1.3. **Licensing and Project Design.** City does not intend to contract for, pay for, or receive any design services, which are in violation of any professional licensing laws, and by execution of this Agreement, Design-Build Entity acknowledges that City has no such intent. It is the intent of the Parties that Design-Build Entity is fully responsible for furnishing the design of the Project, although the fully licensed design consultant, identified in the Proposal as Design-Build Entity Members will perform the design services required by the Contract Documents. Nothing in this article shall create a contractual relationship between such Design-Build Entity Members and the City.

1.3.2 Design-Build Entity shall hold a valid license as required by the Special Provisions at the time of award of the Contract and shall maintain the license at all times during performance of the Work. Design-Build Entity's Project representative, as approved by City, shall: (1) be actively involved throughout all phases of design and construction of the Project; (2) maintain oversight of the Project at all times; (3) have full authority to represent and act on behalf of Design-Build Entity for all purposes under this Agreement; (4) supervise and direct the design and construction using best skill and attention; (5) adequately coordinate all portions of the design and construction; and (6) act as the principal contact with City and all contractors, consultants, engineers and inspectors on the Project.

1.3.5 All Subcontractors shall hold the appropriate California Class C-specialty, Class B-general building contractor, or Class A-general engineering contractor and shall maintain the license at all times during performance of the Work.

1.3.6 "Instruments of Service" are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Design-Build Entity, and the design consultants. Instruments of Service include "Construction Documents," which are the drawings and specifications prepared by the Design-Build Entity, consistent with the Project Criteria and applicable law, for construction, setting forth in detail the requirements for permitting and construction of the Work of a Project, approved by the City and incorporated into the Contract after such approval.

1.3.7 The Instruments of Service, including Construction Documents and other Project-related documents created, prepared or issued by Design-Build Entity or its design consultants, and Subcontractors, are work made for hire, and shall become the sole property of City when prepared and shall be delivered to City upon request and upon payment in full for undisputed design services completed to the date of City's request. Such Instruments of Service may be used, reused, and otherwise disposed of by City without permission of Design-Build Entity, for any purpose of the City. Design-Build Entity shall deliver master reproducible Instruments of Service in electronic format when: (i) the design is approximately 50% complete; (ii) at the start of construction; and (iii) at other times as determined by written request from the City. The Design-Build Entity also shall deliver: (a) all originals of the Instruments of Service (whether completed or in process) in electronic and hard-copy format, to the City upon completion or earlier termination of the services required; and (b) a reproducible set of the final Construction Drawings and CAD files (or BIM files) containing all Instruments of Service prepared by the Design-Build Entity, Architect, Design-Build Entity Members and design consultants, and Subcontractors that the City specifically requests. City, in return, hereby grants Design-Build Entity and its design consultants and Subcontractors, a non-exclusive license to reproduce Instruments of Service for purposes relating to Design-Build Entity's performance of the Work for this Project. City agrees to proceed at its own risk and be responsible, to the extent permitted by law, from all liability and costs that may arise from the use of Design-Build Entity's Instruments of Service by another contractor, subcontractor, architect, design consultant, Separate Contractor or City's Project Representative unless the liability or costs arise from the acts, omissions or negligent performance of professional services performed or furnished by or on behalf of Design-Build Entity.

1.3.8 The Parties acknowledge that inherent in the Design-Build project delivery method, the production and review of Construction Documents may be a continuing process with portions thereof completed at different times. The Design-Build Entity will limit the Construction Document packages for construction to a reasonable number. The Project schedule shall indicate the times for the City to review the completion of each such portion of the Construction Documents and a reasonable time for review of same.

(1) Upon receipt of the Notice to Proceed for the Construction Documents phase, the Design-Build Entity shall instruct the design consultants to commence the design of the building systems and the preparation of the Construction Documents. The Construction Documents shall provide information customarily necessary in documents for projects of similar size, complexity, and quality. The Construction Documents shall include all information required by the building trades to complete the construction of the Project, other than such details customarily developed by others during construction. The City's review of the Construction Documents shall be conducted in accordance with the approved Project schedule. Such review shall not relieve the Design-Build Entity from its responsibilities under the Contract. Such review shall not be deemed an approval or waiver by the City of any deviation from, or of the Design-Build Entity's failure to comply with, any provision or requirement of the Contract Documents, unless such deviation or failure has been identified as such in writing in the document submitted by the Design-Build Entity and expressly approved in writing by the City.

(2) The Design-Build Entity shall submit completed packages of the Construction Documents for review by the City at the times indicated on the Project Schedule. Review meetings between the Design-Build Entity and the City to review the Construction Document packages, shall be scheduled and held so as not to delay the Work. After reviewing the Construction Documents package for conformance to the Project Criteria, the City will issue a Construction Notice to Proceed to the Design-Build Entity.

1.4. **Standard of Care.**

1.4.1 All design services to be performed by Design-Build Entity, Design-Build Entity Members, design consultants, subcontractors, and their employees identified by the Design-Build Entity or other persons approved by the City shall be performed in an expeditious and professional manner using architects, engineers, and other professionals properly licensed and duly qualified in the jurisdiction in which the Project is located. The professional obligations of such persons shall be undertaken and performed in the interest of the Design-Build Entity. All design services performed pursuant to this Agreement shall be performed with the degree of skill and learning ordinarily possessed by architects and engineers in good standing in the community regularly engaged in the design and construction of an improvement such as this Project and must apply that knowledge with the diligence ordinarily exercised by reputable architects and engineers under similar circumstances ("Standard of Care").

1.4.2 The construction Work shall be (a) performed in a good and workmanlike manner; (b) suitable for its intended purpose as established in the Performance Criteria; (c) free from defects; and (d) performed in an expeditious and economical manner in accordance with the Contract Documents. Design-Build Entity agrees to provide a completely finished functioning and operational facility ready for use and occupancy in accordance with the requirements of the Contract Documents, within the Contract Sum and within the Contract Time.

1.5 **Interpretation.** In the event of any conflict between any of the Contract Documents, the document highest in the order of precedent shall control. The order of precedent shall be the same as that set forth in Section 3-7.2 of the 2021 Edition of the Standard Specifications for Public

Works Construction, unless otherwise revised in the Special Provisions. The most current Construction Documents prepared by Design-Build Entity and approved by the City have the lowest order of precedence.

1.6 **Entire Agreement.** This Agreement together with all other Contract Documents represents the entire and integrated agreement between City and Design-Build Entity and supersedes any prior written or oral agreements between them concerning the subject matter contained in the Contract Documents. There are no representations, agreements, arrangements or understandings, oral or written, between the Parties hereto, relating to the subject matter contained in the Contract Documents, which are not fully expressed herein.

ARTICLE 2 – CONTRACT PRICE AND PAYMENT

2.1 **Contract Price.** City shall pay Design-Build Entity the Contract Price of One Million Nine Hundred Eighty-Two Thousand Seven Hundred Sixty-Three Dollars (\$1,982,763.00), which includes all California sales or use tax and County and City taxes, in consideration for the Design-Build Entity's full, complete and timely performance of all of the Work required by the Contract Documents. The Contract Price includes any Alternative/Additive Bid Items which were awarded with the Contract.

Design-Build Entity agrees to voluntarily allocate the use tax derived from contracts or subcontracts of \$5 million or more directly to the job site location by obtaining a sub-permit of the Design-Build Entity's seller's permit from the California Department of Tax and Fee Administration for the jobsite and allocating the local tax to the jobsite address. Design-Build Entity shall provide City with proof of such filing prior to City's issuance of the Notice to Proceed.

In accordance with Section 22300 of the California Public Contract Code, Design-Build Entity may substitute securities for any monies withheld by City to ensure performance of the Contract. Such substitution shall be made at the request and expense of Design-Build Entity. Securities equivalent to the amount withheld may be deposited with City or with a state or federally chartered bank as escrow agent. Securities eligible for substitution shall include those listed in Section 16430 of the Government Code, bank or saving and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by Design-Build Entity and City. Alternatively, the Design-Build Entity may request that the City, at the expense of the Design-Build Entity, make payment of retention earned directly to the escrow agent. Notwithstanding the foregoing, such Design-Build Entity shall have thirty (30) Calendar Days following award of the Contract to submit a written request to the City to permit the substitution of securities for retention or payment to an escrow agent; failure to do so shall be deemed a waiver of the right.

2.2 **Changes to the Contract Price.** Design-Build Entity shall not be compensated for any extra materials used or time expended over and above the Contract Price, unless prior written approval for the same has been granted by the City.

2.3 Payment Procedures.

2.3.1 Progress Payments. Progress payments will be made in accordance with Article 7 of the Standard Specifications, as modified by the City's Special Provisions.

2.3.2 Final Payment. Within sixty (60) calendar days after City accepts final completion of the Work and records the Notice of Completion, excluding Plant Establishment, if applicable, City shall pay Design-Build Entity the amounts City deducted and retained from Design-Build Entity's progress payments, except such sums which are required by applicable law or authorized by the Contract to be further retained. In the event of a dispute between City and Design-Build Entity concerning the amount of final payment due, the City may withhold from final payment, including Liquidated Damages provided forth in the Contract Documents, together with an amount not to exceed one hundred fifty percent (150%) of the value of disputed amounts for incomplete or non-conforming work.

ARTICLE 3 – TIME FOR PERFORMANCE

3.1 Date of Commencement/Notice to Proceed. The date of commencement of the Work shall be established in a written Notice to Proceed issued by the City. The City will not issue a Notice to Proceed to the Design-Build Entity until this Agreement, bonds and insurance documents have been executed and/or approved by the City.

3.2 Contract Time. Design-Build Entity shall perform the Work in a diligent manner and shall complete all of the Work of the Contract, excluding any Plant Establishment, if applicable, within Three Hundred and One (301) calendar days after the date specified to Design-Build Entity in the Notice to Proceed issued by City.

ARTICLE 4 – LIQUIDATED DAMAGES

4.1 Necessity For Liquidated Damages.

4.1.1 For each consecutive calendar day in excess of the time specified for the completion of Work, as adjusted in accordance with Section 6-4 and/or 6-6 of the Standard Specifications, as modified by the Special Provisions, Design-Build Entity shall pay to City, or have withheld from monies due the Design-Build Entity, the sum of Five Hundred Dollars (\$500.00). Design-Build Entity and City have agreed to City's assessment of Liquidated Damages with respect to Design-Build Entity's failure to achieve Substantial Completion of the Work within the Contract Time and to comply with other Milestones and Triggering Events established below/in the Special Provisions. The Parties intend for the Liquidated Damages described herein in the amounts established below to constitute liquidated damages as such term is used in Government Code Section 53069.85 and Public Contract Code Section 7203 ("Liquidated Damages"). Design-Build Entity acknowledges and agrees that the Liquidated Damages are intended to compensate City solely for Design-Build Entity's failure to meet the deadline for Substantial Completion and any other established Milestones or Triggering Events shall not excuse Design-Build Entity from liability from any other breach of the Contract Documents. City's assessment of Liquidated

Damages is in addition to City's right to suspend the Work or terminate Design-Build Entity's performance of the Work in whole or in part.

Failure of Design-Build Entity to achieve Substantial Completion of the Work within the Contract Time and to comply with other Milestones and Triggering Events established below will result in damages being sustained by City. Such damages are, and will continue to be, impracticable and extremely difficult to determine. Design-Build Entity acknowledges and agrees that such Liquidated Damages have been set based on an evaluation by City of damages that it will incur. Design-Build Entity and City agree that the amounts of such Liquidated Damages are impossible to ascertain as of the date of execution of this Agreement and the Parties have agreed to such Liquidated Damages to fix Design-Build Entity's costs and to avoid later disputes over which items are properly chargeable to Design-Build Entity. It is understood and agreed by Design-Build Entity that any Liquidated Damages payable pursuant to this Agreement are not a penalty and that such amounts are not manifestly unreasonable under the circumstances existing as of the date of execution of this Agreement.

It is further mutually agreed that City shall have the right to deduct Liquidated Damages against progress payments or retainage and that the City may issue a Construction Change Directive, if necessary, to reduce the Contract Sum accordingly. In the event the remaining unpaid balance of Contract Sum is insufficient to cover the full amount of Liquidated Damages, Design-Build Entity shall pay the difference to City upon City's demand.

ARTICLE 5 – CLAIMS AND DISPUTES

5.1 **Notice of Claims.** Design-Build Entity acknowledges and agrees that its failure to submit any claim arising under this Agreement in accordance with the Special Provisions, including, without limitation, the provisions of Articles 2 and 6 of the Special Provisions shall constitute a waiver of Design-Build Entity's right to additional compensation and/or extension of time.

5.2 **Government Code Claims Procedures.** Design-Build Entity further acknowledges that notwithstanding Design-Build Entity's compliance with the claims procedures set forth in the Special Provisions, Design-Build Entity must also comply with the claims procedures set forth in Government Code sections 900 *et seq.* prior to filing a lawsuit against the City for any such claim. Failure to submit a Government Code claim or comply with the claims provision contained in the Special Provisions shall bar Design-Build Entity from bringing and maintaining a valid lawsuit against the City.

ARTICLE 6 – LOCAL BUSINESS LICENSE, TAXES AND FEES

6.1 **Business Tax Certificate and Governmental Approvals.** As a condition of the Contract, Design-Build Entity and all subcontractors shall, during the term of this Agreement, secure and annually renew business tax certificates pursuant to Chapter 5.04 of the Riverside Municipal Code to operate in the City of Riverside, and shall also secure and maintain at all times during performance of the Work, any other licenses, fees, permits or similar governmental approvals required by applicable law.

6.2 **Offsets.** Design-Build Entity acknowledges and agrees that with respect to any business tax or penalties thereon, utility charges, invoiced fee or other debt which is owed, or which becomes owed, by Design-Build Entity to City, City reserves the right to withhold and offset said amounts from any payments, refunds or reimbursements owed by City to Design-Build Entity under the Agreement. Notice of such withholding and offset shall promptly be given to Design-Build Entity by City in writing. In the event of a dispute as to the amount owed or whether such amount is owed to City, City will hold such disputed amount until either the appropriate appeal process has been completed or until the dispute has been resolved.

However, failure to obtain the required documents prior to the work beginning shall not waive the Design-Build Entity's obligation to provide them.

9.9 Reassessment of Insurance Requirements. At any time during the duration of this Contract, the City may require that Design-Build Entity obtain, pay for, and maintain more or less insurance depending on the City's assessment of any one or more of the following factors: (1) the City's risk of liability or exposure arising out of, or in any way connected with, Design-Build Entity's services under this Agreement; (2) the nature or number of accidents, claims, or lawsuits arising out of, or in any way connected with, Design-Build Entity's services under this Agreement; or (3) the availability, or affordability, or both, of increased liability insurance coverage.

9.10 Design-Build Entity's Insurance for Other Losses. The Design-Build Entity and its Subcontractors of every tier shall assume full responsibility for all loss or damage from any cause whatsoever to any tools, Design-Build Entity's (or Subcontractors') employee-owned tools, machinery, equipment, or motor vehicles owned or rented by the Design-Build Entity, or the Design-Build Entity's agents, suppliers, or Subcontractors as well as to any temporary structures, scaffolding, and protective fences.

9.11 No Limitation. Design-Build Entity's maintenance of insurance as required by the Contract Documents shall not be construed to limit the liability of the Design-Build Entity or its Subcontractors of any tier to the coverage provided by such insurance or otherwise limit the City's recourse to any remedy available at law or in equity.

9.12 Subcontractors' Insurance. The Design-Build Entity shall include in all subcontracts a requirement that the Subcontractors of every tier shall obtain and maintain, at a minimum, all insurance required by Articles 9 and 10 of this Agreement, except that the limits of liability and deductibles shall be in amounts determined by the Design-Build Entity, based on the degree of hazardous exposure according to the Work performed by each Subcontractor and the size of each subcontract.

Design-Build Entity shall ensure that any professional engineer retained on its behalf to provide supplemental plans and engineering calculations required in conjunction with the Work, maintains professional liability insurance during the entire term of this Agreement. Such insurance shall be in the minimum amount of \$1,000,000 to protect City from claims resulting from the engineer(s) activities. This minimum amount of coverage shall not constitute any limitation or cap on Design-Build Entity's indemnification obligations set forth herein.

The City reserves the right to request certificates of insurance from the Design-Build Entity for each Subcontractor. The Design-Build Entity acknowledges that regardless of insurance

obtained by its Subcontractors, the Design-Build Entity will be responsible to the City for any and all acts of its Subcontractors.

ARTICLE 10 - INDEMNITY/DUTY TO DEFEND

10.1 For Professional Design Services. Regarding Design-Build Entity's professional services, Design-Build Entity agrees to indemnify, hold harmless, protect, and reimburse actual defense costs to the maximum extent permitted by applicable law, the City, its City Council, and all of its respective officials, officers, directors, employees, managers, commission members, representatives, agents, council members, ("Indemnitees"), from and against any and all loss, damage, claims, allegations, actions, suits, arbitrations, administrative proceedings, regulatory proceedings, or other legal proceedings, causes of action, demands, costs, judgments, liens, stop notices, penalties, damages, losses, anticipated losses of revenue, expenses (including, but not limited to, any fees of accountants, attorneys, experts or other professionals, or investigation expenses), costs, including attorneys' fees, or losses of any kind or nature whatsoever, whether actual, threatened, or alleged, arising out of, resulting from or is in any way (either directly or indirectly) related to, or is in any manner connected with, the performance of Work, the Project, activities, operations or duties of Design-Build Entity, or anyone employed by or working under Design-Build Entity, and from all claims by anyone employed by or working under Design-Build Entity for services rendered to Design-Build Entity in the performance of this Agreement ("Indemnity Claims"), notwithstanding that the City may have benefited from their services. This indemnification obligation shall apply to Indemnity Claims to the extent such Indemnity Claims arise out of, pertain to, or relate to, any negligence, recklessness, or willful misconduct of the Design-Build Entity, and its design consultants performing landscape architecture, engineering, or land surveying in accordance with Civil Code 2782.8, or the Indemnity Claims arise out of or occur in connection with the performance of professional services under this Agreement including, without limitation, errors, omissions, inconsistencies, inaccuracies, deficiencies, and other defects in Instruments of Services and Construction Documents furnished by Design-Build Entity, regardless of whether or not the such errors, omissions, inconsistencies, inaccuracies, deficiencies, and other defects were included in any documents provided by City including City's Project Criteria. Design-Build Entity agrees that, because the Performance Criteria documents provided by City are preliminary and conceptual in nature and are subject to review and modification by Design-Build Entity: (a) it is appropriate for Design-Build Entity to assume liability for errors, omissions, inconsistencies, and other defects in the completed Project even though they may be related to errors, omissions, inconsistencies, and other defects in City's Performance Criteria and other documents provided by the City; and (b) such Performance Criteria and other documents provided by City shall not be deemed "design furnished" by City or any of the other Indemnified Parties, as the term "design furnished" is used in Civil Code section 2782.

10.2 Other Indemnities. Except as to the sole negligence, active negligence or willful misconduct of the City, and to the fullest extent permitted by law, Design-Build Entity assumes liability for and agrees, at Design-Build Entity's sole cost and expense, to promptly and fully indemnify and hold Indemnitees, harmless from and against any and all loss, damage, claims, allegations, actions, suits, arbitrations, administrative proceedings, regulatory proceedings, or other legal proceedings, causes of action, demands, costs, judgments, liens, stop notices, penalties, damages, losses, anticipated losses of revenue, expenses (including, but not limited to, any fees of accountants,

attorneys, experts or other professionals, or investigation expenses), costs, including attorneys' fees, or losses of any kind or nature whatsoever, whether actual, threatened or alleged, arising out of, resulting from or is in any way (either directly or indirectly) related to, or is in any manner connected with, the performance of Work, the Project, activities, operations, or duties of Design-Build Entity, or anyone employed by or working under Design-Build Entity, and from all claims by anyone employed by or working under Design-Build Entity for services rendered to Design-Build Entity in the performance of this Agreement ("Indemnity Claims"), notwithstanding that the City may have benefited from their services. This indemnification provision shall apply to any acts or omissions, willful misconduct, or negligent conduct, whether active or passive, on the part of Design-Build Entity or of anyone employed by or working under Design-Build Entity.

The parties expressly agree that any payment, attorneys' fees, costs, or expenses that the City incurs or makes to or on behalf of an injured employee under the City's self-administered workers' compensation is included as a loss, expense, or cost for the purposes of this Section, and that this Section shall survive the expiration or early termination of the Agreement.

10.3 Duty to Defend. Design-Build Entity agrees, at its sole cost and expense, to promptly defend the Indemnitees from all Indemnity Claims, except to the extent such Indemnity Claims arise from any negligence, recklessness, or willful misconduct of the Indemnitees, and its design consultants performing landscape architecture, engineering, or land surveying in accordance with Civil Code 2782.8. The duty of the Design-Build Entity to indemnify and hold harmless the Indemnitees includes the separate and independent duty to defend the Indemnitees, which duty arises immediately upon receipt by Design-Build Entity of the tender of any Indemnity Claim from an Indemnitee. The Design-Build Entity's obligation to defend the Indemnitees shall be at Design-Build Entity's sole expense and not be excused because of Design-Build Entity's inability to evaluate liability or because the Design-Build Entity evaluates liability and determines that the Design-Build Entity is not liable. This duty to defend shall apply, whether or not an Indemnity Claim has merit or is meritless, or which involves claims or allegations that any or all of the Indemnitees were actively, passively, or concurrently negligent, or which otherwise assert that the Indemnitees are responsible, in whole or in part, for any Indemnity Claim. Design-Build Entity agrees to provide this defense immediately upon written notice from the City, and with well-qualified, adequately insured, and experienced legal counsel acceptable to the City. Design-Build Entity will reimburse City for reasonable defense costs for claims arising out of Design-Build Entity's professional negligence based on the percentage of Design-Build's liability.

10.4 Design Consultant and Subcontractor Requirements. In addition to the requirements set forth hereinabove, Design-Build Entity shall ensure, by written agreement, that each of Design-Build Entity's design consultants and Subcontractors of every tier shall protect, defend, indemnify, and hold harmless the Indemnitees with respect to Indemnity Claims arising out of, in connection with, or in any way related to each such design consultants' services Subcontractors' Work on the Project in the same manner in which Design-Build Entity is required to protect, defend, indemnify, and hold the Indemnitees harmless. Notwithstanding the foregoing, this provision and any other indemnity provisions contained in the Contract Documents shall not be construed to require indemnification or defense by Design-Build Entity, design consultants, Subcontractors in excess of the indemnification and defense obligations permitted under California law including, without limitation, California Civil Code Sections 2782, 2782.05, and 2782.8. In the event Design-Build

Entity fails to obtain such defense and indemnity obligations from others as required herein, Design-Build Entity agrees to be fully responsible to the Indemnitees according to the terms of this Article.

10.5 No Limitation or Waiver of Rights. Design-Build Entity's obligations under this Article are in addition to any other rights or remedies which the Indemnitees may have under the law or under the Contract Documents. Design-Build Entity's indemnification and defense obligations set forth in this Article are separate and independent from the insurance provisions set forth in the Agreement and do not limit, in any way, the applicability, scope, or obligations set forth in such insurance provisions. The purchase of insurance by the Design-Build Entity with respect to the obligations required herein shall in no event be construed as fulfillment or discharge of such obligations. In any and all claims against the Indemnitees by any employee of the Design-Build Entity, any Subcontractor, any supplier of the Design-Build Entity or Subcontractors, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the obligations under this Article shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Design-Build Entity or any Subcontractor or any supplier of either of them, under workers' or workmen's compensation acts, disability benefit acts, or other employee benefit acts. Failure of the City to monitor compliance with these requirements imposes no additional obligations on the City and will in no way act as a waiver of any rights hereunder.

10.6 Withholding to Secure Obligations. In the event an Indemnity Claim arises prior to final payment to Design-Build Entity, the City may, in its sole discretion, reserve, retain, or apply any monies due Design-Build Entity for the purpose of resolving such Indemnity Claims; provided, however, the City may release such funds if the Design-Build Entity provides the City with reasonable assurances of protection of the Indemnitees' interests. The City shall, in its sole discretion, determine whether such assurances are reasonable.

10.7 Survival of Indemnity Obligations. Design-Build Entity's obligations under this Article are binding on Design-Build Entity's and its Subcontractors' successors, heirs, and assigns and shall survive the completion of the Work or termination of the Design-Build Entity's performance of the Work.

10.8 Independent Contractor. Design-Build Entity shall at all times during its performance of the Work retain its status as an independent contractor. Design-Build Entity's employees and agents shall under no circumstances be considered or held to be employees or agents of City and City shall have no obligation to pay or withhold state or federal taxes or provide workers' compensation or unemployment insurance for or on behalf of Design-Build Entity or its employees and agents.

ARTICLE 11 – PREVAILING WAGES

11.1 Public Work Project. This Project is a public work as defined in California Labor Code Section 1720. Design-Build Entity and all Subcontractors of any tier are required to pay all workers employed in the execution of the Work not less than the general prevailing wage rates of per diem wages and overtime and holiday wages determined by the Director of the Department of

Industrial Relations (“DIR”) under Section 1720 et seq. of the California Labor Code and implemented by Resolution No. 13346 of the City Council of the City of Riverside. This Project is subject to compliance monitoring and enforcement by the DIR. Design-Build Entity must post job site notices prescribed by regulation. Design-Build Entity and subcontractors on all public works projects shall submit electronic certified payrolls to the Labor Commissioner and City unless excused from this requirement.

12.3 **City's Right to Access and Audit Design-Build Entity's Project Documents.**

12.3.1 If the Design-Build Entity submits a claim to the City for additional compensation, the City shall have the right, as a condition to considering the claim, and as a basis for evaluation of the claim, and until the claim has been settled, to audit the Design-Build Entity's books to the extent they are relevant. This right shall include the right to examine books, records, documents, and other evidence and accounting procedures and practices, sufficient to discover and verify all direct and indirect costs of whatever nature claimed to have been incurred or anticipated to be incurred and for which the claim has been submitted. The right to audit shall include the right to inspect the Design-Build Entity's plant, or such parts thereof, as may be or have been engaged in the performance of the Work. The Design-Build Entity further agrees that the right to audit encompasses all subcontracts and is binding upon Subcontractors. 12.5 No Estoppel or Waiver by City. No action or failure to act by the City shall constitute a waiver of any right or duty afforded City under this Agreement, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically provided in this Agreement or as may be otherwise agreed in writing. The waiver by the City of any breach or violation of any term, covenant, or condition of this Agreement or of any provision, ordinance, or law shall not be deemed to be a waiver of any other term, covenant, condition, ordinance, or law or of any subsequent breach or violation of the same or of any other term, covenant, condition, ordinance, or law. The subsequent payment of any monies or fee by the City which may become due hereunder shall not be deemed to be a waiver of any preceding breach or violation by Design-Build Entity or any term, covenant, or condition of this Agreement or of any applicable law or ordinance.
