RE: Disposal Fee Increase – FY 2025/26

The Riverside County Department of Waste Resources (Department) is responsible for assuring that there is, and will be in the future, sufficient and accessible landfill space to properly serve the population of the County in its disposal needs. To fulfill this mandate, the Department continually maintains and expands County landfill sites, and encourages, supports, and develops recycling programs that minimize the dependence on landfill disposal facilities.

Due to sustained increases in labor expenses, capital improvement costs, regulatory compliance costs, and closed site maintenance, an increase in disposal rates is essential to allow for continued and improved services. This letter serves as a notice that subject to approval by the Riverside County Board of Supervisors, landfill disposal rates will increase in FY 25/26 by the Consumer Price Index (CPI), which is 2.88% for calendar year 2024. The FY 25/26 rate for the Robert A Nelson Transfer Station/Materials Recovery Facility will be \$43.77 per ton. The new rate will become effective for tonnage deliveries starting on July 1, 2025.

Thank you for your past cooperation and support.

Sincerely,

Re: 2025 AMMRF Commercial Recycling Rate Adjustment

Dear Mr. Withers:

Below please find the Commercial Recycling Processing Rate effective July 1, 2025. Please note, the net recycling processing costs are subject to residue disposal charges and commodity values credits, if applicable. These additional costs are reflected in the monthly invoice statements that are provided to commercial haulers.

<u>Description</u>	<u>Current</u>	<u>New (7/1/25)</u>
Commercial Recycling Processing Fee*, **	\$87.73	\$92.12

*Plus residue disposal

**Less commodity values, if applicable

Please review and let us know if there are any questions or comments.
