13

HAZARDOUS VEGETATION

**Riverside Municipal Code
Chapter 6.16**

*Vegetation Management and
Defensible Space*

Any vegetation native or
ornamental that is dead, dying,
overgrown, unmanaged, or
otherwise maintained in a
condition that creates a fire hazard
or contributes to the spread,
intensity, or ignition potential of a
wildland fire.

14

16

VEGETATION MANAGEMENT ENFORCEMENT

Riverside Municipal Code Chapter 6.16

Vegetation Management and Defensible Space

Property owners are **REQUIRED** to:

- ❖ Maintain defensible space around structures by reducing, clearing, or modifying vegetation.
- ❖ Remove dead, dying, or overgrown vegetation, ladder fuels, and combustible plant material.
- ❖ Ensure vegetation does not obstruct roadways, impair visibility, or interfere with emergency response.
- ❖ Manage parcels to prevent conditions that allow wildfire to spread rapidly between structures or open-space areas.

17
