1. Plans and Specifications

Landscaping maintenance services are paid for by the District. Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of the landscaping, recreation facilities, play equipment, and appurtenances including repair, removal, or replacement, providing for the life, growth, health, and beauty of the landscaping, recreation facilities, play equipment, and removal of trimmings, rubbish, debris, and other solid waste, together with the necessary incidental expenses.

Landscaping improvements, along with the recreation facilities and play equipment that have been installed, are maintained by the District, while the water features are to be maintained by the Master Homeowner's Association. There exist two zones of benefit, Zone A and Zone B. The general nature, location, and extent of the landscape improvements maintained by the District for each Zone are as follows:

Zone A

- Landscaping and irrigation systems within the parkway on the east side of Riverwalk Parkway from approximately 500 feet south of Collett Avenue, northerly to approximately 950 feet south of Pierce Street.
- Enhanced landscaped areas, including recreation facilities and play equipment, on the east side of Riverwalk Parkway, located approximately 500 feet south of Collett Avenue, northerly to approximately 950 feet south of Pierce Street.
- Reverse frontage landscaping improvements and irrigation systems along the north and south sides of Collett Avenue between Riverwalk Parkway and Golden Avenue.
- Reverse frontage landscaping improvements and irrigation systems along the west side of Golden Avenue between Schuyler Avenue and the La Sierra Storm Drain Channel.
- Reverse frontage landscaping improvements and irrigation systems along the north side of Schuyler Avenue from Golden Avenue easterly to the District Boundary.
- Landscaping and irrigation systems along the south side of Pierce Street beginning approximately 300 feet east of Riverwalk Parkway, extending approximately 700 feet easterly.

The Master Homeowner's Association's Responsibilities

The Master Homeowner's Association is responsible for the following items:

- The operation, repair, and replacement of the pumps and systems for the water wells feeding the ponds.
- The irrigation system up to the remote-control valve, including the main distribution line and water for irrigation of the system.
- The operation, maintenance, and repair of the streambeds, water ponds, and fountains.
- Electrical renovations associated with the above.

Zone B

Landscaping and irrigation systems within the parkway on the east side of Riverwalk Parkway from the La Sierra Storm Drain, northerly to a point approximately 500 feet south of Collett Avenue and along the west side of Riverwalk Parkway from the La Sierra Storm Drain, northerly to a point approximately 950 feet south of Pierce Street, including the northwest corner of Riverwalk Parkway and Collett Avenue.

1. Plans and Specifications

Plans and Specifications

Plans and Specifications for improvements are on file and are available for inspection in the Office of the Director of Public Works of the City of Riverside.

2. Method of Assessment Apportionment

Proposition 218

On November 5, 1996, California voters approved Proposition 218, entitled the “Right to Vote on Taxes Act”; it added Article XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 established new procedural requirements for the formation and administration of assessment districts.

The Riverwalk Landscape Maintenance District is an assessment district and, as such, is governed by Proposition 218. The District was approved by property owners on August 13, 2002, in accordance with Proposition 218 proceedings.

Proposition 218 defines the term “assessment” as “any levy or charge upon real property by an agency for a special benefit conferred upon the real property.” Cal. Const., art. XIII D, §2(b). A special assessment, sometimes called a “benefit assessment,” is a charge generally levied upon parcels of real property to pay for benefits the parcels receive from local improvements. The key feature that identifies a charge as an assessment is the existence of a special benefit to real property.

If the proposed assessment for either Zone in the District ever exceeds the maximum allowable assessment as previously approved by the property owners, a new Proposition 218 Ballot proceeding would be required, with the property owners in the district voting on the proposed increase.

Distinguishing General and Special Benefit

Proposition 218 added a set of procedures and requirements to Article XIII D of the California Constitution which a local government must follow to levy an assessment. In addition to notice, hearing, and assessment ballot proceedings, Proposition 218 provides that “only special benefits are assessable” and requires a local government to “separate the general benefits from the special benefits conferred on a parcel.”

By its nature, most public improvements financed through an assessment district contain an element of public benefit. The test is: does there exist, with relation to the improvement, a special benefit to the property assessed? The law requires that the portion of the cost of the improvement, which benefits the public generally, be separated from that portion of the cost of the improvement which specially benefits assessed properties. Article XIII D Section 2(i) defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Special Benefits

The property within the District receives direct and special benefit from the maintenance of the improvements described in Section 1 of this report. Maintenance of the parkway and reverse frontages along with the enhanced landscaped areas and recreational equipment provides an aesthetic benefit, directly enhances property values within the District, provides a sense of community, and provides erosion and dust control, resulting in additional special benefit.

General Public Benefits

The improvements are being maintained for the sole benefit and enjoyment of the parcels of property within the District and do not extend beyond the District boundaries. Therefore, the improvements do not result in any general benefits.

Public Lands

Article XIII D mandates that “parcels within a district that are owned or used by any agency, the State of California, or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and

2. Method of Assessment Apportionment

convincing evidence that those publicly owned parcels, in fact, receive no special benefit.” The District includes a publicly owned parcel, which has been dedicated to the City of Riverside for a dog park. The Parcel Identification Number of the park is 141-260-027. The dog park receives no special benefit from the improvements. Accordingly, this parcel has been assigned zero (0) EDUs and is exempt from assessment.

Method of Assessment Apportionment

The Landscaping and Lighting Act of 1972 (the “Act”) and the provisions of Article XIID of the California Constitution require that the assessment be apportioned by a formula or method which fairly distributes the net amount to be assessed among all assessable lots and parcels in proportion to the estimated benefits to be received by each lot or parcel from the improvements. The Act does not specify the method or formula that should be used to apportion the assessment in any special assessment district proceedings. The City Council has retained Webb Municipal Finance, LLC for the purpose of assisting the City Council in making an analysis of the facts in the District and recommending to the City Council the correct apportionment of the assessment obligation.

In performing the analysis, it was necessary to identify the benefits that the improvements being financed will render to the properties within the boundaries of the District and to determine the extent to which such properties receive a direct and special benefit as distinguished from that of a benefit to the general public.

Allocation of Special Benefit Assessments

The District contains 28.2 acres of landscaping. Originally, it was determined that 17.2 acres of landscaping was the responsibility of the residential Riverwalk Development (Zone A) and 11.0 acres of landscaping was the responsibility of the non-residential development (Zone B). In Fiscal Year 2012-13, a two-acre parcel that was in Zone B was dedicated to the City of Riverside as a dog park and transferred to Zone A. The City has subsequently determined that the dog park provides a general benefit and maintenance of the park has been removed from the responsibility of the District. Therefore, 17.2 acres of landscaping is the responsibility of the residential development (Zone A), 9.0 acres of landscaping is the responsibility of the non-residential development (Zone B), and 2.0 acres of landscaping is the responsibility of the City. The residential Riverwalk Development is complete with 1,022 single-family residences and approximately 87.31 acres of non-residential development.

Section 3 contains a breakdown of cost estimates for the maintenance of the improvements and the anticipated expenditures for each Zone for Fiscal Year 2025-26.

2. Method of Assessment Apportionment

The special benefit assessment will be allocated to parcels within the District on an equivalent dwelling unit (EDU) basis for Residential Zone A and on an acreage basis for Non-Residential Zone B. Each non-residential property within Non-Residential Zone B will receive a similar benefit and will be assessed based on the individual acreage of each developed non-residential property, at the rate of one (1) Unit of Benefit (UOB) per acre, with fractions of acres receiving proportional fractions of UOBs.

Should density or land use for future years deviate from those anticipated, the future EDU allocations and assessments will be based upon the actual uses realized. This could result in variations in future EDU totals for the District.

Future Maximum Annual Assessments

The assessment will be levied on an annual basis for as long as the landscape maintenance services are provided. The District formation established the base Fiscal Year 2002-03 maximum annual assessment amount within a range from \$150.00 per equivalent dwelling unit (i.e., a single-family residential lot) to \$230.00 per equivalent dwelling unit for parcels of property which are or will be improved with single-family residences (i.e., Residential Property) and in an amount within a range from \$750.00 per acre to \$1,000.00 per acre for all other parcels of property (i.e., Non-Residential Property).

The annual Minimum and Maximum assessment rates, per EDU, for parcels of property which are or will be improved with single-family residences (Zone A) or per acre for all other parcels of property that are not residential (Zone B), are annually increased by an amount not to exceed the current method of escalation on July 1 of each year, commencing on July 1, 2003. The escalation method increases the prior fiscal year Minimum and Maximum rates using the year-over-year percentage increase, if any, in the Consumer Price Index (CPI).

Prior to Fiscal Year 2018-19, the annual escalation was determined by multiplying the prior year rates, both Minimum and Maximum, by the percentage increase, if any, in the CPI for Los Angeles-Riverside-Orange County (1982-84 = 100).

The base in the original Index as of July 1, 2002 was 182.200. In December 2017, the Bureau of Labor Statistics Data revised its categorization of Los Angeles-Riverside-Orange County to Riverside-San Bernardino-Ontario. Thus, the annual escalation is determined by the percentage increase, if any, in the Riverside-San Bernardino-Ontario Index (December 2017 = 100) from the preceding year. Table 2-1 shows the changes to the Minimum and Maximum assessment rates for the past five years.

⁽¹⁾ In January 2018, the Bureau of Labor Statistics Data revised its categorization of Los Angeles - Riverside - Orange County to Riverside - San Bernardino - Ontario. The calculation of the escalator for Fiscal Year 2018-19 was the percentage increase from the newly implemented base Index, as of December 2017 (December 2017 = 100.000), to the Index as of March 2018 of 101.897.

⁽²⁾ Beginning with FY 2019-20, the calculation of the escalator uses the percentage increase, if any, in the new Index from March of the prior year to March of the current year.
