MILLS ACT FEE

Mr. Watson presented the request from City Council to provide comment on Mills Act fees. He asked that the Board provide input regarding City Council's consideration of Mills Act fees adjustment.

Chair Gamble called for public comment.

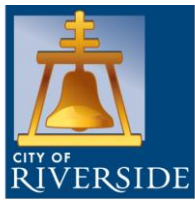

Nancy Larsen spoke in support of removing the Mills Act fee.

Chair Gamble noted there were no additional callers and closed the comment period.

Chair Gamble noted that the Board has no jurisdiction on fees but can make recommendations to Council regarding how much the City could subsidize these fees. She reminded the Board of the restrictions and requirements placed on all landmark properties. Although the property owners receive a discount on their taxes, they have to use and demonstrate how they used the funds for the upkeep of the properties. The City benefits from landmarks and historic districts more than an individual owner, because it creates a community. She stated that it is worth subsidizing the Mills Act fee.

Board McDoniel stated she disagreed with the General Plan surcharge and the Technology fee, it should not be added to the Mills Act fee. She stated that having a fee this high, nullifies the benefit of the program.

Board Member Sisson requested that the information he provided be distributed to the Board.

Motion by Board Member Sisson to present his non-agenda material relevant to the local body's recommendation to the agendized matter, seconded by Board Member McDoniel.

Board Member Tobin stated he did not feel comfortable in participating in a discussion against staff's counsel and would not participate in the discussion should the motion pass.

Board Member Sisson withdrew his motion under protest, Board Member McDoniel agreed.

Chair gamble addressed the surcharges. The resolution says that if the property owner benefits more so than the other owners but she did not believe they benefit. Surcharges should not be charged and asked the Board to consider taking the surcharges off of this program. She also suggested that no new fees be added to this program. She believed that a way to subsidizing this program should be found. She agreed with the process in other cities, like Corona, we should see the community take responsibility rather than the owner's requirement.

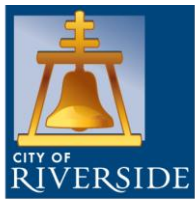

Motion by Board Member Tobin to continue this item for further discussion. Motion failed due to lack of second.

Chair Gamble stated that as much as she would like to move forward on this item today, she also wants the board members to feel comfortable.

Board Member McDoniel made the following suggestions:

- Increase the subsidy
- Follow a graduated tier such as the City of Glendale, as an option
- Remove the surcharges

A motion was made by Chair Gamble to: Remove the surcharge completely, No new fees be added to the cost, a suggested fee cost recovery of 30% to owner and 70% to the City.
