# DEPARTMENT EXPENDITURE DETAILS

---

The following schedule lists total proposed appropriations by department, fund, and major expenditure category. The schedule excludes the allocation of General Fund internal service departments produced by the cost allocation plan to provide a more informative picture of the department's operating costs within each fund.

### EXPENDITURES BY DEPARTMENT AND FUND

	Actual FY 2021/22	Actual FY 2022/23	Adopted FY 2023/24	Proposed FY 2024/25	Proposed FY 2025/26
<b>01 - Mayor</b>					
<b>101 - General Fund</b>

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Electric</b>	
<b>470830E - Advanced Distribution Management System</b>	The Advanced Distribution Management System (ADMS) is a set of systems and technology solution used to optimize the capability, efficiency, reliability, and security of water and electric delivery systems. For electric delivery systems, ADMS features include voltage optimization (i.e., volt-var optimization and conservation voltage regulation/reduction), fault location, isolation, and restoration (FLISR), outage management, and state estimation. ADMS is a long-term vision for Riverside Public Utilities (RPU). ADMS and the Outage Management System (OMS) will be integrated together and will provide additional visibility and efficiencies to the electric system to increase reliability to customers.
<b>470823E - Advanced Metering Infrastructure</b>	This system automation project for the Advanced Metering Infrastructure (AMI) and Meter Data Management System will integrate AMI data and support customer-facing applications and web integration of the Customer Integration System. The AMI delivers automated meter reading resulting in more efficient consumption management and enhanced customer service.
<b>470635E - Cable Replacement</b>	The Cable Replacement Program ensures the proactive replacement of the aging electric distribution cable infrastructure throughout the City to ensure reliability to customers.
<b>470664E - Citywide Communications</b>	The Citywide Communications project provides for design and installation of fiber optic extensions between electric facilities and fiber network service points. Individual projects include additions that complement existing facilities and improve overall fiber optic system operation. This project also includes cyber-security upgrades of critical network equipment.
<b>470655E - Distribution Automation</b>	Phase I of the Distribution Automation Project begins with the design and installation of remote sensing devices and remotely controlled equipment on the electric grid. This new technology equipment remotely monitors the electric system and reports information immediately to the electric grid control center. Remotely controlled equipment reduces personnel costs and improves response times to system disturbances for increased reliability.
<b>470601E - Distribution Line Extensions</b>	The Distribution Line Extension project includes the installation and extension of primary overhead and underground distribution lines to serve new residential, commercial, and industrial customers, as well as existing customer upgrades; installation and extension of primary overhead and underground distribution lines to serve new Electric Vehicle charging stations; and design of line extensions which complements existing facilities and considers overall area electrical load requirements.
<b>470822E - Enterprise Operation Data Management System</b>	The new Operation Data Management System receives data from electric delivery and generation system instrumentation and data communication, storage, and analysis systems. The data will support advanced monitoring and control systems to improve the operational efficiency and capability of the electric delivery systems.
<b>470623E - General Order 165 Upgrades/Line Rebuilds/Relocation - Overhead</b>	This project includes the ongoing rehabilitation or replacement of overhead equipment identified as a result of routine facility inspections. It includes pole replacement and infrastructure rehabilitation/replacement. Priorities are established based on condition assessments and relative impact on customers and the system.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Electric (continued)</b>	
<b>470627E - Generating Station</b>	This project includes needed power plant facility upgrades and equipment replacements identified during routine annual inspections. Replacement of major components and upgrades are necessary to provide reliable power. Priorities are determined by condition-based assessments and impact to the plant's overall reliability.
<b>470827E - Land Mobile Radio</b>	Land Mobile Radio (LMR) is a wireless communications system intended for use by terrestrial users in vehicles (mobiles) or on foot (portables). The new system capitalizes on digital technology known as frequency division multiple access. The LMR system supplies new antennas to provide citywide coverage; provides a new dispatcher console; coexists with the current analog LMR system; supports narrow channels; enables modes of operation for both analog and digital modulations as well as allows for multiple talk groups; and supports private calling for increased safety in the field.
<b>470603E - Line Rebuilds</b>	Line Rebuilds replace aging and end-of-life distribution line equipment and reconfiguration of overhead and underground distribution lines. The project includes the replacement of older oil-filled underground switches. These projects reduce hazardous materials, add system flexibility, and support electric reliability goals.
<b>470644E - Major 4-12 kV Conversion</b>	This project continues the upgrades of aging and obsolete lower voltage electric distribution facilities (4kV) to higher distribution voltage (12kV). Projects are currently in the Magnolia and Plaza service areas. These conversions are optimized to improve system capacity and efficiency.
<b>470633E - Major Feeders</b>	This project constructs major overhead and underground feeders for electric capacity in various locations throughout the City. These feeders are associated with substation transformer additions and extensions to areas of major load increases. Designs complement existing facilities and improve overall system operations.
<b>470619E - Major Overhead / Underground Conversions</b>	These potential conversions optimize opportunities to place various overhead facilities underground on a limited basis as a part of other projects. Electric facilities are evaluated for improvements to capacity, configuration, and integration with surrounding facilities during design.
<b>470637E - Major Streetlight Projects</b>	Major Streetlight Projects relocate and optimize streetlights for road widening projects and as a part of other projects. Project priorities are primarily driven by Public Works schedules and include citywide light emitting diode (LED) streetlight retrofit.
<b>470620E - Major Transmission Line Projects</b>	Major Transmission Line Projects include modifications and relocations of 69kV transmission lines associated with substation power transformer additions. Transmission facilities are evaluated for improvements and system efficiencies during the design of all projects. Parallel facilities on the same route are also considered for improvement to reduce the life cycle cost.
<b>470613E - Meters</b>	The Meter Project includes the purchase and installation of meter equipment for new residential, commercial, and industrial services. This also includes the purchase and installation of meters to replace existing meters that are inoperable or damaged.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Electric (continued)</b>	
<b>470638E - Neighborhood Streetlight Retrofit</b>	The Neighborhood Streetlight Retrofit continues the installation of new concrete streetlight standards, light fixtures, and power feeds in the greater Wood Streets area. Standards and fixtures are replicas of the 90-year-old historical streetlight system. New fixtures are light-emitting diode (LED) lights for increased energy efficiency.
<b>470826E - Network Communication System</b>	The Network Communications Systems Project will upgrade and create redundancies in the communication network to improve the communication backbone and improve system functionality, efficiency, reliability, and cybersecurity. The expected life cycle for these upgrades is about 15 to 20 years.
<b>470824E - Operational Technology Governance</b>	The Operational Technology Governance project includes planning, management, internal controls, and cyber and physical security improvements, as well as planning and implementation of a Security Risk Management Program which includes policies, tools required to monitor irregular activities on the network, and endpoint devices to facilitate proactive response to malicious activities or security-related performance issues.
<b>470829E - Outage Management System</b>	The Outage Management System (OMS) will provide a technology solution and system that enhances operational efficiency, improves productivity and reliability, and increases customer engagement and satisfaction. This system provides real-time visibility to the electric grid and systems, which will reduce the time it takes dispatches and troubleshooters to locate outages and causes. OMS will integrate with the Advanced Distribution Management System (ADMS) to gain additional efficiencies on the electric system to increase reliability.
<b>470615E - Services</b>	This project includes the ongoing installation of new services to residential, commercial, and industrial customers. Additionally, it includes upgraded services to existing customers with increased electrical requirements. Service designs complement existing facilities and consider overall area electrical load requirements.
<b>470634E - Southern California Edison (SCE) Condemnation Costs</b>	This project involves the coordination and condemnation of existing Southern California Edison (SCE) facilities in areas previously annexed to the City limits. This project includes the acquisition of existing electric facilities, easements, and associated legal costs.
<b>470607E - Street Lighting</b>	This project includes the installation of equipment for minor system needs, excluding major streetlight projects. Project designs complement existing facilities and consider overall area lighting needs and current design standards.
<b>470616E - Substation Bus &amp; Upgrades</b>	The Substation Bus & Upgrades project replaces aging equipment and installs additional equipment necessary to improve the operability and safety of these neighborhood power centers (substations). This includes system protection, monitoring, automation systems for energized electrical components, perimeter walls, property improvements, the addition of new substations, and expansion of existing substations.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

<b>Proj. Category / Proj. Name</b>	<b>Project Description</b>
<b>Electric (continued)</b>	
<b>470632E - Substation Transformer Addition</b>	The Substation Transformer Additions include the need to install new substation power transformers and associated equipment to support upgrades necessitated by load growth and modernization. This project also includes proactive replacement of the oldest power transformers based on condition rating. The design of transformer additions complements existing facilities and improves overall system operation.
<b>470672E - Supervisory Control and Data Acquisition (SCADA)</b>	The Supervisory Control and Data Acquisition (SCADA) system provides for the necessary upgrades to the electronic system which monitors and controls the operation of the electric transmission and distribution grid 24 hours a day, 365 days a year. This includes physical security upgrades required for regulatory compliance as part of system improvements, as well as hardware and network upgrades as part of advanced technology improvements.
<b>470608E - System Substation Modifications</b>	The System Substation Modifications projects include modifications, replacements, and improvements of substation equipment and protection devices for minor system needs. This includes the design of substation components and complements existing facilities and improves overall system operation.
<b>470611E - Transformers</b>	This Transformer Project enables the purchase of transformers for new residential, commercial, and industrial services as well as customer load additions. It also includes the purchase and installation of transformers to replace existing transformers found to be inoperable or damaged.
<b>470825E - Work, Asset, &amp; Inventory Management Systems</b>	This project encompasses an upgrade of the Work, Asset and Inventory Management System (WIS). The WIS is important not only for controlling and minimizing stock materials on-hand but for its hand-off of materials through the work management system and assigning the cost of materials to assets in the asset management system. The WIS is an integral part of the workflows and information needed by the Work Management System and Asset Management System. The system supports management of the Utility's field infrastructure assets (e.g., pipes, pumps, valves, connections, etc.) and includes field work orders, asset costs, and utilization.
<b>Municipal Buildings and Facilities</b>	
<b>9019 - City Buildings Deferred Maintenance</b>	This project maintains the City's existing core government facilities, such as libraries, fire and police stations, museum, and City Hall. Projects include minor capital work that is needed to maintain a safe and acceptable condition such as roof replacements and repairs, HVAC system replacements, parking lot overlays and rehabilitation, room remodels, floor replacements, etc.
<b>Parks, Recreation, and Community Services</b>	
<b>2762 - Bordwell Park Slurry/Stripe Parking Lots</b>	This project will update and refurbish the parking lots at Bordwell Park by adding a new slurry seal coating and new striping. This will update & enhance facilities, provide additional safety and security by removing accessibility barriers & tripping hazards, and increasing visibility of parking spaces, loading zones, and traffic flow.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Parks, Recreation, and Community Services (continued)</b>	
<b>2807 - Parks Deferred Maintenance</b>	This project was created to update playground improvements, along with heating/ventilation/air conditioning, flooring, and parking lot repairs and various City facilities based on needs-based prioritization schedule. The facilities will be ranked with the highest needs and the funding will be directed to those facilities. The funding will be spread throughout all City wards, focusing on the highest needs within each ward.
<b>Public Parking</b>	
<b>5992 - Digital Valet System</b>	The purpose of this project is to purchase and implement the Park Riverside Parking Valet program in downtown Riverside. The need for a valet service in downtown Riverside has been expressed by numerous local business owners. This service will elevate the area, bring in new customers, and provide additional conveniences for existing patrons, contributing to the area's economic growth and vibrancy.
<b>5997 - Downtown Parking Garage #3 - Feasibility Study</b>	The expansion feasibility study for Garage 3 in downtown Riverside is a pivotal undertaking aimed at assessing the viability and potential benefits of enlarging the existing parking structure. This comprehensive study will involve analyzing factors such as demand trends, space constraints, infrastructure requirements, parking logistics and financial implications. The project will address parking shortages, enhance accessibility, and contribute to the continued growth and vibrancy of downtown Riverside as a premier destination.
<b>6005 - Downtown Parking Garage #8</b>	This project is for the construction of Parking Garage 8. The facility is envisioned to have up to 1,100 stalls and will be located at the northeast corner of Orange Street and 5th Street, which currently is the site of Parking Lot 52. The garage will align with the City's objectives for Downtown growth along with the City's sustainability objectives.
<b>6001 - On-Street Space Monitoring System</b>	The purchase and installation of an on-street space monitoring sensors will transform the downtown parking experience by providing on-street real-time wayfinding digital signs as well as mobile app with real-time available on-street spaces. This technology will enable residents, visitors, and businesses to easily identify available parking spaces in real-time, reducing congestion and frustration. By providing accurate and up-to-date information on parking availability, the project seeks to elevate the downtown experience, streamline traffic flow, and support local businesses.
<b>9134 - Parking Garage - Guidance, Lighting, Camera System</b>	This project involves the purchase and installation of a comprehensive guidance/wayfinding system, lighting, and cameras aimed at enhancing parking efficiency and safety for customers. By providing clear guidance and improved visibility, this initiative will streamline parking processes, reduce congestion, deter crime, enhance safety, and improve the parking experience.
<b>5993 - Parking Garage #6 - Structural Maintenance</b>	This project entails comprehensive structural maintenance for Garages 6 aiming to address long-standing deferred maintenance issues. By implementing the necessary repairs and upgrades across these key structures, it will enhance the safety, extend the lifespan of the garages, and ensure a reliable infrastructure for the community.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

<b>Proj. Category / Proj. Name</b>	<b>Project Description</b>
<b>Public Parking (continued)</b>	
<b>6003 - Parking Garage #7 - Structural Maintenance</b>	The structural maintenance project for Garage 7 aims to address existing maintenance needs and ensure the structural integrity and safety of the facility. This comprehensive initiative will involve thorough assessments, repairs, and upgrades as necessary to mitigate any structural deficiencies and prolong the lifespan of the garage. By proactively addressing maintenance issues, the project will enhance the functionality and safety of Garage 7, providing a reliable parking solution for patrons and staff.
<b>5999 - Repaving and Restriping Parking Lots</b>	This project involves repaving and restriping the public parking lots in downtown to address normal wear and tear. The project will contribute to the overall beautification and appeal of downtown Riverside, making it a more inviting destination for visitors and residents alike.
<b>6000 - Restriping On-Street Parking Spaces</b>	This project will involve restriping existing on-street parking spaces due to normal wear and tear. The project will contribute to the overall beautification and appeal of downtown Riverside, making it a more inviting destination for visitors and residents alike.
<b>5996 - Uninterrupted Power Supply Backup System</b>	The purpose of this project is to replace the Uninterrupted Power Supply (UPS) backup system for Garage 6. This system will provide backup power to essential lighting fixtures such as exit signs and emergency lights during power outages.
<b>5994 - Vehicle Exit Warning Signs</b>	This project involves the purchase and installation of vehicle exit warning signs for Garages 1, 2 and 6 with the aim of enhancing pedestrian safety at the vehicular exit points of the garages. The signs will provide visual and audible warnings to pedestrians that a vehicle is exiting the parking garage.
<b>Railroad</b>	
<b>8610 - BNSF Quiet Zone - Mission Inn to Marlborough Ave</b>	This project will eliminate the routine sounding of train horns along the Burlington Northern Santa Fe (BNSF) Railway corridor between Mission Inn Avenue and Marlborough Ave by establishing a Quiet Zone in accordance with the Federal Railroad Administration's (FRA) Final Rule. The project provides for the construction of additional safety improvements consisting of a new concrete curb, gutter, and sidewalk, tactile strips, directional fencing, warning signs, and grade crossing warning devices at four highway-rail/grade crossings.
<b>9901 - BNSF/Third Street Grade Separation</b>	This location is along the Burlington Northern Santa Fe Railroad (BNSF) and the project will reduce traffic congestion by eliminating the at-grade street intersection with the existing railroad lines. The construction of a grade separation will allow for an uninterrupted flow of vehicular traffic either above or below the railroad lines. Work includes the construction of an underpass for Third Street and the BNSF railroad tracks, construction of temporary shoofly tracks, grading, retaining walls, and a multi-track concrete bridge structure to provide a four-lane roadway beneath the tracks.
<b>Sewer</b>	
<b>8659 - Dexter Wastewater</b>	This project proposes to replace and upgrade the Dexter sewer pump station located at 2981 Dexter Drive. The lift station serves approximately 45 single-residential homes located next to Lake Evans.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Sewer (continued)</b>	
<b>8334 - Fairgrounds Wastewater</b>	This sewer lift station serves the industrial and residential areas located at the northwest quadrant of the SR-60 and SR-215 interchange. This project proposes to replace and upgrade the Fairgrounds sewer lift station located at 3991 Fairgrounds Street.
<b>9115 - Priority Pipeline Assessment &amp; Repair</b>	This project concentrates on collecting videos and assessing the condition of sewer pipes that are older than 50 years within the City's service boundary. The project will also repair, rehabilitate, or replace aging sewer infrastructure - pipelines, manholes, and sewer residential laterals.
<b>9118 - Water Quality Control Plant - Activated Treatment Train Rehabilitation</b>	This project is for the replacement of the membrane diffusers and the redwood baffles with fiberglass reinforced baffles, repairs on the aeration basin, replace corroded conduits, boxes, and conduit clamps with stainless steel parts, replace side-mounted railings with top-mounted railings, repair cracks, and spalls in the concrete walkways, the implementation of an aeration basin concrete structure condition assessment, the installation of motorized operators on gates and control valves for additional automatic control for the aeration basin.
<b>9117 - Water Quality Control Plant - Headworks Area Rehabilitation</b>	The current Headworks area at the Water Quality Control Plant (WQCP) was constructed in 1999 and consists of a screening room, blower room, electrical room, grit chambers, and grit pumping room. The Headworks area has not received a major mechanical rehabilitation since its construction and there are varying levels of deterioration for the mechanical components within this process area. The grit chambers and grit pumping room underwent a condition assessment in 2017. The findings recommended the replacement of mechanical equipment.
<b>9119 - Water Quality Control Plant - Plant II Sludge Pumps I &amp; II Rehabilitation</b>	This project is for the rehabilitation of the following plant equipment: valves, pumps, variable-speed motors, electrical and instrumentation panels, ventilation systems, and lighting mandated per National Pollutant Discharge Elimination System (NPDES) Permit authorized by the Clean Water Act.
<b>9116 - Water Quality Control Plant - Upgrade Flow Meters to Electromagnetic Meters</b>	This project is for the replacement of Flo-Dar flowmeters in the Acorn, Arlanza, and Santa Ana sewer lines with three electromagnetic flowmeters. A 16-inch diameter mag meter will be installed in the Acorn sewer line; a 36-inch diameter mag meter will be installed in the Arlanza sewer line, and a 36-inch mag meter will be installed in the Santa Ana sewer line.
<b>Storm Drain</b>	
<b>5991 - Coolidge Avenue Storm Drain</b>	The project is to install 800 linear feet 12-inch to 18-inch diameter reinforced concrete pipe into Coolidge Ave with two catch basins. The project is necessary due to multiple flooding incidents on private property on the north side of Coolidge Avenue.
<b>7001 - Miscellaneous Storm Drain Construction</b>	This project allocates City funds to allow for staff to work on various ad-hoc projects, issues, and concerns that present themselves during the year. This allows for a timely response to issues such as drainage, flooding, and emergency storm drain repairs. The project will provide for improvements that will result in avoiding street sinkholes and street damage, mitigated non-flooding areas, a more pleasant pedestrian environment, and efficient drainage for all facilities.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Transportation</b>	
<b>5862 - Arterial Interconnect Maintenance &amp; Replacement</b>	<p>This project is for the replacement of traffic signal interconnect cabling, modems, and other related equipment used to facilitate communication between traffic signals and the Traffic Management Center (TMC). This project is used to provide interconnections at new locations and establish communications with the TMC. The City has approximately 150 traffic signals making use of traditional arterial interconnect to communicate with the TMC. Interconnect is used along major roadways such as Magnolia Avenue, Tyler Street, La Sierra Avenue, Victoria Avenue, Van Buren Boulevard, Alessandro Boulevard, Central Avenue, Fourteenth Street, and University Avenue, along with locations on intersecting roadways.</p>
<b>9136 - Battery Backup System Installation</b>	<p>The traffic signals have battery systems that allow for continued usage throughout any power outage. These battery systems have an expected useful life of four to five years. This project is to replace 100 critically located traffic signal backup systems and batteries. Signals along most major arterials have battery backups. This feature reduces the need to dispatch on-call staff for brief outages and can help maintain traffic flow during an incident where power has been lost and evacuations are necessary.</p>
<b>8888 - CDBG Street Improvements - Matching Funds</b>	<p>This project provides matching funds for various systematic street improvement projects awarded to Public Works under the CDBG program including construction of asphalt resurfacing; construction of pedestrian ramps with detectable warning surfaces to provide improved pedestrian access to sidewalks, and construction of new sidewalks to provide improved pedestrian access and circulation.</p>
<b>5183 - Controller Assembly Replacement</b>	<p>This project is for the replacement of traffic controller boxes at various intersections throughout the City. Traffic signal controllers are electronic boxes that control the coordination of traffic signals. The most frequent need for replacement of these boxes is when the signal cabinet has been struck by a vehicle or a hardware failure occurs.</p>
<b>8883 - Curb &amp; Gutter Repairs</b>	<p>This project provides for the repair of concrete curbs and gutters throughout the City. The project will remove and reconstruct curbs and gutters that are damaged and/or uplifted, mostly from tree roots.</p>
<b>9265 - Five Points Intersection Improvements</b>	<p>The purpose of this project is to upgrade crosswalks at the Five Points intersection including in-pavement lighting, construct a 9,000 square-foot pedestrian plaza with removable bollards, and construct 1.5 miles of sidewalk.</p>
<b>8619 - LED Signal Lens Replacements</b>	<p>This is an ongoing project to perform regular retrofit of the 400 traffic signals to ensure that the LED signal lenses are in working order as a component of the Traffic Management System.</p>
<b>8880 - Major Streets Rehabilitation</b>	<p>This project provides for the systematic resurfacing (asphalt overlay) of all arterial streets throughout the City at prescribed intervals. These intervals vary depending on the age of the street and traffic volume. The project also includes the removal and replacement of non-compliant pedestrian ramps and damaged curbs, gutters, cross-gutters, driveways, and sidewalks adjacent to the street to provide proper drainage and ADA compliance.</p>

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Transportation (continued)</b>	
<b>8894 - Minor Street Preservation</b>	This program provides for the asphalt concrete pavement preservation and resurfacing of minor streets throughout the City. This program will use a slurry seal and/or other preservation methods as determined appropriate to accomplish this goal. The systematic preservation of asphalt concrete streets at regular intervals prolongs the service life of roadway pavement sections and significantly reduces the long-term reconstruction cost.
<b>8884 - Minor Street Rehabilitation</b>	This program provides the asphalt concrete pavement rehabilitation of minor streets throughout the City. This program also includes the removal and reconstruction of non-compliant pedestrian ramps and repair of curbs, gutters, driveways, and sidewalks adjacent to the street to provide proper drainage, Americans with Disabilities Act (ADA) compliance, and better ride quality.
<b>8973 - Miscellaneous Bridge Repair</b>	This project proposes to structurally analyze the existing bridges within the City limits and to recommend rehabilitation and/or repairing overpasses as well as underpasses around the City to ensure safe passage.
<b>5861 - Miscellaneous Signal Revisions</b>	This is a recurring project to complete traffic signal modifications, rewire aging conductors, and upgrade signals throughout the City that assist with the flow of traffic. The program is also used to replace aging conductors to ensure continuity of service at traffic signals. Such enhancements and replacements help to reduce delays and emissions, maintain safety, and improve the quality of life for our residents.
<b>5070 - Miscellaneous Street Construction</b>	This ongoing project was created to work on various projects, issues, and concerns that present themselves during the year. These projects include the removal and replacement of non-compliant pedestrian ramps as well as damaged curbs, gutters, cross-gutters, driveways, and sidewalks adjacent to the street to provide proper drainage and remain in compliance with the Americans with Disabilities Act (ADA).
<b>8832 - Miscellaneous Traffic Projects</b>	This project encompasses a variety of traffic improvements across Riverside: including the installation of signing and striping improvements for improved safety and traffic flow; refreshing faded striping; replacing damaged signs; modifying parking restrictions; repairing damaged guard rails; adjusting median noses; installing roadside and overhead signs to facilitate access to Riverside landmarks and attractions. All the above are a means to make neighborhood traffic improvements more responsive to resident requests.
<b>4107 - Mitchell Ave Sidepath Project</b>	The Mitchell Avenue Side-path Gap Closure project will close the gap between two existing segments of a Class I side-path along Mitchell Avenue in the La Sierra and La Sierra Acres neighborhoods of Riverside. The project will connect the two existing segments, extending the length of the path by creating 0.94 miles of new Class I decomposed granite side-path along the west side of Mitchell Avenue. The project would also close the gap between two existing segments of the trail resulting in a combined 1.97-mile path from Arlington Avenue south to Hole Avenue, connecting communities in the La Sierra Heights and La Sierra neighborhoods to parks and schools.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Transportation (continued)</b>	
<b>8341 - New Traffic Signal Installations</b>	The City of Riverside Traffic Division maintains a priority list for the installation of new traffic signals. Traffic signals are an important safety and efficiency improvement at intersections with sight distance challenges or significant motorist and pedestrian demand.
<b>9027 - Pavement Rehabilitation &amp; Improvements</b>	This program provides the asphalt concrete pavement rehabilitation of arterial and minor streets throughout the City. This program also includes the removal and reconstruction of non-compliant pedestrian ramps and repair of curbs, gutters, driveways, and sidewalks adjacent to the street to provide proper drainage, Americans with Disabilities Act (ADA) compliance, and better ride quality. Other improvements will include pedestrian improvements, including a new sidewalk and minor widening when required.
<b>8887 - Pedestrian Ramps</b>	This project provides for the construction of new pedestrian ramps and detectable warning surfaces along arterial and collector streets to provide improved pedestrian access to sidewalks.
<b>9151 - RMRA Rehabilitation &amp; Traffic Improvements</b>	The project provides additional funding for the maintenance and improvement of roads, safety projects, railroad grade separations, traffic control devices, completed street components (including those for pedestrians and bicyclists), transit facilities, and drainage and storm water projects.
<b>8886 - Sidewalk Repair Program</b>	This program provides the repair of concrete sidewalks throughout the City. The program will remove and reconstruct sidewalks that are damaged and/or uplifted, mostly from tree roots.
<b>8885 - Sidewalk/Trail Construction</b>	This project provides for the construction of concrete sidewalks and trails to provide improved pedestrian access and circulation throughout the City. The construction of new sidewalks or trails reduces the risk of potential injury to pedestrians.
<b>9215 - Traffic Detection Replacement Program</b>	This program is to replace faulty or damaged traffic signal detection systems throughout the City. A traffic signal detection system lessens the time of a traffic signal's cycle, thus removing the inefficiencies of the traffic management system. A traffic signal detector's main reasons for failure are the end of its useful life cycle, construction project damage, and electronic failure. As the traffic signal detection system begins to break down it creates a slower and less effective traffic movement efficiency throughout the City and equipment must be replaced.
<b>5931 - Traffic Management Center</b>	The Traffic Management Center (TMC) manages traffic operations throughout the City. It is the hub for the City's camera and connected traffic signal infrastructure. The Traffic Management Center (TMC) allows staff to monitor traffic conditions in the field from a centralized location, and to remotely adjust the signal timing and synchronization plans at traffic signals in accordance with observations. The TMC plays an important role in responses to 311 requests and allows staff to proactively develop signal timing plans to move traffic efficiently through Riverside.

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

Proj. Category / Proj. Name	Project Description
<b>Transportation (continued)</b>	
<b>9253 - Traffic Signal Backplates, LPI &amp; Mission Inn Median Barrier Project</b>	<p>This project has multiple phases: 1) Installation of a raised median barrier and enhanced high friction surface treatment (HFST) surfacing along Mission Inn Avenue between Redwood Drive and Scout Lane to reduce the number of collisions; 2) Installation of retro-reflective signal backplates on all traffic signalized intersection locations citywide; 3) Implementation of Leading Pedestrian Interval (LPI) timing at all signalized crosswalk locations citywide, which increases safety by giving pedestrians and cyclists 3-7 seconds to start their path across the street.</p>
<b>9216 - Traffic Signal Communication Equipment</b>	<p>This is a recurring project of the Traffic Management Center (TMC) to upgrade or replace traffic signal communications equipment for communication with the City's signalized intersections. These intersections communicate with various types of devices that are electronic and have exposure to weather. They occasionally require replacement due to moisture, heat, or electrical damage. In addition, end of cycle life can cause failure or obsolescence.</p>
<b>9146 - Traffic Signal Preemption Device Replacement</b>	<p>The City's Traffic Signal Maintenance Shop repairs and maintains 'Opticom' emergency vehicle preemption devices at traffic signals. These devices allow both Fire and Ambulance vehicles to receive a green light in their direction of travel. This project will create a budget for the replacement of such devices as they reach the end of their useful service life.</p>
<b>Water</b>	
<b>470823W - Advanced Metering Infrastructure</b>	<p>This system automation project for the Advanced Metering Infrastructure (AMI) and Meter Data Management System will integrate AMI data and support customer-facing applications and web integration of the Customer Integration System. The AMI delivers automated meter reading resulting in more efficient consumption management and enhanced customer service.</p>
<b>470655W - Distribution Automation/Reliability</b>	<p>This program is for the ongoing design and installation of remote sensing devices and remotely controlled equipment on the RPU's water system. This new technology equipment remotely monitors the water system and reports information immediately to the water control center. Remotely-controlled equipment reduces personnel costs and improves response times to system disturbances.</p>
<b>470706W - Distribution System Facilities Replacements</b>	<p>This ongoing program replaces old and inoperable water appurtenances including customer water services, fire hydrants, valves, air valves, and other unserviceable or damaged appurtenances.</p>
<b>470803W - Facility Rehabilitation Program</b>	<p>This is an ongoing program that involves the rehabilitation of existing water facilities, including pumps, motors, wells, reservoirs, canals, facility automation, site security, and site landscaping. The useful life of pumps and motors can range between 7 to 15 years; wells can be rehabilitated every 7 to 10 years; and reservoirs and canals can last about 50 to 60 years.</p>
<b>470707W - Main Replacements Program</b>	<p>This is an ongoing program that involves the design and construction of various water distribution mains to replace high-priority leaking and undersized water mains to improve system reliability. The lengths and material of the pipe can vary from steel, ductile iron to high-strength plastic. Although the City has some pipelines that are close to 90 years old, pipelines typically can last about 70 years.</p>

**CAPITAL PROJECT DESCRIPTIONS BY PROJECT CATEGORY  
(ALPHABETICAL ORDER)**

<b>Proj. Category / Proj. Name</b>	<b>Project Description</b>
<b>Water (continued)</b>	
<b>470702W - Meters</b>	This is an ongoing program involving the replacement of approximately 4,000 small meters and the replacement or refurbishment of over 80 large meters per year. New meters are more reliable and have more accurate readings. Meters typically can last about 15-20 years.
<b>470824W - Operational Technology Governance</b>	The Operational Technology Governance project includes planning, management, internal controls, and cyber and physical security improvements, as well as planning and implementation of a Security Risk Management Program. The Security Risk Management Program includes policies; tools required to monitor irregular activities on the network; and endpoint devices to facilitate proactive response to malicious activities or security-related performance issues.
<b>470833W - Potable/Irrigation Well Replacements</b>	The well replacement program is an ongoing program that involves the construction of new and/or replacement potable/irrigation well facilities. The main purpose of this program is to design and construct new wells to replace existing, aged, or under-producing wells in order to meet the demands of the City and RPU customers. Wells are facilities that pump the City's water supply from underground aquifers. Wells typically can last between 70 to 90 years.
<b>470811W - Recycled Water - Jackson Street Phase I Facilities &amp; Site Conversions</b>	This project provides for the design and construction of necessary facilities to produce and pump recycled water at the City's Regional Water Quality Control Plant, in addition to the on-site recycled water infrastructure and retrofit work to convert customers over to recycled water use. Pipelines typically can last about 70 years.
<b>470832W - SCADA Upgrade &amp; System Automation</b>	This project provides for the necessary upgrades to the water system which monitors and controls operation of the water transmission and distribution 24 hours a day, 365 days a year. This includes physical security upgrades required for regulatory compliance as part of system improvements. It also includes hardware and network upgrades as part of advanced technology improvements. The expected life cycle for these upgrades is about 10 to 15 years.
<b>470701W - System Expansion</b>	This program includes designing and constructing new water system infrastructure (water mains, valves, fire hydrants, and services) to serve new residential and commercial developments as needed to support growth within the city service area.
<b>470735W - Transmission Mains</b>	This is an ongoing program that involves the design and construction of water transmission mains to replace Techite pipe and aged and undersized existing transmission mains throughout the City's water system to improve system reliability and efficiency.
<b>470705W - Water Stock</b>	This is an ongoing program that involves the purchase of outstanding shares of the Gage Canal Company water stock as shares become available to provide additional water rights for the City.

Proj. Category / Proj. Name	Project Description
<b>Water (continued)</b>	
<b>470825W - Work, Asset, &amp; Inventory Management Systems</b>	<p>The Work, Asset, and Inventory Management System (WIS) is important not only for controlling and minimizing stock materials on hand, but it is important for its hand-off of materials through the work management system and assigning the cost of materials to assets in the asset management system. The WIS is an integral part of the workflows and information needed by the Work Management System and Asset Management System. The system supports management of the Utility's field infrastructure assets (e.g., pipes, pumps, valves, connections, etc.) and includes fieldwork orders, asset costs and utilization.</p>

<b>Total Budgeted FTE</b>	<b>2,668.15</b>	<b>2,736.24</b>	<b>68.09</b>	<b>2,738.24</b>	<b>2.00</b>	

### SUMMARY OF CHANGES

Staffing levels for the FY 2024/25 budget increased by 68.09 FTE with a total of 2,736.24 FTE. Additionally, another 2.00 FTE will be added in FY 2025/26 for a total of 2,738.24 FTE. The following summarizes the changes:

#### 1. General Fund: Increase 56.09 due to the following changes

- **City Manager's Office:** Decrease 18.55 FTE due to transfer of 17.55 FTE from Communications (118000) to Marketing & Communications and 1.00 FTE to Grants and Restricted Programs Fund; Additional 1.00 FTE will be included in FY 2025/26
- **City Clerk's Office:** Increase 1.00 FTE to support Records Management (121000)
- **City Attorney's Office:** Increase 0.50 FTE to support the Municipal Services Division
- **Marketing & Communications:** Increase 19.55 FTE which includes 17.55 FTE transferred from City Manager's Office - Communications (118000) and an additional increase of 2.00 FTE to support department oversight and initiatives
- **Human Resources:** Increase 3.00 FTE to support employee engagement, succession planning, and benefits programs
- **General Services:** Increase 1.00 FTE to transport parts and supplies for the Fire Department
- **Finance:** Increase 7.50 FTE to support Administration (230000), Debt and Treasury (230200), Budget and Revenue (231000), and Purchasing (231500)
- **Housing & Human Services:** Increase 16.00 FTE due to transfer of 11.00 FTE from Community & Economic Development and an additional increase of 6.00 FTE that was approved by City Council on September 12, 2023
- **Community & Economic Development:** Decrease of 13.00 FTE due to the transfer of 11.00 FTE to Housing & Human Services and 7.00 FTE to Parks, Recreation and Community Services, which is offset by an increase of 5.00 FTE to assist with department oversight, permit reviews, and real property transactions
- **Police:** Increase 1.00 FTE to assist permit reviews
- **Fire:** Increase 8.00 FTE to support inspections and plan check reviews
- **Public Works:** Increase 4.25 FTE to support infrastructure maintenance and traffic engineering
- **Library:** Increase 6.50 FTE to support operations and information services

## PERSONNEL SUMMARY BY FUND

- **Parks, Recreation and Community Services:** Increase 19.34 FTE due to 7.00 FTE transferred from Community & Economic Development (287500) and an additional increase of 13.34 FTE to assist with department oversight, recreation and aquatic services, and park maintenance
  - **Museum:** Increase 1.00 FTE in FY 2025/26 to coordinate marketing and outreach when the Museum re-opens
2. **Measure Z Fund:** Increase 1.25 due to deletion 1.00 FTE in City Manger's Office which is offset with the addition of 1.25 FTE to the Police Department to support training for sworn personnel and information services and an increase of 1.00 FTE in Parks, Recreation and Community Services for Therapeutic and Adaptive Programming
  3. **Grants and Restricted Programs Fund:** Increase 4.00 FTE which includes 2.00 FTE for the City Manager's Office to assist with procuring grants and 2.00 FTE for the Fire Department to coordinate programs with the County of Riverside
  4. **Housing Authority Fund:** Increase 1.00 FTE by moving an Outreach Worker from General Fund to the Housing Authority
  5. **Airport Fund:** Increase 1.00 FTE to assist with Airport Operations that was approved by City Council on May 16, 2023
  6. **Refuse Fund:** Increase 5.00 FTE to assist with Collections that was approved by City Council on September 19, 2023
  7. **Sewer Fund:** Increase 3.00 FTE to support Environmental Compliance and Laboratory Services
  8. **Special Transit Fund:** Decrease 12.25 FTE to align with the funding from Riverside County Transportation Commission (RCTC)
  9. **Public Parking Fund:** Increase 4.00 FTE due to the expansion of Downtown parking operations, after-hours and weekend enforcement, and reduce overtime
  10. **Liability Insurance Trust Fund:** Increase 5.00 FTE to assist with Claims Management that was approved by City Council on February 6, 2024

### SUMMARY OF CHANGES

Staffing levels for the FY 2024/25 budget increased by 68.09 FTE with a total of 2,736.24 FTE. Additionally, another 2.00 FTE will be added in FY 2025/26 for a total of 2,738.24 FTE. The following summarizes the changes:

- 1. City Manager's Office:** Decrease 17.55 FTE due to transfer of positions from Communications (118000) to Marketing & Communications
- 2. City Clerk's Office:** Increase 1.00 FTE to support Records Management (121000)
- 3. City Attorney's Office:** Increase 5.50 FTE including 5.00 FTE to support Claims Management (131000) and Municipal Services (130000)
- 4. Marketing & Communications:** Increase 19.55 FTE which includes 17.55 FTE transferred from City Manager's Office - Communications (118000) and an additional increase of 2.00 FTE to support department oversight and initiatives
- 5. Human Resources:** Increase 3.00 FTE to support employee engagement, succession planning, and benefits programs
- 6. General Services:** Increase 2.00 FTE which includes 1.00 FTE for Airport Operations (22400) that was approved by City Council on May 16, 2023 and 1.00 FTE to transport parts and supplies for the Fire Department
- 7. Finance:** Increase 7.50 FTE to support Administration (230000), Debt and Treasury (230200), Budget and Revenue (231000), and Purchasing (231500)
- 8. Housing & Human Services:** New department was approved by City Council on September 12, 2023; includes transfer of 45.00 FTE from Community & Economic Development and an additional increase of 6.00 FTE to support department initiatives
- 9. Community & Economic Development:** Decrease of 47.00 FTE due to transfer of 45.00 FTE to Housing & Human Services and 7.00 FTE to Parks, Recreation and Community Services, which is offset with an increase of 5.00 FTE to support department oversight, real property transactions, and permit reviews

## PERSONNEL SUMMARY BY DEPARTMENT

- 10. Police:** Increase 2.25 FTE to assist with training for sworn personnel, information services, and permit reviews
- 11. Fire:** Increase 10.00 FTE to support inspections, plan check reviews, and coordinate programs with the County of Riverside
- 12. Public Works:** Increase 16.25 FTE to support infrastructure maintenance , engineering, sewer operations, and public parking; includes 5.00 FTE in Solid Waste - Collections was approved by City Council on September 19, 2023
- 13. Library:** Increase 6.50 FTE to support operations and information services
- 14. Parks, Recreation and Community Services:** Increase 8.09 FTE due to 7.00 FTE transferred from Community & Economic Development (287500) and an additional increase of 13.34 FTE to assist with department oversight, recreation and aquatic services, and park maintenance, which is offset with a decrease of 12.25 FTE in Special Transit (520020) to align with the funding from Riverside County Transportation Commission (RCTC)
- 15. Museum:** Increase 1.00 FTE in FY 2025/26 to coordinate marketing and outreach when the Museum re-opens

### SUMMARY OF CHANGES

No changes to staffing levels from the adopted FY 2023/24 budget.

### POSITION CHANGES

#### Reclassifications

1. Operations (610000): Reclassify Utilities Electric Meter Technician (2.00 FTE) to Utilities Senior Electric Meter Technician (2.00 FTE)
2. Field Operations (610500): Reclassify Administrative Analyst (1.00 FTE) to Safety Coordinator (1.00 FTE)
3. Energy Delivery Engineering (611000)
  - a. Reclassify Senior Office Specialist (1.00 FTE) to Administrative Assistant (1.00 FTE)
  - b. Reclassify Senior Engineering Aide (1.00 FTE) to Engineering Technician (1.00 FTE)
  - c. Reclassify Engineering Technician (1.00 FTE) to Senior Engineering Technician (Civil) (1.00 FTE)
  - d. Reclassify Senior Geographic Information Systems (GIS) Analyst (1.00 FTE) to Administrative Analyst (1.00 FTE)
4. Riverside Energy Resource Center (RERC) Generating Plant (612013): Reclassify Utilities Senior Resource Analyst (1.00 FTE) to Utilities Principal Resource Analyst (1.00 FTE)

#### Reorganizations and Internal Transfers

5. Operations (610000): Transfer Utilities Senior Electric Engineer to Energy Delivery Engineering (611000) Resource Analyst (1.00 FTE)

### SUMMARY OF CHANGES

Staffing levels increased by 16.25 FTE from the adopted FY 2023/24 budget. City Council approved an increase of 5.00 FTE for Solid Waste - Collections (413010) on September 19, 2023 and the remaining new personnel (11.25 FTE) will be effective in FY 2024/25.

### POSITION CHANGES

#### Additions and Deletions

1. Forestry and Landscape (411011): Add Landscape Maintenance Inspector (1.00 FTE)
2. Storm Drain Maintenance (411030): Add Heavy Equipment Operator (1.00 FTE)
3. Signals Maintenance (411040): Add Traffic Signal Technician (1.00 FTE)
4. City Engineering Services (411500): Add Principal Planner (1.00 FTE)
5. Traffic Engineering (412000): Delete Technical Intern (0.25 FTE)
6. Sewer Systems - Administration and Regulatory Compliance (412500): Add Geographic Information Systems Analyst (1.00 FTE)
7. Sewer - Environmental Compliance (412530): Add Septic Hauler Attendant (2.00 FTE)
8. Sewer - Plant Maintenance (412540): Delete Wastewater Maintenance Mechanic (1.00 FTE)
9. Sewer - Laboratory Services (412250): Add Laboratory Analyst III (1.00 FTE)
10. Solid Waste - Collection (413010): Add Senior Solid Waste Operator (5.00 FTE; Approved by City Council on September 19, 2023)
11. Public Parking (415000): Add Administrative Analyst (1.00 FTE)
12. Parking Enforcement (415100)
  - a. Add Parking Control Representative (2.00 FTE)
  - b. Add Senior Parking Control Representative (1.00 FTE)

#### Reclassifications

13. City Engineering Services (411500)
  - a. Reclassify Development Services Representative III (1.00 FTE) to Permit Technician (1.00 FTE)
  - b. Reclassify Engineering Technician (1.00 FTE) to Geographic Information Systems (GIS) Analyst (1.00 FTE)
  - c. Reclassify Construction Project Manager (1.00 FTE) to Senior Construction Project Manager (1.00 FTE)
14. Traffic Engineering (412000): Reclassify Associate Engineer (1.00 FTE) to Associate Traffic Engineer (1.00 FTE)
15. Sewer Systems - Administration and Regulatory Compliance (412500): Reclass Senior Geographic Information Systems Analyst (1.00 FTE) to Principal Geographic information Systems (GIS) Analyst (1.00 FTE)
16. Sewer - Environmental Compliance (412530): Reclassify Environmental Compliance Supervisor (1.00 FTE) to Environmental Services Coordinator (1.00 FTE)
17. Sewer - Laboratory Services (412550): Reclassify Laboratory Supervisor (1.00 FTE) to Environmental Services Coordinator (1.00 FTE)

## Public Works Department

18. Sewer - Plant Construction Support (412591): Reclassify Construction Project Manager (1.00 FTE) to Construction Contract Administrator (1.00 FTE)
19. Solid Waste - Administration (413000): Reclassify Senior Administrative Analyst (1.00 FTE) to Principal Management Analyst (1.00 FTE)

The FY 2024-2029 General Fund Long-Term Plan (Plan) employs innovative fiscal strategies to achieve a balanced budget and addresses two major budget challenges: the potential loss of the Water General Fund Transfer and the rising cost of the California Public Employees' Retirement System Unfunded Accrued Liability (CalPERS UAL). The following outlines Plan assumptions related to the strategies employed to create a structurally balance budget while laying the groundwork for a more prosperous future:

- 1) **Property Tax:** Assumes a steady growth of 4.2% in FY 2024/25 followed by a 5% increase in subsequent fiscal years. Also includes an estimated \$900,000 in revenue from the Redevelopment Property Tax Trust Fund (RPTTF) from the March JPA territory tax and revenue sharing agreement with the County of Riverside and surrounding cities.
- 2) **Sales Tax:** Assumes a modest 1.5% growth in FY 2024/25 and 3.0% to 3.3% growth in subsequent years. Also includes an estimated yearly sales tax revenue of \$1.5M from the March JPA agreement, with an annual growth assumption of 2%.
- 3) **Cannabis Tax:** Voter approved Measure B allows the City Council to set a cannabis tax of up to 10%. The Budget conservatively assumes \$500,000 in FY 2024/25, reflecting initial growth of cannabis sales, with an anticipated increase to \$1M.
- 4) **Transient Occupancy Tax:** Includes \$160,000 in Transient Occupancy Tax revenues, with 3% annual growth, from the March JPA agreement.
- 5) **Franchise Fees:** Includes \$132,000 in Franchise Fee revenues, with 4% annual growth, from the March JPA agreement.
- 6) **Licenses & Non-Developer Permits:** Includes a projected annual \$1.0 to \$1.5M in revenue from implementation of the Business Tax Discovery Program to bring businesses into full compliance with Riverside Municipal Code Section 5.04 – Taxes, Licenses and Regulations.
- 7) **Charges for Services:** Includes projected fee and charge increases resulting from the FY 2024/25 User Fees and Charges study. The request for fee increases will be recommended for Council adoption in two phases, with the first set aligning with budget adoption and the second set scheduled for the summer.
- 8) **Other Financing Sources:** Includes an anticipated \$3.2M from the March JPA agreement for land sales in FY 2024/25, with \$1.7M projected annually thereafter. Additionally, the FY 2024/25 projection includes an estimated \$2.0M for the sale of two surplus Police department helicopters.
- 9) **Use of Section 115 Trust Set Aside Funds:** On December 19, 2023, the City Council directed that \$20M of the FY 2022/23 year-end surplus and \$15M of other General Fund reserves be used to offset Section 115 Trust contributions as needed, allowing the relieved funds to be used to close deficits caused by the Water GFT revenue loss. This one-time source of funds will provide a temporary solution to this particular fiscal challenge while the Water GFT issue is litigated.
- 10) **Personnel:** Personnel costs are budgeted based on current salaries and benefits for existing staff, along with mid-range estimates for vacant positions. This budget incorporates assumptions regarding salary and benefit increases, including merit raises and current Memorandums of Understanding. Additionally, it accounts for escalating costs to proactively anticipate future labor negotiations beyond the two-year budget. This helps to ensure a more realistic projection of future expenditures related to employee compensation. This approach mitigates budget shortfalls and surprises due to currently unknown future labor pressures. It also enables better resource allocation over the entire 5-year General Fund Long-Term Plan without overcommitting resources now and potentially generating long term pressures on the general fund and creation of a structural deficit.
- 11) **Vacancy Factor:** The budget includes a 6% vacancy savings recorded in the Non-Departmental budget to account for the City's ongoing recruitment and hiring challenges, and the natural turnover of personnel. This is not to set a target for departments. The City is committed to filling positions to address workload issues and provide quality services.
- 12) **Escrow Water GFT:** The Water General Fund Transfer (GFT) accounts for approximately 5% of ongoing General Fund revenues. On September 19, 2023, the City Council directed that all future Water GFT collections be placed in a reserve account pending the outcome of litigation.

<sup>1</sup> Forecasted working capital figures shown in this table does not account for all anticipated encumbrances and expenditures; fund working capital is anticipated to decline through FY 2026/27. The recent solid waste rate package allowed for several years for fund revenues to outpace forecasted expenditures in order to reduce rate increases, with the intent of absorbing the fund's operating deficit using the fund's capital balance.
