>Sourcwell has an exceptional reputation and based on their steady increase of sales, knows how to promote their contracts. Elliott believes that Sourcwell's marketing model works. The basis for longevity is service related and from what Elliott's municipal customers are saying, Sourcwell is aware of this concept. Elliott Expects the same existence at trade shows, Getting to Know You and Sourcwell University events will be continued as can be in the new COVID environment.</p> <p>Sourcwell Vendor paraphernalia available to contract holders is also helpful for trade shows and the new Vendor Supplier section of the Website has been and will be utilized.</p>
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Elliott's products do not lend themselves to e-procurement ordering; there is no option for it.

39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcwell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	In conjunction with their dealers, Elliott offers a variety of services, including, but not limited to, operator and mechanic training, crane operator certification, periodic inspections and more. Dealer provided operator training is standard. Sourcwell members can work with their dealer or Elliott to design a custom training curriculum. In depth training like this typically costs \$1,800 per day, plus travel.
40	Describe any technological advances that your proposed products or services offer.	During the past three years, Elliott has been on a campaign to update their control systems from direct wiring to a CANbus network. This improves reliability and service times. In addition, their controls have Bluetooth capability, which allows the user to contact the dealer or factory for trouble shooting. The Bluetooth package gives additional operating information and adaptability for the user. This technology is on all of Elliott cranes with cabs, and is making its way through to the HiReach line starting with the V60 and L65 models.

<p>41</p>	<p>Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.</p>	<p>Elliott's Green Product Attributes Designed a special manifold to reduce number of hydraulic fittings and leak points. Remote engine start/stop to allow engine shut down to minimize fuel usage and emissions. ANSI A92.2 compliance for aerial work platforms (HiReach, SkyWalk, ELine). ANSI A10.31 compliance for digger derricks. ASME B30.5 compliance for boom trucks/cranes. All products are designed to optimize strength and weight. This allows products to be mounted on lighter chassis to consume less fuel. Products are designed and built to minimize weight while maximizing product life. Lower weight products also minimize impact on roads, prolonging road life. Products are designed to minimize operator fatigue and for safe operator use. Ingress/egress, operator controls, sight-lines and set up/tear down are all factored into design. Safe and Healthy Buildings Eye and ear protection required, hearing testing required, buildings monitored for noise level and air quality. Lean environment where materials and tools are minimized and in their place. New, state of the art ventilation and air filtration for paint, prep and burning operations. Safety scrap and waste are key performance indicators that are measured and worked for continuous improvement. Safety committee, safety meetings, safety recognition. Worker's compensation experience mod of .78, far better than industry average. All lighting in buildings has been retrofit with LED fixtures and motion sensors for better light and lower energy consumption. Waste is properly marked and disposed of. Paper is recycled. Laser or plasma cut steel is computer nested to minimize waste. Steel scrap is recycled. Elliott reclaims cleaning solvents used in paint preparation. On line registration, manuals and parts ordering significantly reduce paper use. Elliott is Efficient in Use of Materials Well-designed structures not only give the machine a longer useful life (reflected in its lifetime structural warranty), but also lengthen chassis life, by minimizing chassis frame twist and maximizing the structure of the chassis. The longer lived products reduce the need for rapid replacement. Multi-functionality allows more work to be done with a single machine which reduces machine count. Minimized piece count of machine to reduce opportunities for rework and scrap. Products are designed to minimize weight / material. Designed to reduce downtime, so fewer hydraulic fittings, fewer electrical connections, designed to maximize user safety and productivity. Rework and scrap are tracked for continuous improvement. Vendors are evaluated for quality and defects to reduce their scrap and rework. Training on floor ensures proper work is done, reducing scrap and rework. Only certified welders are used, to minimize material waste. Units are designed for exceptionally long useful life, and given lifetime structural warranty – this minimizes the need for regular replacement which saves trucks and other resources. Elliott moved to a new energy efficient building in April 2020. The building has excellent natural lighting and LED lights throughout with motion sensors. Green also includes safety and Elliott is consistently recognized by the National Safety Council as one of the safest companies in Nebraska.</p>
<p>42</p>	<p>Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.</p>	<p>Elliott does not have any third party certifications. It is important to note however, that during their current contract term, they have moved locations to a far more energy efficient building with state of the art air handling, energy efficient lighting, excellent material flow and new electrical systems. In addition, one of the primary considerations in their product designs is weight. They recently redesigned their most popular model and reduced its weight by over 20%. This contributes to increased fuel economy and lower ownership costs for Elliott users.</p>
<p>43</p>	<p>Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.</p>	<p>A number of Elliott's local distributors are SBE, MBE, WMBE or Veteran owned businesses. The actual participation of each will be dictated by the customer's delivery area. The actual percentage of SBE, MBE, WMBE or Veteran owned business information can be provided to the customer upon request prior to the order being placed. Elliott is also utilizing a Small Woman Owned Business, DuCo, LLC, to administer the proposed Sourcewell Contract.</p>

44	<p>What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?</p>	<p>Only Elliott HiReach aeriels have the platform size and accessories of self-propelled aerial combined with platform material handling and main boom lifting capabilities. This allows crews to use one machine to do the work of two, increasing utilization and reducing equipment costs.</p> <p>All Elliott aeriels are telescopic. Their 'point and shoot' design allows greater side reach to minimize lane closures and eliminates tail swing, protecting workers from accidentally moving a portion of the boom into traffic. Like a Swiss Army Knife, HiReach aeriels let workers do more jobs with a single piece of equipment.</p> <p>Elliott cranes are unique in that they can mount on lighter chassis, which differentiates them in water and sewer related activities. Only Elliott cranes have the capability to power hydraulic tools like clam buckets or grapples at the boom tip, eliminating the need to drag a hydraulic line on the ground. Elliott cranes can be equipped with remote control work platforms or post hole augers for even more savings to Sourcewell members.</p> <p>Elliott's digger derricks have taller tip heights, greater lifting capacity, and higher digging torque than any other machines on the market. They also can mount on a tandem axle chassis, with no permits required.</p> <p>Currently Elliott has several design initiatives in progress which will benefit Sourcewell members. One of these is reducing the weight of the Company's aerial work platforms, so they use less material and can fit on smaller trucks (or offer more carrying capacity on larger trucks) minimizing the need for a CDL and maximizing fuel economy.</p> <p>Examples of this include their new L65, which replaces one of their most popular units, the L60, and offers more reach, better lifting and weighs 3,000 lbs. less. The new M87, 87-foot aerial fits on a non-CDL chassis and offers more reach and lifting capacity on this class of chassis than anyone in the world. Elliott's new digger derricks also can mount on tandem axle chassis with no pusher or tag axle needed.</p> <p>Elliott is also transitioning to a next generation control system for its products, that allows for operators to individualize the performance of their machines and perform diagnostic system checks using Bluetooth technology.</p> <p>A third initiative is to allow users to maximize the utilization of their investment. As an example, Elliott's new E150 transmission machine is the industry's first machine to feature interchangeable booms and platforms, material handling and over-center boom operation. This single machine can do the work of five, literally cutting the cost of operation by over 50%, while simultaneously improving machine utilization and worker efficiency.</p>

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
45	Do your warranties cover all products, parts, and labor?	<p>Elliott's warranties cover parts and labor for one year (two years for cranes). Elliott is the only company in the industry to offer a lifetime structural warranty on all of their products.</p> <p>Customers can purchase extended parts and labor warranties if desired.</p>
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No usage restrictions are imposed on the warranty. The only limitations apply if equipment has been misused, modified, not maintained, operator error or third party (non-Elliott) replacement parts have been used.
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Elliott's warranty covers technician travel time and mileage. This work is typically performed by the distributor closest to the user.
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Elliott does not expect any region not to be covered by their distributors. Elliott has distributors and service providers coast to coast. Most of these have physical shops as well as the ability to provide field service and warranty repair.
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Elliott's warranty covers all Elliott supplied items. Chassis are covered under their respective manufacturer's warranties. In cases of other significant third party parts that are added to the machine (like a welder/generator or rail gear), or provided by the user, the warranty would be a pass through from their respective manufacturer.
50	What are your proposed exchange and return programs and policies?	Elliott manufactures specialized equipment, built to suit, and does not offer exchanges or returns.
51	Describe any service contract options for the items included in your proposal.	<p>The purchasing Member can contact the local distributor for any service contracts. This is not something that can be purchased at the factory level.</p> <p>Customers can choose to purchase extended warranties of up to five years for their unit and/or truck chassis at the time of new unit purchase.</p>

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
52	Describe your payment terms and accepted payment methods?	Payment terms are net 30 days unless otherwise arranged prior to purchase on a case-by-case basis. Payments or units can be made by check, wire transfer or Automated Clearing House transfer (ACH).
53	Describe any leasing or financing options available for use by educational or governmental entities.	Elliott will offer municipal and non-profit leasing through third party vendors if there is Member interest. Elliott does not quote rates or terms for leasing, however it should be known to Members that we have this service available to them. Elliott will work with other Sourcewell Awarded Vendors (NCL) or any leasing agency of the Member's choice.
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	See the attached Sourcewell Distributor Worksheet commonly used with the current Sourcewell Contract. This form will be used with any future award for information to the Distributor and recognition as a Sourcewell Sale.
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	P-card procurement is not accepted.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	It is Elliott's intent to offer a percentage discount from the manufacturer list price to the Sourcewell Members on all of the items being proposed in this offer. Elliott's discount will be based on a percentage off of the base model and price listed options.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Elliott is offering a discount of 7% on HiReach and Digger Derricks and a 6% discount on Boom Truck Cranes. This discount will be for the Elliott Base Unit and Elliott Price Listed options. Chassis will not be discounted.
58	Describe any quantity or volume discounts or rebate programs that you offer.	Elliott will offer additional discounts for volume purchases. There will be an additional 2% discount off the base unit discounted price for a single Purchase Order for 4 or more units. At this time, Elliott does not offer any rebate programs.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	It is Elliott's intention to cover all items available on their commercial price lists. Elliott does realize, from time to time, there may be individual requirements that will not be listed. Elliott will provide any items "specific" to Sourcewell Members needs that they are able to. The pricing for such items will be cost plus 20%. Prior to accepting an order with Open Market items from a Sourcewell Member, Elliott will discuss the availability of a specific request and price the item. Any documentation of cost that Elliott can provide for these items will be presented on an individual basis when requested. In cases where there is additional engineering and integration required, Elliott will provide this cost information to the customer at the time of their quote.

60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	<p>There are several costs not included in the pricing submitted in this proposal. These costs are listed below:</p> <p>Freight and Delivery: Freight costs will be pre-paid and added to the Members Quote and Invoice. Small items will be, in most cases, delivered by UPS. Other freight carriers may be utilized in shipments, i.e. Federal Express, DHL drive-away service, and common carrier. The actual cost of shipment will be passed through to the customer. Elliott will not mark up this item for profit. Minimal handling fees may be added where special packaging is required. The Member will be notified of these charges if applicable prior to order placement.</p> <p>Federal Excise Tax: Elliott is required by law to collect Federal Excise Tax on any truck mounted unit rated above 33,000 GVW. This tax will be added to the customer invoice as a separate line item. Elliott will pay this tax directly to the Internal Revenue Service. The rate of tax is calculated at 12%. Most municipal and non-profit entities are exempt from this tax. If Elliott is provided a Federal Excise Tax Exemption Certificate, they will not be required to collect this tax.</p> <p>Mounting Fee: This fee is charged to the customer when ordering a truck mounted unit. Mounting fees cover the cost of the mounting of the body on the desired truck chassis.</p> <p>Federally Mandated Items: The cost of any federally mandated items will be passed on to the Member. Elliott pricing includes any federally mandated items that are mandated at the time of this proposal. Should there be a Federal Mandate after the date of this proposal, any cost incurred to meet the requirements of this mandate will be passed on to the member. Any costs applicable will be provided to the Member prior to any Purchase Order being issued. This fee would typically be charged to meet any future EPA standards that may arise. An example of such costs would be in meeting Federal Emission Standards.</p> <p>Local Dealer Pre-Delivery Inspection, On Site Training, and Local Delivery Fees: These costs are charged by local dealers to inspect, test, in service the unit, local extended delivery and follow up training. These costs are a pass through cost to the member from the local dealer.</p>
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>All freight charges are pre-paid and added to the Member quotation for convenience. Members always have the choice of picking up the units at the factory or retaining a 3rd party of their choice to deliver the equipment. The freight charges are at a pass-through price. Elliott has negotiated quantity-discounted shipping rates and will pass those discounts on to the Members.</p> <p>Most offered items are custom built to customer specification. Anticipated delivery of items ordered on a stock chassis or customer supplied chassis is expected to be 45-90 days after receipt of order or customer chassis. Anticipated delivery of an item ordered on a "special order" chassis is expected to be 120-180 days after receipt of order; however, this time can vary greatly depending upon chassis manufacturer back log.</p> <p>Delivery of truck mounted units will be pre-paid and added to Member Quotation and Invoice. Both "Drive-A-Way" service and common carrier service will be used.</p>
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>The shipping and delivery charges for Canada, Alaska and Hawaii and any other off shore location are the same as the previously stated delivery programs for the contiguous US. The shipping charges to the port location will be calculated in the same manner.</p> <p>If the customer wishes that Elliott deliver via ocean transport, Elliott will pass on the negotiated shipping rates that they will pay to the ocean transport carrier to the Member. It has been their experience that the customers in these locations usually have their own negotiated rates with shipping carriers. If this is the case, Elliott will provide the customer shipping to their desired port and provide the customer with the appropriate documentation required. Elliott strives to provide the equipment as customer specified and to their satisfaction upon delivery.</p>
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>As stated above, Elliott passes on negotiated bid freight pricing to their customers.</p> <p>Most of the Elliott distributors have units in stock and Member's can purchase those units to enhance delivery times and in some cases better prices.</p>

Table 12: Pricing Offered

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Elliott closely monitors their distributor's Sourcewell opportunities and sales. Typically, Elliott's distributors request pricing from Elliott for each machine they are selling. This is because Elliott's products are all customizable, and governmental customers tailor their equipment to best fit their applications. As an additional tracking mechanism, Elliott reviews their warranty registrations and contacts all of their customers when they register a unit, this is done for customer satisfaction, distributor satisfaction and when municipal customers are involved, to verify what vehicle they used to purchase their unit.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Elliott establishes annual objectives with their distributors and reviews their progress throughout the year. Items they specifically track include sales calls, quotations, quotations converted to orders, and total sales under the Sourcewell contract. Elliott then discusses the dealer's progress on these and develops an ongoing plan to improve their performance.
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Elliott proposes an administrative fee of 1%. The fee will be calculated on the Member price.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>HiReach – HiReach Truck-Mounted Material Handling Aerial Work Platforms</p> <p>Elliott HiReach material handling aerial work platforms feature a heavy duty, telescopic boom design, with easy 'point and shoot' operation. Material handling is available for all HiReach products, commonly both on the main boom and in work platform. This allows the machines to multi-function, increasing their versatility and lowering operating costs by eliminating the need for two separate units and chassis.</p> <p>Elliott's HiReach product line offers working heights from 48-240 feet. They offer 19 models within this range, all of which can be customized to optimize them for the user's application. This wide variety of models allows users to reach further and gives flexibility in choosing the optimal height for their application.</p> <p>The telescopic nature of Elliott's machines eliminates tail-swing inherent in an articulated boom. This simplifies operation and eliminates the risk of inadvertently swinging the 'knuckle' of the boom into traffic. The telescopic design also maximizes side reach, allowing users to reach further in a single set up.</p> <p>The HiReach work platform is unique in that it has an open rail design and is typically sized at 40"x60" or larger (up to 16 feet long). The standard 40"x60" platform allows for more than double the work surface of a typical 24"x48" two-worker fiberglass bucket. In addition, the open rail of the HiReach platform allows for far greater range of access for workers than enclosed bucket. Also offered, enclosed fiberglass buckets upon request; however users almost always opt for the platform design.</p> <p>Only Elliott offers "Office in the Sky" platform accessories include 110V, hydraulic tools, air tools, pressure washer, welder, oxy/acetylene, material handling forks and material handling jib winch. This is the largest range of platform tools of any truck mounted aerial device and allows users to maximize the types of work they do while in the air.</p> <p>Elliott HiReach units can also handle materials from both the main boom and the work platform. Typically the units offer 5,900 lbs. capacity from the main boom and 500 lbs. from the platform. Insulated units offer 3,650 lbs. material handling and longer units offer up to 15,000 lbs. material handling. This adds additional functionality and allows one machine to do the work of two or more.</p> <p>Users can also add an optional post hole digger to three and four section units (50-90 feet models), to provide a third major application to their machine.</p> <p>Elliott will further customize their units for fit a unique application. For example, they offer special outriggers that allow users to clear guardrails and get extra vertical penetration for the shoulder. Special bodies, lighting, tool circuits, recovery winches and other equipment are also available.</p> <p>All Elliott HiReach units are certified to ANSI A92.2 in personnel, material handling, and digging modes. This ensures outstanding stability and structural integrity.</p> <p>Elliott HiReach units feature a full-length sub-frame and oversize turret and bearing. This allows Elliott to back them with a lifetime structural warranty.</p> <p>Finally, Elliott works with all chassis manufacturers and can either supply a chassis or the user can supply their own if desired.</p> <p>Digger Derricks Elliott has a growing line of digger derricks. Currently there are three models, with 86-, 105- and 115-foot tip heights, respectively. Elliott digger derricks are designed for use in the most demanding applications - transmission line construction and storm work. They feature the longest boom lengths, highest digging torque, wide digging radius, class leading material handling capacity at digging radius, full hydraulic controls and can mount on standard tandem axle chassis. Elliott is in the process of expanding their digger derrick product line, and plan to add multiple new models in the coming three years.</p> <p>Elliott Digger Derricks are backed by a one-year parts and labor warranty and lifetime structural warranty which is the best in the industry.</p> <p>Boom Truck - Boom Truck Mounted Telescopic Cranes In addition to their HiReach aeriels and digger derricks, Elliott offers 14 models of truck mounted telescoping cranes 'BoomTrucks' that range from 10-50 tons of lifting capacity, boom lengths from 39 to 142 feet, and tip heights up to 207 feet. All of Elliott's BoomTrucks feature a telescopic design for simple 'point and shoot' operation.</p> <p>Elliott offers the widest selection of telescopic truck mounted cranes between 10-18 tons in the industry. These models are tailored for typical Sourcewell member applications, as they are compact, easy to operate and customizable. Users can add several options including hydraulic powered grapples, radio remote controlled work platforms, post hole diggers, lights, bodies and much more.</p> <p>Like all Elliott products, their BoomTrucks use the latest technology from industry leading suppliers to ensure smooth and trouble-free operation. All Elliott Boom Trucks comply with ASME B30.5 and ASME B30.23 for mobile and locomotive cranes.</p> <p>Elliott Boom Trucks are backed by a two-year parts and labor warranty and lifetime structural warranty which is the best in the industry.</p>

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and 72 Hour LLC dba: National Auto Fleet Group, 490 Auto Center Drive, Watsonville, CA 95076 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Automobiles, SUVs, Vans, and Light Trucks with Related Equipment and Accessories from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires November 8, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.
- C. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcwell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcwell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcwell, the Supplier will pay an administrative fee to Sourcwell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

No other understanding regarding this Contract, whether written or oral, may be used to bind either party. 31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	<p>We are willing and eager to soon extend our business model and network into Canada. We believe partnering with local Canadian based dealer groups is key to success in the Canadian market. NAFG's competitive pricing as well as a simple US Dollar to Canadian conversation will help NAFG expand into the Canadian market for participating Sourcewell members.</p>	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	<p>National Auto Fleet Group will handle servicing 100% of all geographic areas located in the United States. Although it is unclear what unseen obstacles we may face in Canada, NAFG is committed to building the same model to service Canada and providing the same level of customer satisfaction, service, and care as in the United States.</p>	*

33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	NAFG will continue to service all Sourcewell Members through our 24 hour a day, 7 days a week online portal with the exclusion of Non-Profits. Unfortunately, Non-Profits are often not eligible for the same discount's government entities are qualified for. However, Non-Profits are subject to a different pricing program and will be evaluated on a case to case basis.
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	The only possible logistical constraints we may face is the shipping constraints for shipments arriving in Alaska, Hawaii and US Territories. For example, we often provide members in Alaska or Hawaii with vehicles that often have upfits. To circumvent this potential issue, members allow us to add these extra shipping and port costs to their quotes.

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>National Auto Fleet Group encompasses a variety of marketing strategies to promote our products and services to streamline the vehicle purchasing process for government entities. Below are a few strategies used to serve as the gateway between our business and public agencies.</p> <p>Website and Inbound Marketing: The creation of a professional customer-focused website is one of our main features to market our products and services. The NAFG website encourages our members to interact and browse through products offered along with pricing and information about National Auto Fleet Group. Inbound marketing is created when potential members are directed to the company website. With this method, we are able to not only connect with members but to put the purchasing ability into the hands of each member. Our inbound marketing strategy attracts members by creating valuable content and experiences tailored to the needs of each individual. Examples include email campaign flyers on our products, informative and how-to videos, social media and engaging members with top-notch customer service to build brand awareness.</p> <p>Email Marketing: One of the main strategies used to engage current and potential members is Email Marketing. Our emails include different types of flyers that consist of information of the Sourcewell contract, promoting manufacturer brands, holiday themed flyers, discounts offered to first time buyers, important cutoff date reminders and upcoming products and events.</p> <p>The use of marketing campaigns plays a major role in enhancing the growth of our client database. Emails are a big part of our daily lives due to government agency employees utilizing emails as their main source of communication. We use campaigner.com as the emailing platform to reach our target members. Videos and descriptive images are used on all flyers and are compatible with a desktop or mobile device. Messages are short and to the point with links leading to the Sourcewell and NAFG homepage. The Campaigner email system allows the ability to track email activity based on open rate, unsubscribes and link clicks which is beneficial to understanding email effectiveness.</p> <p>Once potential members are directed to our website, they are welcomed with a wide range of options to explore an array of our products and services. They are able to register to become a member, view pricing, explore available in-stock vehicles, view how-to-videos, build a vehicle online to request an immediate quote or use our live chat assistant or call/email for live support.</p> <p>Face to Face Marketing Strategies: This strategy has proven to be successful in generating leads and creating lasting relationships by developing genuine connections with prospective members. National Auto Fleet Group attends several trades shows per year to engage members and put a face to the company. This in person meeting aids to build the brand by nurturing relationships between members and other vendors associated through the process. Trade shows attended include GFX, IAPPO, NIGP, ACT, CAPPO, and CASBO throughout the United States.</p> <p>NAFG has many opportunities to make in person presentations to propose products, services offered and to answer any questions potential members may have. These PowerPoint Presentations include topics on NAFG/Sourcewell process, how to facilitate the vehicle purchasing without bidding, informational videos, and the brands and services we provide. These meetings have been held at local cities, counties, school districts, water districts and ports.</p> <p>Relationship Marketing is a vital strategy used in building and maintaining long-term relationships practiced by National Auto Fleet Group on a daily basis.</p> <p>NAFG strives to create a positive and supportive connection with members by providing personalized and responsive customer service practices. The sales team has worked tirelessly to focus on providing outstanding customer support to create a powerful rapport with existing and new members. By going above and beyond, they have enhanced existing relationships and executed customer loyalty with repeat businesses. They strive to deviate from the "Car Salesperson" mentality which is 100% sales driven to a more product and customer service approach by instilling a sense of confidence in our clients. The goal is to regularly assist clients and address any needs and concerns even after the purchase has occurred. The strive to focus on solution selling vs. product selling develops into a mutually beneficial agreement for members and the business.</p> <p>Below are a few examples on successful relationship marketing from our Fleet Department: We had a member call in to request financing/lease options for a truck needed through our National Auto Fleet Group/Sourcewell vehicle contract. I contacted another Sourcewell vendor, Matt Geiselhart from NCL Gov Capital and he was happy to assist with a financing quote. The member also requested to trade in a current vehicle in their fleet and was directed to Govdeals for assistance in removing the outdated unit through an auction. The member was able to utilize three Sourcewell contracts to complete his transaction which simplified the entire process. The member was very satisfied with the amount of care and ease through his experience and became a repeat customer. By utilizing a cross-selling strategy, National Auto Fleet Group became his one stop shop to fulfill all fleet vehicle purchasing needs.</p> <p>"I had a member call in desperate to obtain a new truck because an employee had gotten into a serious accident and had the truck totaled. Due to covid restrictions, most manufacturers are currently experiencing microchip shortages which relays to production delays at the factory. We were able to direct buyer to our in-stock inventory on the NAFG website and member was ecstatic to locate truck to meet their needs. Instead of having to wait 30 weeks to receive the new vehicle, member was able to obtain the new truck within 3 weeks."</p>

"I once had a member contact us two years after purchasing a vehicle from us. They had a malfunction with the liftgate on the box truck which caused a logistical nightmare. I was able to contact one of our body vendors that upfitted the lift gate installation and a service technician was able to go onsite to resolve the liftgate issue at no additional cost. The member was very impressed with the quality of our customer service even after purchase. "

"I had a member request a ¾ ton truck pricing but was unsure about their budget at the time. I took the time to go through each option with the client to provide a Sourcewell pricing quote through multiple manufacturers from Ram, Chevrolet and Ford. This empowered the member to have multiple pricing options for review to align with their budget as well as eliminating the need to shop anywhere else. "

"We work with many body companies to assist customers with the body upfitting process. One of our members called in a request to expedite a particular vehicle that was held up at one of their local body upfitters. I contacted the body company representative and put in a request to expedite the upfitting per request of the member. The body company was able to comply with the request and delivery was made sooner than expected."

Word-of-Mouth Marketing: The positive quality of service has led to more sales based on previous customers' impressions on their experience. NAFG's goal is to provide exemplary customer service throughout the entire purchasing process to encourage repeat business and advocate services to other members. NAFG has been fortunate to experience multiple instances of leads generated based solely on word-of-mouth marketing through our existing customers.

Cross-promotion: National Auto Fleet Group is currently collaborating with another Sourcewell Vendor, NCL Government Capital to promote each other's products and services. NCL Government Capital specializes in providing competitive equipment financing programs for municipalities and public education entities across the United States. As a team, NCL and NAFG produced a variety of marketing materials such as videos, flyers and info graphs to promote purchasing and leasing opportunities.

Hoglund Bus Company is another cross-promotion vendor NAFG had the opportunity to create a partnership with. Flyers were created to advertise Chassis from NAFG along with a variety of bus bodies from Hoglund Bus Company.

With cross-promotion, companies exchange knowledge and provide endorsements on websites, social media, and email campaigns. This strategy creates an influx of new leads, brand awareness, increased sales and recurrence of customers. National Auto Fleet Group will continue to create new partnerships and facilitate more cross-promotion opportunities in the near future to provide turnkey solutions for a variety of vehicle purchasing needs.

Coming in 2022, National Auto Fleet Group will be launching a NAFG Partner Website to further increase business growth. The website www.nafgpartner.com is expected to launch next year in 2022. The site encourages body upfitting companies throughout the United States to partner up with NAFG to become a preferred member. The benefits of becoming a preferred member include endorsements on website and social media avenues along with word-of-mouth referral for clients with upfitting needs. Our dedicated public relations representative will conduct phone and in person meetings to discuss the advantages of partnering up with NAFG, therefore generating more cross-promotion opportunities.

Members from government agencies are encouraged to go on the site to search for local body upfitting companies they are interested in working with. As a prerequisite in becoming a preferred vendor, they are required to advertise NAFG and the Sourcewell contract on their business website and refer their clients to purchase their cab/chassis needs through NAFG. This establishes a partnership that will generate increased sales all around. We are still currently building the website and interacting with body companies across the United States that would be interested in partnering up with NAFG.

36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Social media plays a crucial element in the way people communicate and connect with each other. LinkedIn is the go-to platform used by NAFG as it offers a variety of ways to expand our network by locating and connecting with relevant professionals in the industry. National Auto Fleet Group has utilized LinkedIn to engage current and potential members through personalized messages and posts. Personalized messages include thanking them for registering on site as well as directing them to our link to the website, LinkedIn, YouTube, Facebook and Instagram company pages. The goal is to unite with people already on our database as well as people that would benefit from our products and services. Current flyers or messages about our company are also posted on the LinkedIn site to generate and attract more business. Time is also spent on reading posts from connections and observe any needs that National Auto Fleet Group may assist with.</p> <p>National Auto Fleet Group has begun utilizing video marketing strategies to further promote and market products by engaging on social media channels and email flyers. Programs such as Vimeo, Video Scribe, Cartoon Animator, Adobe Animate, Illustrate, Captive, Photoshop and Movavi Video Editor Plus are employed to edit and create videos to assist in endorsing our company. The following videos were recently created by our marketing department along with outside video production companies:</p> <p>Explainer Video: The first video created was a 90 second explainer video about National Auto Fleet Group that used animated characters to visualize our products and services along with information on the Sourcewell awarded contract. The video has been incorporated into all our weekly email flyers and social media platforms as an informative video on our products and how to purchase vehicles off Sourcewell Government Contract.</p> <p>How To Videos: National Auto Fleet Group has also created step-by-step How-To videos on the process to purchase both Light Duty and Heavy-Duty vehicles off the contract.</p> <p>In Stock Vehicles: This video showcases our in-stock vehicles available and the process of requesting a quote.</p> <p>ETA Tracking System: This video was created to not only introduce but to encourage clients to self-track their vehicle status.</p> <p>Holiday Themed Videos: These amusing videos were created to celebrate the holidays and add humor and lightness to our company and products sold.</p> <p>Cross Promotion Video: This video markets our relationship with NCL Government Capital and Sourcewell to endorse EV vehicles.</p> <p>Videos for social media: Mini videos were created to advertise new vehicles available, pricing and cutoff date reminders.</p> <p>NAFG has recently introduced a newly built live chat feature on our website for customer convenience as well as improving customer service. Visitors have access to chat with a live sales representative 24 hours a day, 7 days a week. With this feature potential customers are provided with another avenue for assistance in addition to emailing and phone calls. The benefits of a live chat option include quicker response time to assist buyers in reaching a purchasing decision and answer their questions.</p> <p>Improving customer service will also lead to increased sales, customer loyalty and engagement. Many studies have shown a strong correlation between live chat and increase in conversion rates. Potential clients appreciate having their questions answered in real-time when trying to build a vehicle quote online and allowing the user to multi-task different projects.</p>
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Sourcewell's mission states: "Our commitment to service and exceeding client expectations." This statement integrates with our relationship marketing strategy with our commitment to go above and beyond for all our members. Sourcewell is a trusted brand that government entities can rely on to access a wide variety of products and services for their everyday needs. With over 40 years of partnerships and relationship building, they are the glue that connects government, education, and nonprofit agencies to companies of all sizes to offer turnkey solutions to their needs.</p> <p>Sourcewell is also a reliable resource for vendors by not only connecting with potential prospects but by providing valuable marketing materials readily available for download on their website. Resources and tools provided include flyers, vendor training videos along with compliance information.</p> <p>The Sourcewell brand integrates a thorough documentation review of all vendors prior to awarding their cooperative contracts to ensure products and services are from reputable vendors. The brand provides a sense of legitimacy of our company name and members recognize that products and services are from reliable sources that will meet their needs.</p> <p>Sourcewell's aim is to simplify the purchasing and procurement process of government entities by eliminating the costly bidding procedure. The process of researching the right vendor is not only stressful and time-consuming but can be expensive as well. Sourcewell has completed the bidding for government entities which simplifies the overall purchasing process by providing access to competitively bid contracts procured by a government agency.</p> <p>Sourcewell has provided NAFG with overwhelming opportunities to work with government agencies across the United States. The Sourcewell name represents a high standard of integrity and ethics which is a dynamic National Auto Fleet Group is proud to be part of. Sourcewell members have access to a contract that is more flexible than the standard bidding process. Sourcewell is an organization that aids government entities to stay competitive without the frustrations and issues involved with the traditional bidding process. This contract can be customized to meet the unique needs of each client. The sales team has incorporated not only this standard of integrity in their sales practice ensuring clients' purchasing needs will always be met. The cost savings and stress-free nature of the cooperative contracts favors that of the traditional bidding process. It enables vendors to work with qualifying government entities in a more efficient manner. We vow to maintain these levels of standards across the board throughout all departments within the company.</p>

38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Our website provides a hands-on empowering approach to ordering vehicles online. Clients can search through many vehicles makes and models with the ability to customize a vehicle tailored to their specific needs of their agency. A personalized quote with pricing can be available in as little as 5 minutes depending on the complexity of the vehicle. If upfitting is needed, the buyer can list the details of the up-fit while building their vehicle on our website to receive a complete quote or a sales representative can be reached through phone, email or our new live chat feature built on our website.</p> <p>We have recently created and uploaded a "How-To Videos" section on the homepage of our website which highlights a step-by-step process on how to build an online quote. This informative video demonstrates how to navigate the website in how to generate a vehicle quote with or without upfitting options. It begins by explaining how to register on our website as a member and then details on how to select vehicle model and type and the factory options needed.</p> <p>Once a customized quote is built, clients have the option to finalize the sales transaction by submitting a purchase order to our sales team via email. This gives complete autonomy to the client to purchase vehicles without the need to speak to a sales rep. If assistance is needed, they can contact sales through email, live chat or phone.</p> <p>If assistance is required to build a quote, our sales rep is also available to walk a client through the e-procurement process step by step. This ensures someone is available to answer any questions if needed and empowering the client to make any future purchases on their own. Clients may also call or email the needs of the company and receive a customized vehicle quote.</p>

59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	NAFG has an provided offerings from 15 Brands/OEMS and there respective percentage off vary and are detailed in the "Price File" zip Each Manufacture Range is detailed in the tabs below, here is an overview Chevrolet from -.077 to 24.45 % Ford Motor Company from -5.19 to 23.31 % GMC from 6.14 to 22.45 % Ram from 4.99 to 14.23 % Dodge from 3.09 to 9.96 % Jeep from 1.38 to 4.17 % Chrysler from 1.65 to 4.55 % Toyota from .03 to 8.98 % Honda from 1.34 to 4.9 % Nissan from -.085 to 14.61 % Buick from 2.36 to6.08 Kia from .69 to 8.39 % BMW from 3.8 to 4.77 % Cadillac from 4.22 to 6.77 % Volkswagen from 2.17 to 2.46 %
60	Describe any quantity or volume discounts or rebate programs that you offer.	If clients are considering an order of 150 or more units, we encourage members to contact us for any additional discounted quotes.
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	"Open Market" products or "Sourced Goods" will be considered and treated as regular upfits. However, they may be quoted up to a 10% mark up, if applicable.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All considerations have already been taken into account in its entirety. The Price Summary Page and Price Table contained in the price file includes all considered costs. Although if a member requested a specialized quote for a unique situation that requires special training, direction, or installation, the additional costs would be added as a part of the upfit and then included inside the member's quote.
63	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	All manufactures charge a standard "Factory Destination Charge". However, that is separate from the freight/destination cost that members may incur to ship a vehicle to and from an installer, if applicable. These subsequent locational movements may bare additional freight costs that will be outlined within the members quote for their review prior to purchase.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight, shipping, and delivery terms among these regions sometimes carry additional logistical charges for added ferry, port and driver costs from both to and from the mainland. These added costs will be disclosed on the quote for members to review and approve prior to purchase.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	National Auto Fleet Group already has a well-established Automobile Franchise Distribution Network that allows for swift and relatively seamless delivery to members and their end users.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Sourcewell participating members are able to obtain proper pricing directly from our website, where they are able to use our user-friendly design to build and price their vehicles. The NAFG is updated daily to reflect updated manufacturer MSRP information. Our system will provide members with an accurate quote 99.99% of the time. In addition, NAFG has a stream line and organized process that calculates administrative fees and allows NAFG to give a turnaround time of 15 – 30 days for quarterly reports.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	One of the internal metrics NAFG uses to track and measure success with the Sourcewell Contract is maintained through our website. Our website keeps a detailed log of quotes that members are generating. We oversee and keep track of how many quotes are being generated and which quotes are met with a purchase order. Every month we evaluate our sales indicators and closely monitor the volume and frequency of sales. One example is by evaluating which members are purchasing from our platform – new members or frequent members to ensure we are growing our member base. We use these metrics to measure our projected growth rate and work to exceed our expectations.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	NAFG will submit \$ 300 per vehicle purchased through NAFG and \$ 200 per vehicle purchased through our partner dealer Alan Jay Automotive. For the purpose of an admin fee there are no other partner dealer groups considered.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	NAFG has provided a "Model Roll Out" Charts in the "Price File" zip, but of the 15 manufacturers we represent, they have over 100 makes and models for members to choose from that range from Class 1-3 and supporting Class 4 Cab and Chassis trucks. NAFG's platforms can add any upfit of their choosing, ranging from toolboxes to Line Mechanic Bodies. Any and all upfits can be added to any one of our vehicles through one of our upfit partner suppliers or by an upfit supplier of the members choosing. NAFG and the supplier will work together to supply members with turnkey quotes.
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	National Auto Fleet Group lists the makes and models of all 15 manufacturers we represent under the ZIP File "All 15 Manufactures". These 15 OEMs make up over 100 combined makes, models, and engine combinations for members to select from along with several subtitle "Upfits" detailed for members in the price file.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest.
